

SHE COULD NOT HOLD CUP OF TEA

DOCTORS AGREED TORONTO NURSE HAD BRIGHT'S DISEASE.

Dodd's Kidney Pills cured her after five years' suffering—Felt a benefit after first box.

Toronto, Ont., Dec. 26 (Special).—Mrs. Alberta Goffin, a nurse, living at 40 Wright Ave., this city, has been interviewed in regard to her reported cure of nervous or Kidney Trouble by Dodd's Kidney Pills. She states that the report is true in every particular.

"My sickness," Mrs. Goffin says, "was caused from a nervous breakdown and what the doctors called incurable Bright's Disease brought on by cold and long weeks of nursing. I suffered for five years.

"I was treated by three doctors and was a patient in two hospitals, but gradually got weaker. Reading the experiences of other sufferers like myself led me to try Dodd's Kidney Pills. At that time I was so weak and nervous I could not hold a cup of tea without spilling some of its contents.

"I felt a benefit after taking the first box of Dodd's Kidney Pills, and eight or nine boxes cured me so completely I can now walk a mile without fatigue."

If you haven't used Dodd's Kidney Pills yourself almost any of your neighbors will tell you they always cure Kidney Disease in any form.

Mrs. Winslow's Soothing Syrup

Has been used for over SIXTY-FIVE YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TREATING WITH PERFECT SUCCESS. IT SOOTHES THE GUMS, RESTORES THE GUMS, ALLAYS ALL PAIN; CURES WHOOPING COUGHS, and is the best remedy for BRONCHITIS, held by BRONCHITIS in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. Twenty-five cents a bottle. Sold under the Trade and Brand Mark, June 20th, 1896. Serial Number 1028. AN OLD AND WELL TRIED REMEDY.

Husband—"Hurrah! I've got a week's holiday." Wife—"How nice. Now you can dig the garden, clean out the cellar, and whitewash the kitchen."

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is.

There isn't a particle of danger in going up in an airship. It is the coming down that hurts.

The Japs did it. They applied the Mouthol Plaster in "The D & L" Mouthol Plaster, which relieves instantly headache, neuralgia, rheumatism and colic.

FEES THAT WERE FORTUNES.

Patients Who Showed Their Gratitude in Solid Shape.

In an English court a few days ago, two lawyers in turn mentioned a doctor who got \$25,000 for curing an old lady of a cold. At least the doctor said he got it, and indeed mentioned the fact on the witness stand.

Handsomer as it was there are many larger fees on record. It is not many years since the Nawab of Rampur caused an English army surgeon amazement and delight by presenting him with \$50,000 as an acknowledgment of his occasional attendance during an attack of rheumatism. This would, no doubt, be considered quite a moderate fee by Professor Zacherine, of Moscow, who, in return for two days' attendance on the Tsar of Russia, was, it is said, paid \$75,000.

An Englishman, however, once carried away from the Russian Court an even more valuable reward. This was Dr. Dimsdale, a Hertford physician, who was speedily summoned to inoculate the Empress Catherine and her son. He received \$60,000, a life pension of \$2,500 a year, and the rank of baron. Sir Astley Cooper once had a nightcap thrown at him by a wealthy patient upon whom he had operated. "I pocketed the affront," he remarked, and on investigation found that the nightcap contained a thousand guineas.

NOT MODERN INVENTION.

Typewriting Machine Had Prototype 90 Years Ago.

Most persons will be surprised to learn that the typewriter machine is not, as they imagine, a distinctly modern invention. So long ago as 1714 a patent was taken out in England by Henry Mill for "a machine for impressing letters singly and progressively as in writing, whereby all writings may be ingressed in paper so exact as not to be distinguishable from print."

His machine was, however, a clumsy one and practically useless. It was not until over a century later (1829), that anything more in this line was attempted. Then the first American typewriter, called a "typographer," was patented by W. A. Burt.

In 1823 a machine was produced in France having a separate key lever for each letter, and between the years 1840 and 1860 Sir Charles Whetstone invented several machines which are now preserved in the South Kensington Museum, London.

In 1873, C. L. Sholes, an American, after five or six years work, succeeded in producing a machine sufficiently perfect to warrant extensive manufacture. He interested a firm of gun manufacturers in it, and in 1874 the first model of the modern typewriter was put upon the market.

He—"Nellie, just look at that man standing behind me. I don't think I ever saw anyone so plain!" She—"Hush, dear; you forget yourself!"

To discern and deal immediately with causes and overcome them, rather than to battle with effects after the disease has secured a lodgement, is the chief aim of the medical man, and Bickle's Anti-Consumptive Syrup is the result of patient study along this particular line. At the first appearance of a cold the Syrup will be found a most efficient remedy, arresting development and speedily healing the affected parts, so that the ailment disappears.

Hicks—"There! For once I'll know where that collar-stud is when I want it." Mrs. Hicks—"Where is it?" Hicks—"The baby has swallowed it."

"A Little Child, You Know," will become a great danger if it be allowed to reach down the throat to the lungs. Nip the peril in the bud with Allen's Lung Balm, a sure remedy containing no opiates.

The man who boasts of calling a spade a spade may pass a snow shovel without being able to recognize it.

Pneumonia and Consumption are always preceded by an ordinary cold. Hamlin's Wizard Oil rubbed into the chest draws out the inflammation, breaks up the cold and prevents all serious trouble.

"I should be ashamed to go about begging as you do," said the farmer. "Takes all kinds of people to make a world," rejoined the tramp. "Here you is too proud to beg, and I'm too proud to work."

GOOD SHOWING MADE BY BANK OF OTTAWA.

The 36th Annual Statement a Good One.

The 36th annual report of the Bank of Ottawa shows a very gratifying condition of affairs. The net profits for the year ended November 30, 1910, after deducting expenses of management, etc., amounted to \$532,353. This with the \$455,919 balance at the credit of profit and loss account on the 30th November, 1909, makes a total of \$988,273. This has been appropriated as follows: Two quarterly dividends at the rate of 2½ per cent. and two quarterly dividends at the rate of 2¼ per cent. Four hundred thousand was added to rest account, \$100,000 written off bank premises and \$10,000 applied to officers' pension fund, leaving a balance carried forward at credit of profit and loss of \$117,938.

Evidences of the growth are shown by an examination of the statement. The rest account on the 30th of November, 1909, was \$3,297,000. It now stands at \$3,900,000, an increase of over \$600,000 during the year. This increase was made up partly by premium on new stock issued, and partly by the transfer, as mentioned above, of \$400,000 from the profits. The bank is now in the pleasing position of having a rest account \$400,000 greater than its paid-up capital, thus indicating a very sound condition of affairs. The fact that the bank was able to issue its new stock at a premium is also worthy of comment, and shows that the bank holds a warm place in the opinion of careful investors.

The bank is particularly strong in specie and assets immediately available, these amounting to practically \$14,000,000. The current loans of the bank increased during the year by over \$4,500,000, and now amount to \$28,421,000, thus indicating that the bank is doing its full share in meeting the business needs of the country. The total assets increased during the year by almost \$4,500,000, and have now attained the handsome total of \$43,654,000. During the year Mr. George Hay, former president of the bank, died. Mr. David MacLaren now occupies the chair.

A Pill that Proves its Value.—Those of weak stomach will find strength in Parmelee's Vegetable Pills, because they serve to maintain the healthful action of the stomach and the liver, irregularities in which are most distressing. Dyspeptics are well acquainted with them and value them at their proper worth. They have afforded relief when other preparations have failed, and have effected cures in ailments of long standing where other medicines were found unavailing.

A Cure for Rheumatism.—A painful and persistent form of rheumatism is caused by impurities in the blood, the result of defective action of the liver and kidneys. The blood becomes tainted by the introduction of uric acid, which causes much pain in the tissues and in the joints. Parmelee's Vegetable Pills are known to have effected many remarkable cures, and their use is strongly recommended. A trial of them will convince anyone of their value.

SHEPHERD'S IMPRISONMENT.

To be Released From Dartmoor From Sentence of 13 Years.

The old man whom Mr. Lloyd-George mentioned in his Mile End (London) speech as serving thirteen years' penal servitude for stealing two shillings from a church porch while under the influence of drink, is to be released soon. Mr. Churchill has come to the conclusion that he would be justified in advising the use of the prerogative of the Crown to release this man, who had now served more than a year, in the course of the next few months. In the meantime steps were being taken to procure him employment as a shepherd. It appeared that he was the most skillful shepherd ever known at Dartmoor and possessed the faculty of being able to call the individual sheep of a flock to him by their names. The prisoner had nine previous convictions. For stealing the two shillings he received three years, and, under the new Prevention of Crimes Act, for being an habitual criminal ten years' preventive detention.
