

FOUND QUICK CURE AFTER EIGHT YEARS

DOED'S KIDNEY PILLS TRIUMPH WHERE BELTS AND PLASTERS FAIL.

Moses Sherwood, a long sufferer from Backache, found permanent relief in one box of the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Poodiac, King's Co., N. B., Jan. 9 (Special).—After suffering for eight years, while all the time the remedy was right at hand, Mr. Moses Sherwood, a well known farmer living near here, tried Dodd's Kidney Pills and is now as well as ever he was in his life.

Mr. Sherwood's experience is similar to that of thousands of other natives of New Brunswick. "About eight years ago I hurt my back from lifting," he states. "I used liniments and plasters and wore a wide belt, but in two years my trouble had developed into Kidney disease. My back was so sore I could not lift any weight, when reading a Dodd's Almanac led me to try Dodd's Kidney Pills. Before the first box was finished my backache was gone and I have never been troubled with it since."

Belts and plasters may give temporary relief in cases of Backache or Rheumatism, but the only way to cure them is to go to the seat of the trouble. Cure the Kidneys and the Backache or Rheumatism will disappear. Dodd's Kidney Pills never fail to cure the Kidneys.

PERUVIAN RAIN TREE.

Power of Collecting Dampness in Atmosphere and Condensing It.

The rain tree of Peru grows very large, is rich in leaves and is called by the Indians tamaricampi. It has the power of collecting the dampness of the atmosphere and condensing it into a continuous copious supply of rain.

In the dry season when the rivers are low and the heat great the tree's power of condensing seems at the highest and water falls in abundance from the leaves and oozes from the trunk. The water spreads around in veritable rivers, part of which filters into the soil and fertilizes it. These rivers are canalized so as to regulate the course of the water.

It is estimated that one of the Peruvian rain trees will on an average yield nine gallons of water per diem. In a field of an area of one kilometer square—that is, 3,250 feet each way—can be grown 10,000 trees separated from each other by 25 meters. This plantation produces daily 385,000 liters of water. If we allow for evaporation and infiltration we have 135,000 liters or 29,531 gallons of rain for distribution daily. The rain tree can be cultivated with very little trouble, for it seems indifferent as to the soil in which it grows. The tree increases rapidly and resists both extremes of climate.

LITTLE HELPS

Feathers uncurled by damp weather are quickly dried by shaking over fire, in which salt has been thrown.

A pinch of salt on the tongue, followed 10 minutes afterward by a drink of cold water often cures sick headache.

Carpets are brightened and color preserved if wiped with clean cloth wrung out of salt water.

Celery Hint.—This is not the stringy, wilted kind you buy, but beautifully white and crisp. A small space of ground, two feet wide and length according to the number of plants wanted, is needed. Buy a package of self-blanching celery seed and plant in a box in March. Put box near a window and water occasionally. Transplant about middle of May or as soon as there is no danger of frost, in a trench, eight inches deep. Water plants every evening and keep soil loose. As the plants grow, bring the soil up around them, not covering entirely. Before a frost comes, dig celery roots and get all soil possible and transplant in cellar. Water about three times during the winter.

The rage for black velvet gowning reaches down to the tiniest feminine mites. A charming fad.

AGE LIMIT FOR DOCTORS.

Paris Court Thinks They Should Retire at 66.

The Paris Court has just given a decision which will be of interest to medical men as it raises the question of the age at which doctors ought to retire.

At the beginning of last year a well known Paris physician, Dr. Eugene Cheuriot, 66 years of age, was the victim of a serious automobile accident, which prevented him from following his practice for nine months and necessitated a long stay in the South of France. He brought an action against the owner of the automobile which overturned his coupe, claiming \$2,400 for medical treatment and his stay in the South; \$12,000 for loss of practice and \$30,000 for "diminution of clientele in the future because of the time during which he was away from his consulting rooms and of the loss of strength which will for the future prevent him from performing the same amount of work as before the accident."

The Court expressed the opinion that "at the age of Dr. Cheuriot, the greater number of medical men aspire to a well merited repose," and considered therefore that damages to the amount of \$12,000 would meet the case. From this it would seem that the Court thinks that doctors are too old at 66 to practise.

PROVED.

"You say he plays the violin?"
"Yes."
"Does he play it well?"
"He must do so, because he's on speaking terms with all his neighbors."

The new bags have coronet or initials in gold or small diamonds on their velvet background.

No Reasonable Man expects to cure a neglected cold in a day. But time and Allen's Lung Balsam will overcome the cold and stave off consumption. Cough will cease and lungs be sound as a new dollar.

Garlands or roses are now being draped over cloche hats for little tots. Silver or gilt tissue or soft satin are the materials most used.

While more prevalent in winter, when sudden changes in the weather try the strongest constitutions, colds and coughs and ailments of the throat may come in any season. At the first sight of derangement use Bickle's Anti-Consumptive Syrup. Instant relief will be experienced, and use of the medicine until the cold disappears will protect the lungs from attack. For anyone with throat or chest weakness it cannot be surpassed.

It has many qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will cure a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, cure the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself, and can be got for a quarter of a dollar.

A dollar fairly got is worth a thousand that are not.

We Must Go from heated rooms to the cold outer air, and the change sets us coughing. Curing winter colds is not hard if you take Allen's Lung Balsam. A neglected cold is troublesome and dangerous.

THE LIMIT.

A Toronto man who visited Britain last summer appears to think that country the champion tip-taker.

He says: "Well, I had tipped every man, from the swell gent who seemed to own the House of Commons down to the hireling who gummed the wrong labels on my luggage, and I went into the waiting-room on the landing-stage at Liverpool to wash my hands, and what do you think stared me in the face, when I had finished? A placard, 'Please tip the basin.' I'll be hanged if I did!"

Unshaven Person (entering barber's shop)—"I do not want a hair-singe, shampoo, electric massage, dandruff cure, or head-wash." Barber—"Well, what do you want?" Unshaven Person—"I want a shave." Barber (to assistant)—"Shave him, Bill. There's no law to prevent these chaps wasting our time."

Pills of attested value.—Parmales Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedative and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

They cleanse while they cure.—The vegetable compounds of which Parmelee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

IMPOSSIBLE.

Bobby's father is not a brilliant sort of man; it has been said in fact, that he errs decidedly in the other direction.

He took Bobby the other day on a short visit to some friends, and, thinking to make a good impression, he started a conversation.

"I had quite an adventure the other evening," he said. "At the corner of a dark street a man suddenly sprang out on me, and said that if I didn't give him my watch he'd knock my brains out. Fortunately, a policeman came along, and the man took to his heels!"

"And weren't you afraid?" asked his hostess.

"Afraid!" echoed Bobby's papa modestly. "Well, I hope not."

"But," went on the lady, "if he had carried out his threat?"
"Well," answered the visitor, "if he had—!" And then the loyal little Bobby struck in.
"I'll bet there's nobody who could knock any brains out of father!" he said proudly.
