The Liberal.

RICHMOND HILL, ONT., MAR. 9, 1911

THEN AND NOW.

Various reasons are given by the Conservative press why manufacturers and others oppose the proposed trade agreement with the United States, but the chief reason given by them is that it would be disloyal to Britain, and likely to lead to annexa.

When Sir John Macnonald was Premier of Canada his government placed on the statutes an act declaring that Canada would admit certain articles free of duty when they were made free in the United States. Section 9, Chap. 33, Vol. 1, Revised Statutes of Canada, reads as follows:--

"Any or all of the following things, that is to say, animals of all kinds, green fruit, hay, straw, bran, seeds of all kinds, vegetables, plants, trees and shrubs, coal and coke, salt, hops, wheat, pease and beans, barley, rye, oats, Indian corn, buck wheat and all other grain, flour of wheat and flour of rye, Indian meal and oatmeal, and flour or meal of any other grain, butter, cheese, fish, lard, tallow, meats, and lumber may be imported into Canada free of duty, or at a less rate of duty than is provided by this Act, upon proclamation of the Governor in Council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty, or at a rate of duty not exceeding that payable on the same under such proclamation when imported into Canada."

Nobody ever dreamed in 1886 that such a law as the above would lead to annexation, and there is no good reason to think that Canadians are less loyal now than they were

A number of people in the village and vicinity are again being worried by the receipt of what is known as the "chain letter." No fault need be found with the contents of the letter. except that God's vengeance is threatened to those who fail to pass a copy of the letter along to other people. No person should be disturbed by any such unreasonable threat. Writing letters is sometimes commendable, but there are other times when the person can be better employed.

Some of the Conservative papers admit that there are a few clever and even honest Grits in Canada. Those Grits are, however, all dead. The Toronto World does not always choose to wait for a Grit to die before pronouncing its eulogy. As soon as Hon. Clifford Sifton expressed his opposition to the reciprocity bill The World discovered at once that he was the big man in the Liberal party. By The World, therefore, it is not necessary that a Grit should die in order to be praised. All he has to do is to "kick over the traces."

Don't let quacks and fakirs rob you of your hard earned dellars.

NO NAMES USED WITHOUT WRITTEN CONSENT THREATENED WITH PARALYSIS

Peter E. Summers relates his experience:

"I was troubled with Nervous Debility
for many years. I lay it to indiscretion
and excesses in youth. I became very
despondent and aidn't care whether I
worked or not. I imagined everybody
who looked at me guessed my secret.
Imaginative dreams at night weakened
me—my back ached, had pains in the
back of my head, hands and feet were
cold, tired in the morning, poor appetite,
fingers were shaky, eyes blurred, hair
loose, memory poor, etc. Numbness in
the fingers set in and the doctor told me
he feared paralysis. I took all kinds of
medicines and tried many first-class

me leared paralysis. I took all kinds of medicines and tried thany first-class physicians, wore an electric belt for three months, but received little benefit, I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Merned Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.
