

The Orange Sentinel claims there is a "solid papal party" in Canada, and argues that there should be a "solid Protestant party." The Sentinel says "The Roman Church plays one party against the other, ready to take any side which seems to promise them the greatest advantage." The difference seems to be that whereas the Catholic Church is free to take either side in politics, the Sentinel invariably supports the Tory party.

When many of the foremost men of the world are working to bring about universal peace, does it not seem a pity that Sir Thomas Shaughnessy, president of the C.P.R., speaks so lightly and so flippantly of the horrors of war. Sir Thomas is reported as saying a few days ago, "It is very nice to hear all those noble purposes for the avoidance of war, but one is inclined to question whether the suppression of war is good for the world. A war, now and then acts after all, as a sort of clearance of the surplus population." With some people it seems to matter little how many mothers and widows are bereaved, or how many children are left to face the world alone. The world must be cleared of "surplus population."

A woman who signs herself "A Loyal Protestant," writing in the Sentinel, says: "The Orangeville School Board is composed of at least one-half Orangemen, and yet they have one Roman Catholic school teacher in their school, and are now about to engage another of the same faith." "I have no fault to find with the teacher. She is a nice person, I believe, but I have lived among Catholics and know what they are." "In view of recent proceedings among Roman Catholics it is wise to give them this power," &c.

Evidently the Orangeville School Board are guided more by common sense than by bigotry. It would be unwise to dispense with the services of a good teacher if her religion is her only "fault."

It is not surprising to find that the principal farm journals in Canada are very much in favor of the proposed trade agreement between the Dominion and the United States, giving this country a larger market for their products. The Canadian Farm, the Weekly Sun, the Farmers' Advocate and other papers have each given many good reasons why the larger market would be beneficial. The Farmers' Advocate had the following editorial note in a recent issue:—

"If anyone has cause to object to the reciprocity pact, it is the American farmer who yields us a more lucrative market than we open to him. But even he stands to lose little, and should welcome the agreement as a first step towards breaking down of that absurd and chaotic tariff under which he has been for generations fleeced."

Threshing Outfit For Sale

A First-Class Threshing Outfit for sale, with route principally on Yonge street, consisting of an 18x20 Traction Engine, a Waterloo Separator with Feeder and Stack, an Oshawa Clover Mill with Stack, a Climax 'A' Ensilage Cutter, and two Tanks and Pumps. The whole is in first-class running shape, doing a good business in the very best neighborhood. Ill-health reason for selling. For further particulars apply to H. A. NICHOLLS, Real Estate Agent, Richmond Hill.

For Sale

Eggs for hatching. \$1.00 for sitting of 15. Best strains of White Wyandottes and White Leghorns. J. HICKSON, Richmond Hill.

Canadians Eat Eggs From Many Countries

We Bought Over Nine Million Eggs from the United States Last Year and Large Quantities from China

Canada imported 893,324 dozen eggs during the fiscal year ending March 31, 1910. From the United States alone 757,316 dozen eggs came to Canada. China sent us 87,075 dozen, and Hong Kong 41,245 dozen, while small quantities came from Great Britain, France and Japan. Our egg exports amounted to 164,835 dozen, but only 39,917 dozen went from Canada to the United States, so that we bought from the Americans 717,399 dozen more eggs than we sold to them. Canada sold 33,465 dozen eggs to Great Britain, 20,917 dozen to Newfoundland, 10,700 dozen to Bermuda, 2,196 dozen to the British West Indies, 44,100 dozen to Cuba, 12,555 to St. Pierre and a few dozen to British Guiana, Mexico and China.

Deducting our total exports of eggs from our total imports of eggs it will be found that Canadians consumed 728,489 dozen more eggs than the total production of eggs in Canada.

The duty on eggs coming into Canada is three cents per dozen. If the Reciprocity Agreement goes into effect this duty will be removed and the importations of eggs will greatly increase.

A board of tariff experts, recently appointed by the United States Government to compare Canadian and American prices, has reported on the price of eggs at Buffalo, Toronto, Burlington, Vt., Montreal, Lancaster, N.H., Sherbrooke, Que., Ogdensburg, N.Y., Prescott, Ont., Bangor, Eastport and Calais, in Maine, and St. Stephen, N.B.

The statement of prices prepared in for the month of January, 1911, and the result of the enquiry is shown in the following table:

Place	Wholesale Price per doz.
Buffalo, N.Y.	.36
Toronto, Ont.	.40
Ogdensburg, N.Y.	.30
Prescott, Ont.	.32
Lancaster, N.H.	.27
Sherbrooke, Que.	.32
Burlingt., Vt.	.27
Montreal, Que.	.35
Bangor, Me.	.30
Calais, Me.	.28
Eastport, Me.	.26
St. Stephen, N.B.	.33

It will be noted that the prices in Canada were considerably higher than in the United States.

Reciprocity will give Canadian farmers the privilege of selling their eggs in the United States at lower prices than they can get for them in Canada, and it will give farmers of Australia, the United States and twelve other foreign countries the right to send eggs into Canada free of duty.

The report of the United States Government experts also deals with the prices of other farm products in the two countries. The Canadian Century will publish the figures in future issues and those who read them will be convinced that Canadian farmers have nothing to gain by Reciprocity with the United States.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.
Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skilful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never loose a day. I wish all sufferers knew of your valuable treatment."
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.
