

JUST ONE WOMAN IN THOUSANDS

WHO CAN SAY "DODD'S KIDNEY PILLS MADE ME WELL!"

Mrs. Louis Delorme who was always tired and nervous and suffered from Backache, tells how she found a cure.

St. Rose du Lac, Man., April 3 (Special)—The story of Mrs. Louis Delorme, a well known and highly respected resident of this place, is identical with that of thousands of other women in Canada. It is all the more interesting on that account. She was tired, nervous and worn out. Dodd's Kidney Pills cured her.

"I suffered for five years from Backache and too frequent urination, which destroyed my sleep," Mrs. Delorme states. "My head would ache, and I was always tired and nervous. My limbs were heavy, and I had a dragging sensation across the loins. Dodd's Kidney Pills made me well. I used in all ten boxes, but they fixed me up." Thousands of other Canadian women who have not used Dodd's Kidney Pills are in just the condition Mrs. Delorme was in before she used them. Thousands of others who were in that condition and who used Dodd's Kidney Pills, are now well and strong.

We learn from the experiences of others, and those experiences teach us that the weary and worn women of Canada can find relief in Dodd's Kidney Pills.

NO NEED TO.

A man entered a confectioner's shop and called for a lemonade. He drank it, and was about to walk out, when the landlord stopped him.

"Here, sir," he cried, "you haven't paid for that drink you had!"

"What's that you say?" asked the customer.

"I said you haven't paid for that lemonade."

"Did you pay for it?"

"Certainly I did!"

"Well, then, what's the good of both of us paying for it?"

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

DANGER IN CLEANLINESS.

Odd Opinion of Distinguished London Physician.

Somewhat novel views of the subject of bacteriology and hygiene were advanced by Sir Almroth Wright, M.D., F.R.S., in an address recently.

There was a belief, he said, that by washing, people washed off microbes. We did take off a certain amount of microbes, but we also destroyed the protective skin, which was all around our bodies, like the tiles of a house. If one had a skin like a tortoise, microbes would never get through. To have a Turkish bath was to take away one's horny protection.

A great deal of washing increases the microbes of the skin, he declared, so he did not think cleanliness was to be recommended as a hygienic method.

With regard to the belief that in cases of consumption, fresh air would make things right, he asked why it was this principle only applied to tubercular disease. He held it to be dreadful superstition. The whole doctrine of fresh air required to be revised.

Rich people, he asserted, surrounded themselves with all sorts of luxury, and took absolutely no interest in getting rid of the microbes that surrounded them. He had been in consultation with twenty-one doctors around a rich man's bed, and none of them knew anything about him.

KING AND SPORT.

Has No Hanking After Reputation of Being a Sporting Man.

Although King George intends to bestow his formal encouragement upon the social aspect of the Turf, it is an open secret at the Court that he does not mean to elevate the sport of horse-racing to a supreme place in his personal interests. King George is a firm believer in physical recreations for the nation at large. He desires to make it clear that, so far as he is concerned, personal effort in recreation deserves a higher place in the estimation of the people than mere attendance at spectacular sports. He is very proud—and does not hesitate to say so to his intimates—of the title of "sportsman," but he has no hanking after the reputation of being a "sporting man." While, therefore, he will go down to Epsom for the summer meeting, and drive from Windsor to Ascot in traditional state, King George intends to give every special encouragement to other forms of sport as opportunity serves.

BAGDAD FROM A DISTANCE.

Oriental City Looks Its Best From Afar Off.

Those of us who can think of Bagdad only as the magnificent city of Haroun-al-Raschid can hardly be expected to welcome the new international railway scheme. Let Bagdad remain forever inaccessible, except in dreams. But should the worst happen to Bagdad and the tomb of Zobeide become the shrine of British tourists the old city will have to undergo a few repairs. For it is safe from neither plague nor food. In one of the disasters of the last century the plague carried off 4,000 people daily for many days, and jealous Tigris overflowed its banks and destroyed several thousand houses and drowning 15,000 people. Like most Oriental cities, Bagdad looks her best from a distance. You miss the filthy, narrow streets, where two horses can hardly walk abreast, and behold a vision of luxuriant date groves, out of which rise little islands of green domes and graceful minarets. In the days of its splendor the East India Company maintained in the ancient city of the Caliphs a Resident, with a generous establishment; nowadays we are content with the usual modest Consular service.—London Chronicle.

The Best Liver Pill.—The action of the liver is easily disarranged. A sudden chill, undue exposure to the elements, over-indulgence in some favorite food, excess in drinking, are a few of the causes. But whatever may be the cause, Parmelee's Vegetable Pills can be relied upon as the best corrective that can be taken. They are the leading liver pills and they have no superiors among such preparations.

PASSED ON.

Mr. Lammenwell believed that to spare the rod spoil the child, therefore he kept in a certain closet a leather strap with which he administered punishment to his offspring when they committed any misdemeanor.

A few days ago he had occasion to need the strap, but it was missing from its usual place, and a thorough search of the entire house failed to discover it. Then he offered a reward of five cents to whomsoever of his olive branches could tell him what had become of the lost article.

"Gimme the five cents," cried four-year-old Tommy. "I know where it is."

When the coins were safely stowed away in his trousers' pocket he said, with much pride:

"I gave it to Willie Wilkin's father."

The merits of Bickle's Anti-Consumptive Syrup as a sure remedy for coughs and colds are attested by scores who know its power in giving almost instant relief when the throat is sore with coughing, and the whole pulmonary region disordered in consequence. MEANT WELL.

The old folks had had three days together.

"You have a pretty place here, John," remarked the guest on the morning of his departure. "But it looks a bit bare yet."

"Oh, that's because the trees are so young," answered the host comfortably. "I hope they'll have grown to a good size before you come again."

CURED OF LAME BACK WHEN 84.

Mr. Samuel Martin, of Strathroy, Ont., passed twenty years of his life in misery, suffering tortures from lame back. He tried nearly all advertised remedies and household recipes, but received no benefit from any of them.

Some months ago, seeing Gin Pills advertised, Mr. Martin purchased a box. The relief which Mr. Martin experienced after he had taken one box, was so great that he knew he had found the right remedy at last. He used two more boxes and is now completely cured.

CUTTING!

Private Doolan, the regimental barber, was well known for his carelessness. One day, while shaving Pat Dougherty, he had the misfortune to cut his patron's cheek several times.

Pat took all these gashes in grave silence, but when the shave was over he walked over to his water-bottle, which he had filled with water, took a mouthful, and, with compressed lips, proceeded to shake his head from side to side.

"What's the matter? You ain't got the toothache?" asked the barber.

"Whist! I was only trying if my mouth would hold water without leaking!" replied Pat.
