

CURED THE WIFE AND HUSBAND TOO

GREAT WORK DONE BY DODD'S KIDNEY PILLS IN ONE QUEBEC FAMILY.

Thomas Lauriault had Kidney Disease and his wife Bright's Disease, and Dodd's Kidney Pills made them both well.

Lac Cayamont, Que., April 10 (Special)—There is a world interest in the simple story of Madame Thomas Lauriault of this place. In her own words, it is as follows:

"Dodd's Kidney Pills cured my husband of Kidney Disease and myself of Bright's Disease. We recommend Dodd's Kidney Pills to all who suffer from Kidney or Bright's Disease."

This is a splendid example of the grand work Dodd's Kidney Pills are doing among the plain people of Canada. Kidney Disease is the commonest of all ailments among those who have to work hard, because the kidneys are the first part of the body to feel the wear and tear of heavy work.

When the kidneys go wrong the blood goes wrong, and the whole body goes wrong. Rheumatism, Dropsy, Diabetes and Bright's Disease are the usual results. Dodd's Kidney Pills cure these by simply curing the kidneys.

To Men Who Live Inactive Lives.—Exercise in the open air is the best tonic for the stomach and system generally; but there are those who are compelled to follow sedentary occupations and the inactivity tends to restrict the healthy action of the digestive organs and sickness follows. Parmelee's Vegetable Pills regulate the stomach and liver and restore healthy action. It is wise to have a packet of the pills always on hand.

Instead of hoping for the best, get busy and hustle for it.

POULTRY POINTERS.

When the chicks can get away from it at will, plenty of heat under the hover is a good thing.

Just one setting of thoroughbred eggs may be the means of working a revolution in your poultry business.

Plan to raise a fine flock of general purpose standard bred birds this season. They will yield much more satisfaction and profit than a mixed flock.

Give the setting hen a thorough dusting with insect powder two or three times during incubation. This may save your little chicks from lice and mites.

A DEADLOCK.

Johnny—"Grandpa, do lions go to heaven?"

Grandpa—"No, Johnny."

Johnny—"Well, do ministers?"

Grandpa—"Why, of course. Why do you ask?"

Johnny—"Well, suppose a lion eats a minister."

"My mistress isn't at home, ma'am," said a domestic to a caller. "Oh, indeed," was the sweetly sarcastic response. "Will you please tell her that when I saw her peeping from the front window as I came up I felt very much afraid she was!"

CHARGED WITH BAYONET.

Soldier's Deadly Cholera Caused Unusual Stir in Barracks.

A remarkable affair took place recently at the Infantry Barracks, York, England. A private soldier was taken before Col. King for a minor military offence and admonished, but not punished. When commanded to leave the room he drew a bayonet from one of the guards and made a determined rush at the colonel. He was stopped by Captain Peel (adjutant), who had a desperate struggle for the possession of the weapon. It was not until several members of the Guards had interfered that the man was overpowered. Colonel King and Captain Peel were uninjured, but the man had a finger broken in the struggle. He was confined in custody.

GRIP WORST OF DISEASES.

Famous Medical Man Says He Fears It Worse Than Smallpox.

Dr. Thomas Addis Emmet, the famous physician and surgeon, who has just published his autobiography, has this to say of grip:

"Of all diseases I fear the effects of grip more than any other. I would rather have an epidemic of cholera or smallpox, or both together, than one of grip. The disease is even more contagious than either cholera or smallpox. Sufferers should remain at home for their own benefit until convalescent. For several days the disease is being spread before the sufferer is likely to go to bed, when the probabilities are many suffer from pneumonia or some other complication which could have been avoided. The time must come when the law will compel the reporting of every case of grip to the Health Board as is done with other contagious diseases, from the fact that the beginning is generally so mild in character that the necessary care is not taken until too late."

When the very tip breaks off one blade of a pair of scissors the point may be renewed by filing or by rubbing hard on a whetstone. The points will be uneven, but they will cut. The same treatment is good for blunted needles.

Some men find courage only when they lose their tempers.

In its initial stages a cold is a local ailment easily dealt with. But many neglect it and the result is often the development of distressing seizures of the bronchial tubes and lungs that render life miserable for the unhappy victim. As a first aid there is nothing in the handy medicine line so certain in curative results as Bickle's Anti-Consumptive Syrup, the far-famed remedy for colds and coughs.

THE EARTH'S CRUST.

It is now believed that the solid crust of the earth cannot be thicker than 32 miles. From the earth's internal reservoir the heat radiations are believed to be passing away into space continually, but this loss is compensated for to some extent by the heat received from the sun.

WOMAN TRAVELS AFRICA.

Her Only Escort Was Her Black Bearers.

Mrs. Roby, wife of an American brain specialist now residing in Japan, is the first white woman who has ever travelled the wilds of Central Africa without a white escort.

Mrs. Roby, who has just returned to London, went to Australia in October, 1909, then to New Zealand, the South Sea Islands and thence to South Africa, arriving at Durban last May.

She followed the route taken by the Duke of Connaught in her tour of South Africa, but continued right up to Equatorial Africa, making an especial study of native conditions in the Congo.

"For hundreds of miles," says Mrs. Roby, "I was alone except for black bearers. When the bearers became mutinous I would deal with them unaided."

"I had one very good boy of the name of Thomas, who saved my life when I had a bad attack of fever. My temperature rose to 107 degrees. The boy persistently kept pouring cold water over my head after letting down my hair. I was quite unconscious and slept for five days."

HOW TO SAVE MONEY.

A Pointer to Housekeepers.

Look at the financial side of Zam-Buk's use. A cut sustained in the home, the store, or the workshop, results, say, in festering or blood-poisoning. You have to lay off a day or two. What does that mean when pay day comes round? Zam-Buk insures you against that loss! A little Zam-Buk applied to such an injury prevents all danger of blood-poisoning, takes out the smarting and heals.

Heads of families know how costly doctoring is. Be wise and act on the preventive line. A box of Zam-Buk in the home is so all-round useful. The baby's rashes, the older children's cuts and bruises, the inevitable burn, cut, or scald—for all these, as well as for more serious ailments, such as piles, ulcers, eczema, ringworm, etc., Zam-Buk is without a rival.

Dangers of Shaving.—You get a cut at the barber's shop. A little Zam-Buk smeared on the wound prevents all danger. If any ailment has been contracted, Zam-Buk cures.

Zam-Buk Soap is as good as the balm, but in a different way. Washed in Zam-Buk Soap the skin is disinfected and disease germs lying upon it are killed. Mothers will find it unequalled for baby's bath.

Zam-Buk Balm and Zam-Buk Soap are sold by all druggists and stores at 50c. for the balm and 25c. tablet for the soap.

Many a young lawyer fails to make good because he practises at the wrong bar.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

SNIPS OF WISDOM.

Men who have never failed don't believe in luck.

Hard work is the best antidote for hard luck.

It's as useless to worry as it is to tell people not to worry.

Flattery is the tribute that vanity exacts from friendship.

A liberal-minded woman isn't always giving her husband a piece of it.

Fortunately for most of us, we are not compelled to follow our own advice.

The man who lives right, lives the longest—if not in years, in satisfaction.

One day of noble thinking and generous acts is worth a life of selfishness and deceit.
