

ANGLICAN LETTER.

The House of Bishops of the Anglican Church in Canada has issued a circular letter on the marriage question which should commend itself to all who regard the sanctity of marriage. The letter which is to be read in every Anglican church in Canada next Sunday makes it clear that "mixed marriages" are to be deprecated, as they deprive husband and wife of that mutual help which the one should be to the other in life," but if such marriages are duly solemnized, they are to be valid and binding. Discussions in various parts of the country have been warm owing to a decision in the courts of the Province of Quebec annulling a marriage between two members of the Roman Church, solemnized by one authorized by the State to officiate at marriages.

Another paragraph of the letter reads:—

"We believe the said decision to be contrary to the Christian ideal of marriage, to involve grave civil injustice and to be in its consequences destructive to the home life of the people." The letter concludes with the following paragraph:—

"We urge upon all the duty of safeguarding in every way the sanctity of marriage, and we deprecate and deplore all interference with legally sanctioned family life as fraught, not only with injustice, humiliation and suffering to the parties concerned, but as imperilling the fundamental basis of our social system."

THE BARLEY QUESTION.

Ontario farmers remember that previous to 1890 when a duty of 30 cents a bushel was put upon barley, that grain was one of the best paying crops they had. Some farmers, however, now seem to think that American buyers do not want Canadian barley, and that even with the duty taken off the price of barley would not advance here. A discussion at the hearing of the Finance Committee of the Senate at Washington last Friday indicates that Canadian barley is much in demand, and that the removal of the duty would at once raise the price.

Henry Burns, a Buffalo malster, was before the Committee when the following discussion took place:—

"Canadian barley is the best that grows out of doors" said Mr. Burns.

"If you get Canadian, barley free of the 30 cents duty you will reduce the price that much to the American farmer," declared Senator Smoot.

"No, it will not reduce the price one cent," answered Mr. Burns. "Barley is \$1.12 in Buffalo to-day, and I would give \$1.15 for Canadian if I could get it."

"Then," asked Senator Bailey, "would the effect of repealing the duty be to raise the price in Canada to our level?"

"Yes."

"Then why not import it now and pay the duty?"

"Because there is none to be had. The American tariff has destroyed the barley industry in Ontario."

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.
Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Mercuron Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never loose a day. I wish all sufferers knew of your valuable treatment."

Stampede of Cattle North of Town

It is said there was considerable excitement on a well-known farm hereabouts when several head of frightened cattle recently undertook to break down the fence that kept them off the roadway.

But the owner said that his fence "turned" them in such a "kind, gentle, soothing" way that they changed their minds in a hurry, but were in no way injured by the shock.

That is one big advantage in a fence—to repel the attacks of animals with just enough "give" to protect them, but still with the strength and stand-up ability that settles the matter that there is no getting through, over or under.

The fence in question was the American—"the fence of a million farms," and its record of wear and weather-resisting quality is well worth investigating by any farmer who wants every dollar of his fence money to go the furthest—secure the most. American Fences are sold in weights and sizes for every purpose by
