Maple.

The raising of a large barn 82 ft by 40 ft, on the farm of Mrs. Caleb Crook of Hope, was an interesting event last Friday afternoon. The captains were Mr. J. Cameron and Mr. J. McLean, the side of the former being victorious. A large number of smokers were present from Toronto, Teston, King and other places, some of whom had never seen a barn raising before. Large tables were spread on the lawn and everyone did justice to the splendid supper prepared by Mrs. Crook and her assistants. Mrs. J. After the addresses the large gathering sat down to a sumptuous repast such as only the ladies of North York can prepare and all went home feeling that they had spent a very profitable afternoon.

The commissioners were well satisfied with their inspection, and they believe that in the near future the cost of road construction will be considerably reduced by the use of gasoline rollers and graders in place of steam.

A GOOD POSITION.

Many young men and women would like to get good positions in the business world, but cannot, owing to lack of practical education. One school that places many of its graduates in good positions is the Elliott Business College of Toronto. Write to the College for a Catalogue. It is sure to interest any ambitious young man or woman.

MISLEADING.

The North Toronto Progress pointed out last week that a despatch from Stouffville, printed in The World, which claimed that Stouffville's water supply was limited during the dry spell, and that the supply was obtained from the Lemonville wells, was misleading. The Progress has produced several photos showing the immense volume of water produced from the wells near Lemonville which have been flowing for eleven years without variation. Experts have assured North Toronto that the Stouffville supply has no effect or connection with the wells at Lemonville.

ELECTRIC RAILWAY.

A communication from the management of the Toronto and York Radial Railway Company was brought to our notice this week wherein it was stated that it was the intention of the company, almost immediately, to make an investigation as to the nature of the country between Richmond Hill and Stouffville with the view of building a branch line to Stouffville and perhaps farther.—Stouffville Tribune.
