

ECZEMA IS CAUSED BY IMPURE BLOOD

Cured by Dr. Williams' Pink Pills Because They Make Pure Blood

Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it that does not reach the blood—that salves and outward applications are worthless and a waste of money. The reason why Dr. Williams' Pink Pills have always been so successful in curing this most annoying trouble is because they act directly on the blood, reaching the root of the trouble and driving out all impurities. They banish eczema, salt rheum, and unsightly pimples and eruptions, relieve the irritation and itching and give perfect health. Mrs. A. Puling, of Milestone, Sask., says: "I was afflicted with a blood and skin disease which the doctor called eczema, but which did not yield in the least to his treatment. I was covered with sores and in very bad shape. A friend advised me to take Dr. Williams' Pink Pills and after using eight or nine boxes I was completely cured. I can strongly recommend the Pills to anyone suffering from that trouble."

A medicine that can make new, red blood will cure not only skin troubles, but also anaemia, rheumatism, neuralgia, indigestion and a host of other troubles simply because these troubles are the result of bad blood. Dr. Williams' Pink Pills make new blood and under their use blood and nerve troubles disappear. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THAT'S WHY.

Benedict—"Do you know, old man, I don't spend so much money now as I did before I was married?"

Bachelor—"How's that?"

Benedict—"Well, I don't have it to spend."

If attacked with cholera or summer complaint of any kind send at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. Those who have used this cholera medicine say it acts promptly, and never fails to effect a thorough cure.

A FAIR QUESTION.

Willie—"Teacher says that we're here to help others."

Pa—"Of course we are."

Willie—"Well, what are the others here for?"

TWO ANGLERS.

A barefoot boy,
A white birch pole;
A can of worms,
A swimmin' hole.
A baited hook,
A tug and swish;
A steady haul,
A string of fish.

A white duck suit,
A canvas boat;
A costly rod,
A patent float,
A gaudy fly,
A cast and swish;
A pretty sight,
But nary fish!

SALADS.

Spinach Salad.—Take half a peck of fresh spinach, wash it thoroughly in several waters, put in steamer, and steam for fifteen minutes turn into a colander and drain. Chop fine, season with salt pepper, and two tablespoonfuls of melted butter. Mix well and press into small molds or cups. When cold, place each form on a lettuce leaf and put a spoonful of mayonnaise dressing on top. Fine.

Sunday Night Salad.—Calf's brains, boiled in salt and water, chilled on ice, cut in small dice, and served on a bed of lettuce with mayonnaise make a delicious hot weather dish for Sunday night.

Tomato Salad.—Cover tomatoes with boiling water; let stand five minutes, then peel and slice; chill, arrange on lettuce leaves, sprinkle with salt and garnish with dressing.

Economical Dressing.—One tablespoonful of butter, one large tablespoonful of flour, one-half teaspoonful of salt, one teaspoonful ground mustard, or pinch of cayenne pepper. Beat these ingredients together, then add enough hot water to make a thin custard, cooking until smooth in a double boiler, then cool and place on ice. Two cupfuls of olive oil, yolks of two eggs, vinegar or lemon juice to taste. Beat eggs and drop in the oil until it begins to thicken, then add oil and vinegar alternately, until all the oil is used and the mixture is of the consistency of thick cream. Then add the ice cold custard and beat hard; lastly add the beaten white of one egg. Put in mason jar in ice chest and it will last a week and is more delicate than the pure mayonnaise.

"I thought your daughters were taking French?" says the friend.

"We thought they were, too," answers the father, "but it seems that the small quantity they absorb simply vaccinated them."

"I want a pair of shoes that will be plenty large enough," she said, as the clerk looked into her old one to find the number.

"In that case," he replied, "perhaps you had better step over into the men's department."

ISSUE 36-11

TOOTHLESS SAWS.

Toothless saws have been in use cutting armor plate for a number of years. The theory of the action is abrasion by local fusion due to the very high speed of the disk, causing so many thousand inches of surface to impinge on the metal under-cut that the material acted upon is heated at the point of contact to a temperature approaching if not equal to the fusing point. It appears as if a very small portion of the metal being cut immediately in the neighborhood of the point of contact is first melted and at once rubbed off, thus exposing a fresh surface to the frictional action, and that this process goes on continuously while the disk is working. The temperature of the disk must necessarily be much lower than the work in contact with it owing to its large surface area, and when it is considered that all the frictional energy of the rotating disk is concentrated on an extremely small area of contact in the material subjected to its action the results obtained are not so surprising as appear at first sight.—Cassier's Magazine.

Relief for the Depressed.—Physical and mental depression usually have their origin in a disordered state of the stomach and liver, as when these organs are deranged in their action the whole system is affected. Try Parmelee's Vegetable Pills. They revive the digestive processes, act beneficially on the nerves and restore the spirits as no other pills will. They are cheap, simple and sure, and the effects are lasting.

THE RETORT COURTEOUS.

"The trouble with you is that you keep constantly forgetting that you ever were a boy." It was his wife who said it, and he, of course, came right back with the witty reply:

"Well, you never forget that you were once a girl, although everybody else forgot it years and years ago."

FRANCE ENCOURAGES THRIFT.

With a view to encouraging thrift, in France, M. Chaumet, under secretary of state to the post office, has issued a circular to the directors of departments, from which it appears that various municipalities intend to put a franc in the savings banks in the name of every child as soon as it is born. By way of assisting the communes in their laudable efforts to encourage the habit of saving among children the Post Office Savings Bank will accept the deposits made in the names of newly-born babies. There is a stipulation that the children cannot withdraw the deposits made by the parish until they have reached their majority, or get married.

The good effects of the pills will be almost immediately evident.

PIE.

Delicious Spice Pie.—The yolks of three eggs, one and one-half cups of sugar, one cup of good cream, two tablespoons of flour, two thirds of a cup of butter, one teaspoon of spice, cloves, cinnamon, and nutmeg. Mix flour and sugar together, then cream with butter; add yolks of eggs, beating thoroughly; next add cream and spices. Use the whites for the frosting on top.

Cream Pie.—Crust—Two tablespoons butter, one and one-half tablespoons sugar and the yolk of one egg; cream butter and sugar; beat the yolk well and add; then add a small cup of flour. This resembles a mass of crumbs. Press into a pie tin with the back of a spoon; bake until a light brown. Fill with the following cream: One pint of milk in the double boiler; mix well together three tablespoons of sugar and three tablespoons of flour; add to the boiling milk; cook until thick; then add the yolks of three eggs; cook for a while, then take from fire and add one tablespoon of vanilla. Cover with a meringue made of the well beaten whites of four eggs and a little sugar; cover the pie with this and brown nicely in oven. This is a delicious pie, and easily digested.
