## Silver Pine Healing Oil

### Healed a Barb-Wire Cut without leaving a scratch

Mrs. KATE McCRAE, of MOWBRAY, MAN., writes:  
"Please send me a bottle of your Silver Pine Healing Oil. I had a cut last winter with barb-wire. I used half a bottle and it healed up and didn't leave a scratch. Now I have another cut that has got cut that I calculate to heal with what is left, but I would like to have you send me another bottle if I should happen to need it, for I think I could not get on without it."

For all kinds of wounds, bruises, burns and sores on animals or human beings, Silver Pine Healing Oil is a quick, safe and wonderful healer. Keep a bottle on hand for times of need. In 25c., 50c and \$1.00 bottles, at your dealer's or from the International Stock Food Co., Limited, Toronto, Can.

## RAILWAYS IN AFRICA.

**The Enterprise of the Germans on the West Coast.**

The Deutsche Kolonialblatt, printed in Germany, publishes the information that the Central African Railway, starting from Dar-es-Salaam on the West Coast, has now reached the station of Tura and is now only eighty-three miles from Tabora, says the London Standard. The company is said to be now laying down the line at the rate of sixteen miles a month, so that it would reach Tabora in the spring of next year, or nearly two years earlier than was expected when the scheme came before the Reichstag in

1904. At that time, it may be remembered the concession was approved as far as Morogoro, and the line first reached this place in October, 1909. It was then decided to prolong it for another 460 miles to Tabora.

The first part of the new section was difficult, and at the beginning of 1910 the work had only got as far as Kideten, a little more than eighty miles. From here onward, however, a vast tableland stretches almost to Lake Tanganyika, and the 330th mile is now under construction.

There is little doubt that when Tabora is reached the line will be further prolonged to Oujidi, on the lake, as soon as the Reichstag has approved the extension. Although the line has a certain commercial value, its principal object is political, and it must be looked at in conjunction with the great scheme of the late King of the Belgians for a transafrican line which he placed before the Geographical Congress of Brussels in 1876. It lay dormant for many years, but has lately been taken up again seriously.

At present the Belgian-Congo Railway runs from Matadi to Leopoldville, and from there a steamer service goes up the Sankuru River 1,124 miles from the Atlantic coast to Lussambo. There remains a little more than 460 miles between Lussambo and Lake Tanganyika. A Belgian company, styled the Company of the Upper Congo and African Lakes, has already commenced operations by surveying for a line from Lukuga to the lake at Cabalo, and is applying for a new concession to join Cabalo and Mutombo, thus completing the Belgian-German chain of railway and steamer services across the continent.

It is calculated in Belgium that the line from Cabalo to Mutombo could be finished in 1914, which is about the date the German line should reach Oujidi. That this is no "wildcat" scheme is proved by a recent announcement in the Kolnische Zeitung that the capital of the above named company was to be raised from £2,000,000 to £3,000,000, in order to bring the terminus at Tanganyika opposite the German one. It is more than probable that in the negotiations now proceeding at Berlin this, transafrican railway project of Germany will be taken into consideration.

Nearly all infants are more or less subject to diarrhoea and such complaints while teething, and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. D. Kellogg's Dysentery Cordial. This medicine is a specific for such complaints and is highly spoken of by those who have used it. The proprietors claim it will cure any case of cholera or summer complaint.

### QUITE TRUE.

Don't hate the man who skins you, With more than passing vim; Somebody, somewhere, surely,

Is busy skinning him. And while we're on the subject, Consider this much, too: You're probably skinning someone, While someone else skins you.

Thousands of country people know the value of Hamlin's Wizard Oil, the best family medicine in case of accident or sudden illness. For the safety of your family buy a bottle now.

Mother—"Where are those oranges that were on the table?" Tommy—"With the tarts that were in the cupboard, I suppose."

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

### A JAPANESE SLEEPING CAR.

This night we had our first experience in a Japanese sleeping car, says a writer in the Railway Gazette. The track is narrow gauge and the standard sleeping cars have six seats running lengthwise, each seating two passengers, with a centre aisle. The upper berth is the regular Pullman style and a section will accommodate two passengers. The night was during the extreme heat of midsummer, the car was crowded, and in addition to the regular curtains each berth was provided with a mosquito bar, which added to the general discomfort. Passengers were taken on and let down at all stops, so there was constant procession through the aisle all night. Part of the car was reserved for local accommodation, and those who sat up smoked incessantly, so that long before morning the atmosphere became intolerable.

## THE SAFETY OF A BOND INVESTMENT

Q Bonds are the most attractive investment because of the security they afford the investor, principal and interest being a first charge on all the assets of the Corporation issuing them.

Q Because of general prosperity, development and expansion of the business of Corporations or concerns—financial and industrial—the material assets naturally increase, and so year by year the security to the bond investor becomes greater and the safety of bond investments more certain.

Q Bonds yield a very liberal rate of interest when one takes into consideration the high degree of security they offer.

### FORCE OF HABIT.

The telephone girl was on her vacation and fishing. Some one in another boat called, "Hello!" Just then she got a bite. "Line's busy!" she answered.

The microscope in the hands of experts employed by the United States Government has revealed the fact that a house fly sometimes carries thousands of disease germs attached to its hairy body. The continuous use of Wilson's Fly Pads will prevent all danger of infection from that source by killing both the germs and the flies.

"I vont to leaf five thousand dollars to each of my clerks dot haf peen in my employ twenty years," said a Jewish merchant to the lawyer who was drafting his will. "Why, that's very liberal!" responded the solicitor. "Not at all! None of tem haf peen mit me, offer von year, und it vill look good, von't it?"

Don't experiment with unsatisfactory substitutes. Wilson's Fly Pads kill many times more house flies than any other known article.

Mrs. Kinder (reflectively) — "I wonder why a man never pays his wife any compliments after they are married?" Kinder (briskly) — "He does better, my dear—he pays her bills."

### Minard's Liniment Cures Dandruff.

Mrs. White (sympathetically) — "So your husband is in trouble again, Maud?" Mrs. Black (cheerily) — "No, mum; he's out o' trouble just now. The scoundrel's in jail."

Always Serviceable.—Most pills lose their properties with age. Not so with Parmelee's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelee's. They will maintain their freshness and potency for a long time.

Stranger (after an examination) — "Well, doctor, what do you think? Have I the gout?" Great Physician — "Hem! Er—what is your income?" "One thousand a year." "No. You have a sore foot."

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Cure.

## AN ICELAND FARMHOUSE.

The Apartments Are Peculiarly Fitted Up.

The guest room contained a narrow bed, a big round table, and an organ. Our host produced the usual box of snuff, and with it a box of good cigars.

The host and hostess then showed us all over the house. It is a turf structure, and is typical of the older farm-house, with narrow, dark, windowless corridors, winding in labyrinthian maze from room to room. One passageway leads to a large open mound, where a fire is made to smoke meat and fish, and incidentally the whole house and everything in it. Another passage leads to another kitchen with a modern stove. The walls are all of turf, as is the roof, with just enough driftwood in the roof to make a framework to hold it in place. Very steep stairs lead up to the badstofa, or sleeping apartment. The badstofa frequently forms the sitting and common work room of the family, especially in winter, as well as the sleeping room of the entire household.

Bunks built into the wall extend around the room and are often filled with seaweed or feathers, over which is thrown a fold or two of wadmal and a thick coverlet of eiderdown. The floors are some times covered with boards, but more often consist of damp earth. From the ceiling are suspended numerous articles of domestic economy, while large chests containing clothing and valuables are scattered throughout the house.

### UNKIND ANSWER.

Mr. Wibbles—What fine dark hair you have, Miss Knox. My wife, who is younger than you are, has her hair quite gray.

Miss Knox—Yes, and if I'd been your wife no doubt my hair would have been gray, too.

It is Wise to Prevent Disorder.—Many causes lead to disorders of the stomach and few are free from them. At the first manifestations that the stomach and liver are not performing their functions, a course of Parmelee's Vegetable Pills should be tried, and it will be found that the digestive organs will speedily resume healthy action. Laxatives and sedatives are so blended in these pills that no other preparation could be so effective as they.

### TAKING NO CHANCES.

Storekeeper—"I want a boy to be partly indoors and partly outdoors."

Boy—"What becomes of me when the door slams?"

Minard's Liniment Co., Limited. Carterhall, Nfld. Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disabled for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes. Yours truly, W. A. V. R.

The average man doesn't think he is having a good time unless he makes a fool of himself.

Wilson's Fly Pads, the best of all fly killers, kill both the flies and the disease germs.

Some people's idea of a helping hand is one that is lined with silver.

Mothers Value This Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Eclectic Oil, because experience has taught them that there is no better preparation to be had for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

"If you marry Grace," exclaimed an irate father to his son, "I'll cut you off without a penny, and you won't have so much as a piece of pork to boil in the pot." "Well," said the young man, "Grace before meat," and he immediately went in search of a clergyman.

Mrs. Skinnum—"Why are you all hiding from Tommy?" Little Lizzie—"We are playing 'grown-ups,' and Tommy is the butcher come with his bill."

Consider the running expense of a fast young man.

## MAGISTRATE CURED OF PILES & ECZEMA

One of the latest prominent gentlemen to speak highly in Zam-Buk's favour is Mr. C. E. Sanford of Weston, King's Co., N.S. Mr. Sanford is a Justice of the Peace for the County, and a member of the Board of School Commissioners. He is also Deacon of the Baptist Church in Berwick. Indeed it would be difficult to find a man more widely known and more highly respected. He is his opinion of Zam-Buk. He says:—

"I never used anything that gave me such satisfaction as Zam-Buk. I had a patch of Eczema on my ankle which had been there for over 20 years. Sometimes also the disease would break out on my shoulders. I had applied various ointments and tried all sorts of things to obtain a cure, but in vain. Zam-Buk, unlike everything else I had tried, proved highly satisfactory and cured the ailment. I have also used Zam-Buk for itching piles, and it has cured them completely also. I take comfort in helping my brother men, and if the publication of my opinion of the healing value of Zam-Buk will lead other sufferers to try it, I should be glad. For the relief of suffering caused by Piles or Skin Diseases I know of nothing to equal Zam-Buk." Zam-Buk cures ulcers, abscesses, blood-poison, ring-worm, festering or running sores, bad leg, varicose ulcers, salt rheum, prairie itch, cuts, burns, bruises, baby's sores, etc. Purely herbal, 50c box, druggists and stores. Refuse imitations.
