

EVERY PLACE ON THE WIDE PRAIRIES

TELLS OF CURES MADE BY DODD'S KIDNEY PILLS.

Thos. Griffin, of Peace River Land-
ing, tells how he got rid of his
Rheumatism — honestly earned
popularity.

Cold Springs, Peace River Land-
ing, Alta., Dec. 26 (Special)—Just
why Dodd's Kidney Pills retain
their wonderful popularity is eas-
ily shown by a trip across the
prairies. Every town, village and
post-office has at least one man or
woman who is ready to tell of pains
relieved and health restored by the
great Canadian Kidney Remedy.
Let Thos. Griffin of this place add
his statement to the hosts already
published.

"When I came to this part of the
country," says Mr. Griffin, "I was
troubled with a bad back and
Rheumatism in my shoulders and
hips. I sent for six boxes of Dodd's
Kidney Pills and they gave me re-
lief at once. I also recommended
them to my eldest son who was
confined to his bed from Rheuma-
tism.

"Now I know that Dodd's Kid-
ney Pills are the best medicine for
Rheumatism and the Kidneys. I
recommend them to every person I
hear complaining of not feeling
well."

Dodd's Kidney Pills made their
popularity by curing sick Kidneys.
They keep their popularity by
keeping on curing sick kidneys.

CHANGES IN FLOWERS.

Many of Our Most Beautiful Ones
are Modern Productions.

It is a truly astonishing thing to
reflect that Shakespeare, for all his
love of flowers, would have been
able to name scarcely a single
bloom in a twentieth century gar-
den, says the Strand. He would
hardly have been able to distinguish
the queen of flowers itself, so
greatly has the rose changed in the
last three centuries.

As for the begonias, the chry-
santhemums, the dahlias, the ger-
aniums, the fuchsias and carnations,
these were unknown even to
our great-grandfathers. Many of
our most beautiful flowers are
purely modern productions.

Three centuries ago there were
what were then thought of as gar-
den flowers in England. There were
herbaria, places where
rosemary, mint, rue, thyme and
sage grew, and perhaps a few
primitive blooms, such as violets
and primroses, were suffered to ex-
ist, much as poppies and corn-
flowers do to-day.

Many well known plants have
been developed from specimens
discovered in various parts of the
world, and there is no doubt that
a number of charming novelties are
still lurking undiscovered in re-
mote spots. The chances of valu-
able finds are, however, becoming
unfortunately less every year.

Eczema Always Burning and Itching

Mr. N. Ostiguy.

Used Box of Cuticura Ointment and
It Completely Disappeared.

"I have suffered from eczema for two years.
The trouble began on one arm where there
appeared a red spot of about a five-cent size,
and it always widened, all the time itching
and burning. The first days I didn't care,
but seeing that it gained in size, I tried
Ointment and Ointment, but both
without success. It was always burning and
itching. Having seen in the newspaper the
advertisement of the Cuticura Remedies, I
tried a little, and seeing that it improved,
I bought a box of the Cuticura Ointment.
After having used one box, my eczema com-
pletely disappeared. The Cuticura Ointment
should be kept in every home." (Signed)
N. Ostiguy, Marienville, Que., Jan. 14, 1911.

A Generation of Success

For more than a generation Cuticura Soap
and Cuticura Ointment have afforded the
speediest and most economical treatment for
itching, burning, scaly and bleeding skin and
scalp humors, of young and old. A single
set is often sufficient. Sold by druggists
and dealers everywhere. For a liberal sample
of Cuticura Soap and Ointment, post-free
with 32-p. book on skin eruptions, send to
Potter Drug & Chem. Corp., sole props., 64
N. Columbus Ave., Boston, U. S. A.

small army of collectors is always
at work in every corner of the world
searching for new treasures to en-
rich our floral store.

From South America came many
years ago, the recently unfash-
ionable fuchsia; from the hills of
northern India and Tibet have been
brought many useful varieties;
from China we have had among
other things many new primulas;
Japan has yielded wonderful irises;
Africa many varied plants, usual-
ly of most brilliant and gorgeous
coloring; while numerous charm-
ing members of the narcissus family
have been discovered in the
Pyrenees.

But this cannot continue indef-
nitely, and even in the realm of
orchids, for which perhaps the most
systematic search of all is made,
there is not much left to be explor-
ed. For our future novelties we
shall have to rely then chiefly on
the skill of our hybridists, who
are constantly engaged in mating
different species of the same family
of plants, and our cross fertilizers,
who are doing similar work with
different varieties of the same
species. The flowers of to-day are
the result of cross breeding, stimu-
lating by electricity, drugs and hot
water baths.

PHONE TALKS MADE CLEARER

Danish Bank Manager Has Trans-
mitter Warned.

A simple way of making tele-
phone conversations more audible
has been invented by Herr Peter-
son, a bank manager of Nykjobing,
Denmark. On the principle that
sound is more readily transmitted
through rarefied air he has con-
structed an apparatus to warm the
transmitter, whereby the air in it
becomes thinner and the sound is
intensified. Prof. Hannover of
the Danish Government telephone
testing station, who has made ex-
tensive experiments with Peter-
son's apparatus, says in his report
that the increase of sound obtained
is remarkable. Telephone conver-
sations between Copenhagen and
Nykjobing, a distance of some 75
miles, could be clearly followed
some distance away from the in-
strument. The inventor has ap-
plied for patents in different coun-
tries.

Shiloh's Cure

HEALS THE LUNGS
STOPS COUGHS PRICE, 25 CENTS

During last year Great Britain
bought from Switzerland 256,609
cwt. of condemned milk, valued at
£648,012.

No one need endure the agony
of corns with Holloway's Corn
Cure at hand to remove them.

FIRST COUSINS.

Offspring of Their Marriage Are
Liable to Be Deaf Mutes.

The seriousness of the risk run
by first cousins who marry is em-
phasized by Miss Ethel Elderton, a
co-worker with Professor Karl
Pearson at the Galton Laboratory
for National Eugenics, London Uni-
versity. Marriages between near
kin, such as uncle and niece, aunt
and nephew, or grandparent and
grandchild, are forbidden mainly on
the principle of resemblance. Miss
Elderton therefore determined to
see whether cousins are as much
alike as any of these pairs of re-
latives. She studied the cases of
no fewer than 6,000 pairs of
cousins, with a view to endeavoring
to measure the degree of re-
semblance in health, intelligence,
success, temper, and temperament.

The conclusion she came to was
this—that the general resemblance
between cousins is about half that
between brother and sister, and
practically the same as that shown
by statistics of uncles and nieces
and of aunts and nephews.

"If the undesirability of marriage
within certain degrees is founded
on the closeness of resemblance,"
says Miss Elderton, "the law which
forbids the marriage of uncle and
aunt with niece and nephew should
also restrict the marriage of first
cousin."

The offspring of cousin marriages
appear to be particularly liable to
deaf mutes. "There seems little
doubt," continues Miss Elderton,
"that if there is any deaf-mutism
in a stock a cousin marriage, even
when both parties are free from the
disease, is most dangerous to the
offspring."

PRACTICAL ADVICE.

"Speaking of etiquette, did you
send the dollar for those advertised
instructions on 'What to do at
table?'"

"Yes."

"And what did you get?"

"A slip with one word printed on
it: 'Eat!'"

Being agreeable means agreeing
with people, regardless of your own
opinions.

CANNED GOODS BENEFICIAL.

Minute Quantity of Ptomaines Good
for Indigestion.

According to a report read before
the French Academy of Science re-
cently tinned or canned fish and
shell fish preserved in oil or other-
wise, always contain a small per-
centage of certain ptomaines (poi-
sons of decaying flesh)—from .02
to .06 per cent by weight. These
ptomaines, however, do not begin
to increase in any appreciable de-
gree until two days after the can
has been opened, and while the
oil rather favors than prevents the
development of the ptomaines the
investigators have found that they
are not very poisonous. In fact,
minute doses of them seem to act
as a stimulant on the appetite and
the digestion generally, just as the
ptomaines found in cod liver oil.

The greater the irritation in the
throat the more distressing the
cough becomes. Coughing is the
effort of Nature to expel this irri-
tating substance from the air pas-
sages. Bickle's Anti-Consumptive
Syrup will heal the inflamed parts,
which exude mucous, and restore
them to a healthy state, the cough
disappearing under the curative
effects of the medicine. It is plea-
sant to the taste, and the price,
25 cents, is within the reach of all.

THEIR CAPACITY.

"Lawyers ought not to need long
memories."

"Whv not?"

"Because they are generally sat-
isfied with brief reminders."

When Try Murine Eye Remedy
Your Eyes Need Care
No Smarting—Feels Fine—Acts Quickly.
Try It for Red, Weak, Watery Eyes and
Irritated Eyes. Illustrated Book
in each Package. MURINE is com-
pounded by our Oculists—not a "patent
medicine" but used in successful Physi-
cians' Practice for many years. Now
dedicated to the Public and sold by
Druggists at 25c-50c per bottle. Murine
Eye Salve in Plastic Tube, 25c-50c.

Every tailor knows a lot of prom-
ising young men.

Minard's Liniment Cures Cargat in Cows.

Epping Forest, which is preserv-
ed by the Corporation of London
as a people's pleasure ground,
comprises no fewer than 5,300
acres.

Rub it in for Lame Back.—A brisk
rubbing with Dr. Thomas' Electric
Oil will cure lame back. The skin
will immediately absorb the oil and
it will penetrate the tissues and
bring speedy relief. Try it and be
convinced. As the liniment sinks
in the pain comes out and there are
ample grounds for saying that its
touch is magical, as it is.

Fir-trees differ from pines only
in the fact that the leaves grow
singly and the scales of the cones
are smooth, round, and thin.

Minard's Liniment Cures Colds, &c.

EXCEPTIONS.

"Skipping the rope is always a
dangerous exercise for the health."
"Not for the men who have es-
caped being hanged."

Pills of Attested Value.—Parme-
lee's Vegetable Pills are the result
of careful study of the properties of
certain roots and herbs, and the ac-
tion of such as sedatives and laxa-
tives on the digestive apparatus.
The success the compounders have
met with attests the value of their
work. These pills have been recog-
nized for many years as the best
cleansers of the system that can
be got. Their excellence was re-
cognized from the first and they
grow more popular daily.

NOT HIS LUCK.

"Aha!" and he laughed fiendish-
ly as he read from the morning
paper:

"The burglar shot the man, whose
life was saved by the bullet strik-
ing against a button of his clothes."

"Well," snapped his wife, "what
of that?"

"What of that?" said he, as he
felt his collar going up steadily to
the nape of his neck; "oh, nothing,
except that the button must have
been on!"

NOT DISPOSED TO ARGUE.

Teacher—You say the earth is 25,-
000 miles in circumference. Will
you step up to the blackboard and
demonstrate that proposition?
Shaggy Haired Pupil—What's the
use, ma'am? I'm willing to admit
it and let it go at that.

They Cleanse While They Cure.—
The vegetable compounds of which
Parmelee's Vegetable Pills are
composed, mainly dandelion and
mandrake, clear the stomach and
intestines of deleterious matter and
restore the deranged organs to
healthful action. Hence they are
the best remedy for indigestion
available to-day. A trial of them
will establish the truth of this as-
sertion and do more to convince
the ailing than anything that can
be written of these pills.

SOUP AND HASH.

"Does death end all?" asked the
solemn boarder.
"Not for a week or so in the case
of a turkey," answered the cheer-
ful boarder.
