The above photograph shows on
the right hand the large hotel in which
the Canadian Press Association held
their annual meeting last week. The
great building, named after the Ex-
Premier, was built by the Grand
Trunk Railway at a cost of \$2,000,000.
It is built of granite and light buff
Indiana sandstone with a copper roof,
and contains 350 bedrooms, two-thirds
of which have private baths. The
hotel is connected with the Grand

Trunk Central Station by means of a
subway at the foot of the main stairway.
We feel that even a synopsis of the
subjects discussed by the Press Associa-
tion would not be interesting to the
great majority of our readers. We
would like to say, however, that after
an address of welcome by Mayor Hope-
well the members of the Press and
their wives were given badges that
admitted them free on the street cars
of Ottawa and Hull and to the the-

atres. Other entertainment included
automobile trips around Ottawa and
environs, luncheon at Experimental
Farm, tendered by the Minister of Agricul-
ture; and a visit to the E. B. Eddy
paper mills. Thursday evening the
male members were tendered a ban-
quet by the City of Ottawa, and the
ladies had afternoon tea, tendered by
the women editors of the Ottawa
newspapers. Altogether the trip and
entertainment were most enjoyable.

Sanger's Greater European Shows.

Not a Circus Fever, But a Laudable
Desire To Be Instructed, as Well as
Amused.

No tented amusement enterprise on
earth has met with such continuous
praise and applause as has Sanger's
Greater European Shows. An ovation
greets this clean and beautiful organi-
zation at every point in its annual
tour.

From the genesis of the show until
its presents colossal perfection there
has not been a solitary season in
which it has not led its fellows in the
multiplicity and general excellence of
its attractions and now it towers above
and dwarfs all other tented exhibitions
in comparative insignificance, and this
season it presents such an opulence
of sterling and meritorious attractions
as to entitle it to be designated as a
vast Amusement Golconda whose wond-
erful wealth of entertainment is un-
limited and immeasurable. Sanger's
Greater European Shows are prolific in
leading and sensational features, and
fully equipped with the finest stable of
horses and the most skillful and fin-
ished bareback riders, gymnasts and
acrobats in the profession. The show
has a large, well-ordered and well-
selected menagerie, containing living,
vigorous specimens of all that is
strange, rare and curious within the
range of natural history, and this
Royal Roman Hippodrome is a real-
istic reproduction of that of the days
of the Imperial Caesar.

It may be said, however, that to
these always prominent and desirable
attractions have been added for the
current season, many features so stu-
pendous in magnitude, so overpowering
in unprecedented grandeur and im-
pressiveness, and so enormous in the
expense necessary to this production
that the features mentioned, grand
and wonderful as they are, can at best
play but a secondary part.
Don't forget the date Newmarket,
Wednesday, June 19.

SUDDEN DEATH.

The sudden death of Mr. Wm. Walk-
ington, of King, at the home of Mr.
John Malloy, Oak Ridges, came as a
sorrowful surprise to relatives and
hosts of friends. After a hearty dinner
deceased fell from his chair and died
instantly. It would be difficult to find
a man better known in the County,
and more beloved and respected than
the late Mr. Walkington. He was
always the picture of good health and
good spirit, and was prominent in
agricultural societies, plowmen's as-
sociations and other organizations. He
was a Presbyterian and a Conservative.
Heart failure is the cause of death,
and many will remember that his
honored father met a similar tragic
death a little over forty years ago.
Interment took place in King City
cemetery Tuesday afternoon, and
needless to say the funeral was very
large. The deepest sympathy is shown
on every hand for the widow and
family who have been called upon to
suffer the terrible shock.

A GUIDE TO APICULTURE.

By direction of the Hon. Martin
Burrell, Minister of Agriculture, a
timely bulletin on bee-keeping has
been issued by the Federal Depart-
ment of Agriculture. According to a
statement of the author, Dr. C. Gor-
don Hewett, Dominion Entomologist,
this work has been prepared to meet a
very persistent demand for informa-
tion by persons who wish to learn how
to begin and to continue the industry
of apiculture. It was the further ob-
ject of the author to increase the num-
ber of bee-keepers in Canada by indi-
cating the advantages of bee-keeping.
It is pointed out that bee-keeping re-
turns the direct profit of a honey crop
and the indirect one of improvement to
yields of clover seed and fruit. It
is observed that a bullock after being
fed and cared for during an entire
winter will not realize much more
than the produce of a colony of bees
in a single season. Beginners are re-
commended to start on a small scale
with one or two hives, increasing the
number annually as experience is
gained. This treatise of 45 pages,
which is helpfully illustrated, covers,
in plain language, the whole field of
apiculture, including equipment, man-
agement, the production of honey and
wax, diseases, legislation of the vari-
ous provinces against bee diseases, etc.
It is designated "The Honey Bee,"
Bulletin No. 2, Division of Entomol-
ogy and No. 69, Experimental Farms.
Copies may be had free by applying to
the Publications Branch, Department
of Agriculture, Ottawa.

The Department of Agriculture at
Ottawa is in receipt of a new Order
by the Board of Agriculture at Lon-
don, England, entitled "The Horses,
(Importation and Transit,) Order of
1912."

In Chapter 1 of this Order provision

landed in Great Britain from abroad,
except such as may be exempted for
special reasons under licenses issued
by the Board. It also contains pro-
visions designed to prevent the intro-
duction of various equine diseases, as
well as glanders, such as Dourine,
Mange, Strangles, Ringworm, etc.

Chapter 2 of the Order deals with

by water, and lays down requirements
as to fittings, etc., of vessels on which
such animals are carried to or from
any port of Great Britain, and Chap-
ter 4 relates, inter alia, to the cleans-
ing and disinfecting of such vessels.
The Order, except Chapter 1, will
come into operation on July 1, 1912.
