

TO STRENGTHEN WEAK NERVES

The Blood Supply Must be Made Rich, Red and Pure

When you build up the blood you strengthen the nerves, because the nerves get their food through the blood. You cannot reach the nerves with medicine except through the blood—this is a great medical truth few people realize. Nervous people are pale people. They are nervous because they are pale. The blood is so thin and watery that it cannot nourish the nerves. Starved nerves mean sciatica, neuralgia, nervous prostration, paralysis.

Dr. Williams' Pink Pills for Pale People are a real nerve tonic. They supply plenty of nourishing red blood to the exhausted nerves, thus enabling them to do the work nature intended they should do. This is the simple secret of the success of Dr. Williams' Pink Pills in curing nerve troubles. As to their value in cases of sciatica, Mrs. Job Palmer, Fenelon Falls, Ont., says: "For seven weeks I suffered untold agony from sciatica. I tried everything to ease the pain, but it steadily grew worse. Liniments had no more effect upon the trouble than water. Then the doctor told me to apply a hot iron to the afflicted part and I did so morning after morning, but my leg had become so numb with the pain that I could hardly feel the heat of the iron. I never expected to be able to walk again, my leg was so drawn up. I had tried so many things that I had given up hope, yet at the urging of my brother I decided to try Dr. Williams' Pink Pills. To my surprise in two weeks I was able to stand on my feet with but little pain, and soon after I was able to walk about again. I continued taking the Pills for about two months, but some time before I discontinued their use my leg had become normal again, and the agony of the trouble had disappeared, and I have not since had a twinge of it. Words fail to express my gratitude for what the Pills did for me and I most strongly recommend them to all sufferers from sciatica."

The every day mission of Dr. Williams' Pink Pills is to cure cases like the above, and they will not disappoint if given a fair trial. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TOWNS WITHOUT TAXES.

Germany and France Have One Each.

It was recently reported from Germany that there was a little town within the empire in which there were no taxes. The town possessed benefactions, the revenues from which enabled it to pay its way without the intervention of the tax gatherer.

The Best Treatment for Itching Scalps and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Notwithstanding Cuticura soap and ointment are sold everywhere, those wishing to try this treatment may do so without expense by sending to "Cuticura," Dept. 4M, Boston, U. S. A., for a free sample of Cuticura soap and ointment, with 32-p. book on skin and hair.

by anything German, so a Paris contemporary has set itself the task of finding a parallel. Something more than a parallel has been discovered, for not only are there no taxes but the timbers on the communal lands are sufficient to grant each person a small annuity. This happy land is Montmarion, in the Midi. There are seven electors in the hamlet, so to avoid anything like rivalry the seven return themselves to the local council. Cutting down the trees and selling them is sufficient to provide a livelihood for these simple people, whose tastes are so modest that they may be termed by some uncivilized.

TO THE MANOR BORN.

Lord Charles Beresford and the Duke of Argyll were travelling together on the Great Western Railway, in England. The only other occupant of their compartment was a prosperous drummer, whose success had been due to natural talent for business rather than to sound education. The noblemen found their companion entertaining, so they listened to his talk until a small station in Gloucestershire was reached. Here Lord Charles Beresford alighted, and was met by a servant of the people with whom

he was going to stay. The drummer leaned out of the window, open-mouthed and wide-eyed. He saw his lordship bowed into a splendid carriage and driven off down a country lane. Drawing his head within the carriage again he turned to the duke and said:

"Oos 'im?"

"He is Lord Charles Beresford," the duke replied.

"Well, now!" said the drummer. "Fancy the likes of 'im 'obnobbin' with two cads like you and me!"

SIEGE OF DELHI.

Greatest of Historical Spectacles at the C.N.E. this Year.

The Siege of Delhi will be the historic spectacle at the Canadian National Exhibition this year. There is no more terribly picturesque scene in English history than this sketch from the great Indian mutiny. The rich and varied costumes of the natives of different castes mingled with the uniforms of the English officers give to it color that cannot fail to delight the eye, while the tragic drama cannot fail to be of enthralling interest. Every detail is to receive the strictest attention to make this the greatest of the many historical spectacles that the Canadian National has become famous for.

TO DESTROY PORPOISES.

A new use has been found for the submarine by the French ministry of marine. The artificial porpoises are to fight and kill the natural porpoise. It has been discovered that hungry porpoises on the French coast have almost ruined the sardine industry, which mints millions for the people of the coast towns and the Channel isles. To remedy this state of affairs, torpedo boats and the submarines are being sent under "sealed orders" to scour the waters of the channel and make things so hot under water for the blunt-nosed acrobats of the waves that those who survive will take to the Irish Sea, the North Sea or the Bay of Biscay.

Wire Wounds

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until after three weeks, the sores have healed, and best of all, the hair is growing well, and is NOT WHITE as is most always the case in horse wounds.

WILSON'S FLY PADS
The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race. If the housekeepers of Canada will use

persistently, this peril will be tremendously reduced.
