

RICHMOND HILL, ONT., NOV. 7, 1912

A number of public bodies have passed strong resolutions in disapproval of Judge Denton's verdict against Mr. St. Clair after the latter had circulated printed sheets exposing the Toronto police for their inability or refusal to keep the plays in some of the Toronto theatres within the bounds of respectability and decency. Judge Denton admitted that the evidence went to show that some of the performances were disgusting, and were unfit for the public to see and hear. It should be remembered, however, that His Honour was not trying the case of the theatres or of the police. Admitting that the plays complained of were as disgraceful as they could possibly be, the question was: "Was Mr. St. Clair justified in the eyes of the law and in the cause of morality to print and circulate that which was admitted to be unclean?" In other words did the end justify the means? Judges do not make our laws. Their duty is to interpret them. The work of cleansing some of the plays yet remains. If the citizens of Toronto and the police have the desire it can be done.

Jack Johnson, the colored pugilist, is to be barred from sporting circles on account of his bad behavior and low habits. Considering the notoriety the heavy weight has earned for himself during the past few months, it is not surprising that those who lay claim to even the smallest portion of respectability would be ashamed to in any way associate with him. There are other reasons however, why professional boxers wish to have the burly knocker out of the way. Jack Johnson's reputation is infamous, the business of prize-fighting is not creditable to any man, but people should be honest enough to admit that no white man in the world, as far as we know, is able to stand before him in a boxing contest.

Very little real damage was done in the village on hallowe'en. It is a pity, however, that nonsensical tricks are not stopped altogether. Why should citizens be forced year after year to hide their gates and other movable property, or have them carried away? And why should a constable have to be employed to walk the streets when decent people should be in their beds? If proper notice were given that those who interfered with other people's property, would be punished if found out, the foolish tricks could be easily stopped. Of course the excuse is "Everybody's Doing It."

The World was the only Toronto daily that expressed itself as being positive that Col. Roosevelt would be elected President of the United States on Tuesday. The result shows that even The World is not always infallible in its prognostications.

The news yesterday morning that Woodrow Wilson will be the next president of the United States was, we believe, received with general satisfaction throughout Canada.

**THREATENED WITH PARALYSIS**

BEFORE TREATMENT

Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold; tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so."
