SURPRISING STATISTICS.
Great Britain Grows Over Half Her Food at Home.
R. H. Rew, C.B., assistant secretary to the British Board of Agriculture, has issued in the agricultural statistics of the Board of Agriculture a report respecting food supplies.

Nothing perhaps will more surprise the average Englishman than this report. The man in the street is convinced that the great mass of the nation's food is imported. It is a perfectly common estimate to hear the home-grown quantity put down at one-fifth. Mr. Rew's report shows that, in reality, it is upwards of one-half and that, in value, the home-grown produce is no less than £14,000,000 more than the value of the imports. This is a revelation which will cause considerable enlightenment to the ordinary man in connection with the question of food imports in war time.

The chief sources of wheat imports will also be a matter of surprise to many people. It is popularly imagined that Canada supplies the bulk of the imported grain and that the United States is a close second while next to none is grown at home. As a matter of fact, the greatest individual supply is the home-grown crop and after this comes India, with Canada third and Australia and Argentina not very far behind.

Perhaps the most remarkable thing about these figures is that the home-grown supply has risen slightly on an average for the last septennial period and that while there has been a small increase in the Canadian imports and a large increase in the Indian and Australian imports, there has been a correspondingly large decrease in the imports of the United States, the actual figures being as follows:

Country	1911	1907
United Kingdom	20.7	19.1
Australia	10.3	7.5
Canada	13.4	13.1
India	14.3	10.5
Other Bri. Possessions	0.5	0.3
Argentina	10.5	14.8
Roumania	1.5	1.1
Russia	12.8	11.6
United States	14.2	19.4
Other countries	1.8	2.6

**MOTHERS RECOMMEND
BABY'S OWN TABLETS**

Mothers having once used Baby's Own Tablets for their little ones will always be found using them as long as there is a baby in the home. The Tablets are acknowledged by thousands of mothers as being their best friend in keeping the little ones well. Whether it be constipation, colic, indigestion or worms; whether baby is suffering from cold or has simple fever, or whether his teething is difficult, the Tablets are the one safe remedy which will speedily cure him. They are guaranteed by a government analyst to contain not one particle of harmful drug and may be given with benefit to the new-born babe or growing child. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Practical.
"Do you ever pray for your husband?" asked Mrs. Meek.
"No," replied Mrs. Strong, "but he never gets out at night unless I go with him."

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labeled his own product.
This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce.
Ask for MINARD'S and you will get it.

Australia's Rabbit Pest.
Australia is still suffering from a plague of rabbits. Ceaseless slaughter of the bunnies is effectual only in checking their speed, for they breed so rapidly that extermination seems impossible. Stock raisers are wire-netting their properties, digging out the burrows and destroying all surface cover. The government is helping by selling wire netting at a nominal price. In the hot districts they are poisoning the water. Notwithstanding all the trapping, poisoning, fumigating, fencing and digging out, the pest is spreading.

It is the things that are possible but not probable that keep some people from being happy.

WEAK STOMAGHS
Need New, Rich Blood to Restore Them to a Healthy Condition.

Actually in need of food to nourish the body and yet afraid to eat because of the racking pains that follow. That is the condition of the sufferer from indigestion—a choice between starvation or merciless torture.

The urgent need of all dyspeptics, of everybody whose organs of digestion have become unfit to perform their important duty, is for stronger stomachs that can extract nourishment from food. Dr. Williams' Pink Pills give weak stomachs just the strength they need by enriching the blood supply, thus giving tone and strength to the stomach and its nerves, and enabling it to do the work nature intended it to do. Thousands of cases of indigestion have been cured by Dr. Williams' Pink Pills, of which the following is but one instance. Miss L. A. Brown, Port Albert, Ont., says: "For a number of years I was a terrible sufferer from indigestion, and as a result I became completely run down, and suffered from backaches and nervous troubles as well. I had to force myself to eat, but never enjoyed a meal owing to the awful pains that followed eating. Life was becoming a burden, and as medicine after medicine failed to help me I felt I was doomed to go through life a constant sufferer. Finally a married sister strongly urged me to try Dr. Williams' Pink Pills, and I have reason to be thankful that I followed her advice, as they have fully restored my health, and I can now enjoy all kinds of food without the least discomfort, and my friends say I am looking better than I have done for years. At all events I know I feel like a new person, so shall always praise Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Felt It First.

Word had been received by the inspector of the electric light system that an overhead wire had fallen down in a crowded street. The inspector betook himself to the spot as quickly as he could.

When he arrived he found the inevitable crowd handling the wire in a most careless manner. Luckily, no accidents had occurred.

Going up to the nearest man, who happened to be an Irishman, he admonished him severely in grave tones.

"You took a great risk," said the inspector. "You had no right to touch that wire. Why, man, do you know you might have been killed outright by the shock?"

The Irishman looked at the inspector with a knowing air.

"Ah," said he, "I was mighty careful, sorr! Sure, and I felt it carefully before I took hold of it!"

It is Criminal to Neglect the Skin and Hair

THINK of the suffering entailed by neglected skin troubles—mental because of disfiguration, physical because of pain. Think of the pleasure of a clear skin, soft, white hands, and good hair. These blessings, so essential to happiness and even success in life, are often only a matter of a little thoughtful care in the selection of effective remedial agents. Cuticura Soap and Cuticura Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a postal to "Cuticura," Dept. 5M, Boston, U.S.A., will secure a liberal sample of each, with 32-page booklet on Skin and Scalp Treatment.

GETS NOBEL PRIZE

Dr. Alexis Carrell,
Who was awarded the Nobel Prize for Medicine, may well be called a wizard of the medical world. In his laboratory in the Rockefeller Institute for Medical Research he has accomplished wonders with animal life that are analogous to the wonders performed by Luther Burbank in the field of botany. It is said that Dr. Carrell has taken the heart out of a dog, put dog and heart in cold storage for a week, and then restored the dog to life. He is famous in every part of the world as a surgeon.

New Burglar Safeguard.

The more pretentious apartment houses in Vienna have a curious impost levied upon them. The doors are closed at 10 o'clock at night, and after that hour every one who goes or comes must pay 20 cents until midnight and 40 cents thereafter, until 6 o'clock in the morning. The impost must be paid as many times as a man enters or leaves a house. If, for instance, a person is in the house of a friend until 1 o'clock he must pay 40 cents on leaving the friend's house and another 40 cents on entering his own. The money thus raised is devoted to protecting citizens against burglars.

Bad Blood

Is the direct and inevitable result of irregular or constipated bowels and clogged-up kidneys and skin. The undigested food and other waste matter which is allowed to accumulate poisons the blood and the whole system. Dr. Morse's Indian Root Pills act directly on the bowels, regulating them—on the kidneys, giving them ease and strength to properly filter the blood—and on the skin, opening up the pores. For pure blood and good health take

Dr. Morse's "Indian Root Pills"

Throughout the world the total number of Roman Catholics is estimated at 264,500,000, and of these there are 5,758,000 in Great Britain and Ireland.

Cure For Consumption.—For consumption, weak lungs, lingering coughs, laryngitis and bronchitis. Names and addresses of those only given a few days to live by specialist and doctors, after taking this cure are alive and well, will be sent on request. Write Wm. B. Copeland, 511 Pape Ave., Toronto, Ont.

No Place.

A man had been absent from home for some time and during his absence had raised a luxuriant beard and mustache. Shortly after his return he paid a visit to his sister, who had a little daughter of whom he was especially fond.

The little girl made no effort to embrace him or offer him a kiss, but hung back reluctantly.

"Why, Eleanor," said the mother, "why don't you give Uncle Ed. a kiss?"

"Well, mother," returned the child, with the most perfect simplicity, "I don't see any place."

Minard's Liniment Cures Cargat in Cows.

A Busy Afternoon Ahead.

A greengrocer's boy hailed a vessel in dock at Liverpool, says an English newspaper. The surly mate gruffly asked him what he wanted.

"I've got some vegetables for the ship," was the reply.

"All right, you needn't come aboard. Throw them up one at a time," said the mate, and stood ready to receive the expected vegetables.

"Ahoy, there, look out!" shouted the lad, as he threw a dried pea toward the mate. "I've got a sack of these."

When a woman drives a horse why does she whip him with the lines?

A Lucid Explanation.
"That's a terrible noise in the nursery, Mollie," said her mistress. "What is the matter? Can't you keep the baby quiet?"
"Sure mum," replied Mollie, "I can't keep him quiet unless I let him make a noise."

Chapped Hands AND Cold-Sores

Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, and the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and it succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, warts, ulcers, festering sores, sore heads and backs, abscesses, pimples, ring-worm, etc., cuts, burns, bruises, scalds, sprains. Of all druggists and stores, or post free from the Zam-Buk Co., Toronto. Price 50c a box.

Zam-Buk
