

Catarrh Brands You An "Undesirable"

So Loathsome is the Disease That Few Will Associate With a Catarrhal Victim.

Is Your Trouble Catarrh?

Poor remedies have given Catarrh the reputation of being incurable. But it is curable, easily and quickly, if the right method is employed. Snuffing a powder or ointment up the nose won't cure Catarrh, neither will tablets, douching, or stomach medicines cures. These treatments fail because they only affect local conditions, they do not remove the cause which is germ life established in the lungs, bronchial tubes, and nasal passages. Ordinary remedies do not reach these remote parts, but Catarrh-zone does, for it is breathed through the inhaler into every air cell in the lungs, into every air passage in the head and throat. No matter where the Catarrh is Catarrh-zone will reach it. It kills the germs, heals sore spots, clears the nose and throat instantly. Universally used; pleasant and clean; guaranteed to cure or money refunded.

Don't be an object of aversion to everyone you meet—get Catarrh-zone to-day and use it regularly; it will cure your Catarrh, Bronchitis, Throat Trouble, spitting and gagging. Large size 50c. All dealers or the Catarrh-zone Co., Buffalo, N. Y., and Kingston, Canada.

THEFTS COMMON BY "HELP."

English Servants Think It No Wrong to Steal Things.

Food of all kinds, soap, powdered scent, ribbons, coal and firewood are looked upon by "daily servants" in England—servants who work out during the day and sleep at home—as their just perquisites. Most persons with servants who go home to sleep are victims of petty thefts, chiefly in the form of food, which their employes take away, not considering that they are thus guilty of theft.

"I find," writes a householder to a London newspaper, "that my dripping always disappears from the pantry, and although seven bundles of wood are sold for three pence only six are left in my cupboard."

"In the matter of food the servant usually takes home just what one counts upon for the next day's use. For instance, if there are six mince pies, which are sufficient to put upon the table, three of them are taken. I am quite sure that the servants do not think they are doing anything wrong."

"I gave a dinner party," writes "A. B.," "and there were seven people at the table. Although my daily girl had had plenty of food, the next day I found that as much turkey had been taken as had been eaten at the dinner."

"A servant I had recently," said a business woman, "often would come to me before she prepared breakfast to say there was no butter in the pantry. On these occasions I had been out all the previous evening. I have at times found little parcels of sugar and tea tied up on the kitchen dresser ready for her to take away when her time came to go home."

"Many maids do not look upon the taking of handkerchiefs and stockings as theft. There are plenty of servants who do this who would never dream of touching their employers' money."

Paw Knows.

Willie—Paw, what is the difference between a political job and any other job?

Paw—You have to work hard to get a political job, my son, and you have to work hard to hold the other kind.

Don't Cut Your Corns, This Way Better

It's a fool trick to gouge out corns, and dangerous too. Don't wear loose boots—remove the corn by applying Putnam's Corn Extractor.

The result is magical. This remedy works wonders, eases the pain, lifts out the corn, brings comfort and sound feet at once. You buy a 25c. bottle of Putnam's Painless Corn Extractor, recommended by druggists.

THE PREMIER DUKE.

England's premier duke and earl is personally the most modest, not to say undistinguished-looking man imaginable. Born a couple of days after Christmas in the year 1847, he would pass easily for one just turned fifty.

As Earl Marshal and Chief Butler of England the Duke of Norfolk is head of the College of Arms, and has, on high ceremonious occasions,

HE FOUND THEM NO FAITH CURE

BUT DODD'S KIDNEY PILLS CLEANED OUT W. F. BLACK'S SCIATICA.

He was in an agony when a friend gave him a box. Now he recommends them to everybody.

Newcastle, N.B., Jan. 20. (Special).—In these cold fall days when the chill winds crystallize the uric acid in the blood and cause the pangs of Rheumatism and Sciatica to bring sleepless nights to many a home, a man's best friend is he who can tell his neighbor of a sure cure for his tortures. Such a friend is Wm. F. Black, of this place. He suffered from Sciatica and lame back. He was so bad that he could not lace his boots or turn in bed. Dodd's Kidney Pills cured him and he wants all his neighbors to know of the cure.

"Yes," Mr. Black says, in an interview, "I was so bad with Sciatica and Lame Back that I couldn't lace my shoes or turn in bed, when a friend gave me about a third of a box of Dodd's Kidney Pills. I started taking them without much faith in their curative powers, and found them all they were recommended."

"Now I am recommending Dodd's Kidney Pills to all sufferers from Kidney Disease."

Dodd's Kidney Pills are no faith cure. They're a simple but sure cure for diseased kidneys.

JACK "HORNER" A REALITY.

Nursery Legend About the Pie Conceals a Real Tragedy.

Few people know that the nursery legend of "Little Jack Horner" conceals a real tragedy.

At the Reformation the chief of an abbey in the West of England resolved to surrender, and in token thereof to send the deeds of the religious house to Henry VIII. at Whitehall. For security's sake the abbot placed the documents in a pie dish and covered them with crust. The dish, without saying a word about the contents, he gave to a lout, Jack Horner, with instructions to carry it by road to the King in London.

About half way Jack Horner became ravenous and came to the conclusion that it was foolish of him to starve while he was the custodian of a pie. So he broke the crust and put in his thumb and pulled out—a roll of parchments! The disgruntled Jack Horner chucked the lot into an adjacent brook.

The non-arrival of the deeds caused Bluff King Hal to suspect the abbot of contumacy, so his Majesty commanded that the poor cleric should be hanged.

Little Cordelia's Request.

Little Cordelia's grandmother had an old-fashioned way of measuring a yard by holding one end of the goods to her nose and then stretching the piece at arm's length. One day Cordelia found a bit of ribbon. Carrying it to her grandmother, she gravely requested: "Grandma, smell this and see how long it is."

THE UNION JACK.

If Properly Named Would Be Called the "Union."

The origin of the Union Jack is well-known but it may be surprising to many to learn that the "Union Jack" is in reality a misnomer, and that, if properly named, the flag is the "Union." It can only be called the "Union Jack" when it is flying from a "jack staff" at the bowsprit or forepart of a ship, and never when it is flown on land.

The first Union flag, consisting of St. George and St. Andrew, was decided to be the national flag of Great Britain by James I. (April 12th, 1606.) In 1801, when Ireland came into the Union, a change was made in the flag, Ireland being represented on it by the red saltire of St. Patrick.

The other three flags are purely maritime, and ought never to be flown ashore. They had their origin as follows:—"For two hundred years prior to 1864 the British Navy was divided into three divisions, the Red, the White and the Blue, each having a flag of corresponding color, the white flag only having the addition of a red St. George's cross. In 1707 the small Union device was introduced into the upper corner. In 1864 these divisions of the navy were abolished, but the three ensigns were retained in use, and it was decreed that the Red Ensign should be retained for the merchant service, the White Ensign for the Navy and Royal Yacht Squadron, and the Blue Ensign for ships commanded by officers of the Royal Naval Reserve and certain Royal Yacht Clubs."

A WONDERFUL DISCOVERY.

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or sore, such injury is insured against blood poison!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

New Imitation Sandstone.

The Prussian government has erected at Stettin a building composed of imitation sandstone, granite and marble. The sandstone forms the greater part of the exterior. The framework is of brick. All the blocks, windows frames, sills, columns, roof, balcony and portal ornaments are of imitation stone, and they were so exactly cast and numbered that they were fitted together and set with little or no chiseling. The pressing or stamping of the moulded pieces was done by hand. From three to four weeks were required for drying. The cost is said not to have exceeded half that of natural stone, and the durability is believed to be equal.

Men are like trees; they grow either crooked or straight.

DISFIGURED WITH ERUPTIONS ON FACE

Body Covered With Running Sores, Could Not Sleep from Itching and Pain. Cross and Fretful. Tried Fifty Remedies Without Result. Cured in Nine Days by Cuticura Soap and Ointment.

30 Champagne St., Montreal, Quebec.—"I have a five-year-old boy who was suffering from what the doctor said was 'la grattelle.' His body was all covered with running sores. The trouble started with pimples and opened up into sores. Of course scratching made it worse. The eruptions appeared on his face and disfigured him awfully. The boy could not sleep at night from the itching and pain, and I did not know what to do with him. It made him cross and fretful. If I have tried one, I have tried fifty remedies without result. At last I got samples of Cuticura Soap and Ointment, and after using them two days I noticed a change. I then bought a full-sized cake of Cuticura Soap and one box of Cuticura Ointment and I used to give the boy a hot bath daily using Cuticura Soap freely, and then applied the Cuticura Ointment. He had suffered three months with the horrible disease before I started to use the Cuticura Soap and Ointment, and nine days after the boy was cured and has not been troubled since." (Signed) E. Cloutier, Dec. 12, 1911.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. A single set is often sufficient. Liberal sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 40D, Boston, U. S. A.
