

IMPORTATION OF TREES.

All persons who are accustomed, or intend, to import trees, shrubs, plants and any other kinds of vegetation into Canada, or to ship such trees and plants from one province to another, should make themselves thoroughly familiar with the regulations of the Dominion and Provincial Governments in this matter. If this is not done inconvenience and possible loss may result owing to the neglect to comply with the requirements of Dominion or Provincial governments, which requirements are necessitated by the danger, always present, of the importation of dangerous pests into Canada, or their spread from one province to another.

The regulations governing the importation of vegetation of various kinds into Canada, and the Dominion and Provincial laws under which they have been passed have been collected in a convenient form and published as a bulletin with explanatory notes by the Dominion Entomologist, Dr. C. Gordon Hewitt. This bulletin, entitled "Legislation in Canada to prevent the introduction and spread of insects Pests and diseases destructive to vegetation with Regulations regarding the importation of vegetation into Canada" is published as Bulletin No. 11, Second Series, of the Experimental Farms Branch of the Dominion Department of Agriculture. It also forms Entomological Bulletin No. 6 of the Division of Entomology. It may be obtained free on application to the Publications Branch, Department of Agriculture, Ottawa. The laws and regulations of the Dominion Government and of the Governments of those Provinces possessing such legislation, namely, British Columbia, Nova Scotia, Ontario and Prince Edward Island are given. A full explanation is given of the regulations which must be observed by persons importing nursery stock, which comprises trees, shrubs, plants vines etc., into Canada and into the provinces mentioned.

A perusal of this Bulletin, even by those who do not import or intend to import plants, will afford the reader an excellent idea of the strict supervision and care that is being exercised to prevent the introduction of insect pests into Canada. More than half of the serious pests of Canada are not native to the country, but have been introduced or have migrated hither. The object of this legislation is to prevent further introduction and spreading and the benefit which is resulting from the careful inspection, and treatment when necessary, of imported plants is incalculable and is the means of saving the country enormous losses.

INSTITUTE MEETINGS

East York Farmers' and Women's Institutes held successful meetings here on Monday. Mr. Wm. Pratt as chairman of the afternoon meeting in the Lorne Hall felt quite at home in an institute meeting as he had acted as secretary of an institute in Simcoe County previous to his removal here.

Mr. Barbour of Waterloo County spoke on "How to Grow Crops in a Dry Season." He advised cultivation to retain moisture by forming a dust mulch. This applies more especially to the corn and root crops. He believed in a short rotation of crops in which clover was one of the crops. He spoke of the importance of humus in the soil. This could be increased by adding manure and plowing in of green crops as clover and buckwheat. In speaking of growing mangolds he would soak the seed for several hours then would add plaster paris which would serve to dry and warm the seed. He would then sow on the level with the seed drill in rows about 35 inches apart. The mangold seed sprouted very quickly and could soon be cultivated thus preventing the growing of weeds.

Mr. Steckly, District Representative, Newmarket spoke on pruning, spraying of the orchard and advantages of trimming of the fruit.

In the evening a joint meeting was held and Mr. Pratt again appointed chairman. Two interesting and instructive addresses were given. The first by Mrs. Watts, of Toronto who made some excellent suggestions from her subject "Your influence in the Home." Mr. Barber spoke on "Present Day needs of Ontario Agriculture." The farmers and others could not fail to find the address helpful to them. At the close the speakers were tendered a vote of thanks, on motion Reeve Pugsley, seconded by Mr. McMahon.

Nearly every body present responded to the facilitation of the secretary, Mr. A. J. Reynolds, and joined the Association.

TRIP TO SUTTON.

The following account of our hockey team's trip to Sutton, and the match with that village's seven has been handed to me by one who was present:—

Last Saturday Richmond Hill journeyed to Sutton, to play the scheduled game of the Metropolitan League. Richmond Hill had been strengthened by the addition of two players not out before Cousins and Carroll, and the rest of the team were in better condition.

A very fast game of hockey resulted, the score at the end of the first period being 1-0 for Sutton; 2nd period 3-1 Sutton; but in the last period Sutton's superior condition told, and the final score was 8-3. Our team was partially demoralized when our goal

keeper was benighted (rather unfairly we think.) Most of the game was played 6 men a side as Lee of Sutton had to retire after a collision with Tyndall from which the latter emerged with one closed eye. Patton was the pick of a hard working forward line, but the strongest part of the team was the defence, Carroll and Tyndall being strong on offensive and defensive play. Several of Sutton's supporters said after the game that the goal tending of Atkinson was the best seen this season.

After the game the visiting team and management entertained Sutton hockey team and officials to a light luncheon. After the repast speeches were heard from several prominent men of both towns, including Reeve Pugsley of Richmond Hill, Reeve Cameron of Vaughan, Dr. Lavery of Sutton, A. G. Savage of Richmond Hill and others. Manager Metcalf presided. The boys arrived home next morning elated with their good showing on the ice, and highly complimented by the tributes of the Reeve of Sutton who said that they were the most gentlemanly and well behaved lot of fellows that ever entered Sutton to engage in sport. The team—Atkinson, Carroll, Tyndall, Cousins, Naughton, Patton, Brown, Referee, Duncan, Newmarket.

INAUGURAL MEETING.

The inaugural meeting of the Village Council was held on Jan. 13, pursuant to Statute at 11 o'clock a. m. All the members elect were present and made and subscribed their respective declaration of qualification and of office.

Accounts from G. Newbery for \$135.00 for poles and from H. Sanderson \$6.50 for paint and work on cross arms were presented and payment of the same ordered.

The clerk stated that he had received an order from the Ontario Railway and Municipal Board approving By-law No. 243 for increasing the rate of interest on the Electric Light debentures.

Mr. Bell addressed the Council with the view of obtaining terms for the use of the rink for the High School Hockey Club. The matter was left in the hands of the rink committee as were also certain other applications in reference to the rink from the senior and junior hockey clubs. Council adjourned.

BIRTHS.

BOYLE—In Richmond Hill on the 16th January, 1913, to Mr. and Mrs. Arthur Boyle, a daughter (Catharine Janet.)

DEATHS

McNAUGHTON—On Saturday, January 25, 1913, John A. McNaughton, youngest son of John and Margaret McNaughton of Maple.

Maple.

A sad fatality occurred here last Saturday afternoon when John Albert, younger son of Mr. and Mrs. John McNaughton lost his life. He was going to Watson's pit for a load of gravel and when crossing the railroad was struck by a fast train from the north and instantly killed. A freight on the siding hid the approaching train from view. The accident has cast a gloom over the whole community, and everyone sympathizes with the bereaved parents and the brother and sisters in their great sorrow. The funeral took place on Wednesday afternoon.

The meeting of the Farmers' and the Women's Institutes were held on Saturday but the Tea that was to be given by the ladies was cancelled on account of the accident.

Rev. J. W. Morgan and Rev. F. C. Keam had an exchange of pulpits last Sunday morning.

The local hockey team went to King City on Wednesday night of last week and defeated the team of that place by 3-2. The boys pay it well considering that they had no practice.

TO THE PUBLIC!

Stove pipe time is here. I keep the best polished pipe on hand. Any person can put together my crimped pipes.

Tinsmithing, Grinding and All Kinds of Repairing.

SKATES SHARPENED

Electrone Coal Oil, Machine Oil, Motor Cylinder Oil, and Peerless Gasoline in stock. Charcoal, 3 bags for 25c. Come and see me.
