

ARE GROWING IN FAVOR EVERY DAY

DODD'S KIDNEY PILLS PROVING THEIR VALUE AS A FAMILY MEDICINE.

Quebec Man Tells How They Helped Him and Cured His Nephew of Kidney Disease.

South Ham, Wolfe Co., Que., April 7 (Special).—There is fresh proof every day that as a family medicine Dodd's Kidney Pills are growing in favor with the people of Quebec. Just to quote an example, Amable Pinard of this place says, in an interview:

"Dodd's Kidney Pills helped my rheumatism, backache, gravel, and heart disease, from which I suffered for twenty years.

"They have not yet cured me completely, but they did completely cure my nephew, who suffered from kidney disease."

Dodd's Kidney Pills always cure kidney disease. They will complete Amable Pinard's cure, because all the diseases mentioned are the results of kidney disease. They cured the young man's kidney disease quickly, because it was taken in its early stages. Amable Pinard's troubles are of twenty years' standing, and take a longer treatment.

The moral is, that if you cure your kidney disease early with Dodd's Kidney Pills, you will never be troubled with rheumatism, gravel, and other diseases that are caused by sick kidneys failing to do their work.

Over Conscientious.

 "All right, mother, but it will spoil the whole day for me."

Minard's Liniment Cures Diphtheria.

A woman visiting a butcher shop called for a piece of beef. The butcher, in weighing it, had his hand on the scales. The lady, picking up a sharp knife and handing it to the butcher, remarked: "I haven't any use for it, but you may cut it off, and I'll take it along, anyhow." "Cut it off? Cut what off?" asked the butcher. "Your hand; you weighed it."

When to Wed.

January brides are likely to become widows early. February brides will never have very happy married lives. March brides will probably make their homes abroad. April brides will have lives of change, and experience many ups and downs. May brides will entertain many strangers. June brides will find life a long honeymoon. July brides have bitter-sweet memories. August brides are lucky in finding a real friend in their husbands. September brings a smooth and serene future to its brides. October only gives a future of toil and hardship. November brides will be happy, and those who, according to the rhyme, marry "in December's cheer," will find that "Love's star burns brighter from year to year."

Remarks About Nourishing Food.
 "A physician's wife gave me a package of Grape-Nuts one day, with the remark that she was sure I would find the food very beneficial, both for my own use and for my patients. I was particularly attracted to the food, as at that time the weather was very hot and I appreciated the fact that Grape-Nuts requires no cooking.
 "The food was deliciously crisp, and most inviting to the appetite. After making use of it twice a day for three or four weeks, I discovered that it was a most wonderful invigorator. I used to suffer greatly from exhaustion, headaches and depression of spirits. My work had been very trying at times and indigestion had set in.
 "Now I am always well and ready for any amount of work, have an abundance of active energy, cheerfulness and mental poise. I have proved to my entire satisfaction that this change has been brought about by Grape-Nuts food.
 "The fact that it is predigested is a very desirable feature. I have had many remarkable results in feeding Grape-Nuts to my patients, and I cannot speak too highly of the food. My friends constantly comment on the change in my appearance. I have gained 9 pounds since beginning the use of this food."
 "There's a reason." Read the little book, "The Road to Wellville," in pkgs.

Man Who Had 100 Pipes.

A wife who obtained a judicial separation from her husband told a curious story at the South-western (London, England,) police court. She was Annie Traves, of 15 Farlow Road, Putney, and she stated that her husband, a master carpenter, would only allow her twopence a day to get dinner, though he had about £180 at the bank. "What does he do with his money?" inquired the Magistrate. "He spends it in clothes, pipes and other things," was the reply. "He has 100 pipes, between fifty and sixty walking sticks and innumerable pairs of boots."

The man who stands on his dignity never gets so tired as he makes other people.

WHEN APPETITE FAILS AND INDIGESTION IS BAD

There Is Danger Ahead For the Man That Neglects Nature's Warning.

Dyspepsia Tendencles are Serious and Should be Treated Accordingly.

There is a strong moral in the statement of James Schrum, of Pleasant street, Dartmouth, N. S. Like thousands of people, he was falling in health because his stomach and digestive organs were out of repair. His vitality was slipping away; he was losing ground every day.

"I could not have held on much longer. I was wasting away simply because no remedy I used gave tone and strength to my stomach. The vital forces of my system were dead. I was advised to try Dr. Hamilton's Pills. What hidden weakness they searched out I don't know, but in a miraculous way they have made a new man of me. My stomach troubles are cured, rich blood now runs through my veins—clear skin and unmistakable evidences of health and vigor I feel every day. Dr. Hamilton's Pills have certainly mastered the secret of curing the sickly emaciated man and I strongly urge everyone in falling or lost health to use this grand remedy."

Dr. Hamilton's Pills of Mandrake and Butternut are purely vegetable—25c. per box. Ave for \$1.00, all druggists and storekeepers, or postpaid from the Cataract Co., Buffalo, N. Y., and Kingston, Ont.

EMIGRATION FROM BRITAIN.

Increasing Tendency to Move to British Countries.

The annual report on the Emigrants' Information Office states that 28,156 letters were received in 1912, a decrease of 6.9 per cent. Enquiries leading to the United States decreased by 14.8 per cent, and were only 1.4 per cent. of the total number of enquiries received. There was a net movement from the United Kingdom for places out of Europe of 268,486 passengers of British origin in 1912, as compared with 261,809 in 1911. The net movements to the various countries were as follows:—

	1912.	1911.
Canada	133,531	134,765
Australia	68,688	56,337
New Zealand	11,054	9,432
United States	45,847	49,732
South Africa	4,233	7,527

There is an increasing tendency, the report says, on the part of British emigrants to proceed to other parts of the Empire rather than to foreign countries.

The number of immigrants entering Canada increased from 350,374 in 1911 to 395,804 in 1912. Of the latter 145,859 were of British origin, 140,143 were Americans, and 109,802 were of other nationalities. Thirty-four per cent. of the American settlers were of the farming class, and the actual wealth brought into Canada by American immigrants exceeded £4,800,000 during 1912.

INFLAMMATORY RHEUMATISM

Conquered by GIN PILLS

Mr. W. G. Reid, Hamilton, Ont., writes: "I have been for the last two years a cripple with Muscular and Inflammatory Rheumatism. I tried almost everything known to medical science and sought change of climate without relief. Your manager in this city recommended Gin Pills and I have since taken eight boxes and am now cured. I consider Gin Pills the conqueror of Rheumatism and Kidney Disease."

TITLES IN GERMANY.

They Are Quite a Common Occurrence in the Fatherland.

They take titles seriously in Germany. Almost any one may have one, but it must be the one that exactly describes him, no matter how long and cumbersome. Indeed, the longer the better, the Germans seem to think. The New York Sun quotes an address that it declares is probably written thousands of times a week in Germany, for it is a courtesy due to a sort of official whose rank is far below that of a minister of state:

"Highly revered Mr. Real Privy Councillor, highly to be revered Mr. President."

The title councillor has four degrees, thus: Positive, councillor; comparative, higher councillor; superlative, privy councillor, and extra superlative, real privy councillor. Then to complicate matters, there are a hundred or more councillors, such as councillors of legislation, councillors of state, sanitary councillors, forest councillors, and town police councillors.

Titles of another class have to do with the wearer's occupation. Thus a Munich newspaper records the death of Frau So-and-so, wife of the "Royal Court Theatre Color-grinders' Assistant." Bavarian newspapers used to print notices, inserted by the persons themselves, of the betrothal of So-and-so, "Royal Supernumerary Hay-Binder's daughter," or of So-and-so, "Head Bill-Poster's daughter."

Much can be said in favor of the rigid German system of titles. For instance, in Germany, when a man takes the prefix "doctor" he has a right to do so. The title cannot be bought, begged or assumed. You may be sure that a "doctor" has won his title in a university of standing and renown.

So, too, professors are such by right; they are quasi-officials of the state or the city. The title cannot be assumed offhand by bootblacks or chiropodists.

HE SENT HIS "BEST" REMEDY

The young daughter of Mrs. T. S. Dougall, 523 Flora Avenue, Winnipeg, was arranging some of her doll's washing on a clothes rack, beside the stove, when she fell, and her hand came in contact with the hot stove. She sustained a serious burn, and her screams brought her mother quickly to the spot.

"I sent to the druggist for the best remedy he had for burns," she says, "and he sent back a box of Zam-Buk. He said that there was nothing to equal it. I applied this, and it soothed the pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally, until the burn was quite cured.

"The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed."

All druggists and stores sell Zam-Buk at fifty cents box; and Soap at 25c. tablet. Post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

Find New Silk Worm.

A worm has been found in East Africa, which produces in the wild state quantities of silk, and factories are being put up to utilize this silk. The worm in question is the larva of the anaphe moth. From a dozen to a hundred of them make a nest in common and thus the cocoons are produced on a wholesale scale, says the "Pathfinder." When the butterfly is hatched it secretes a liquid which unseals the cocoon and it then escapes without injuring the silk. Thus the amount of human labor involved is much less than with the Asiatic silkworm.
