

## Popular Young Farmer Talks

**TELLS WHAT DODD'S KIDNEY PILLS DID FOR HIM.**

**He's Back at Work Again, After Suffering from the Pains, Nervousness and Depression that Only Kidney Disease Can Bring.**

Point Alexander, Ont., April 14 (Special).—Mr. D. A. Froncaire, a well-known and popular young farmer, living near here, who has been a sufferer from kidney disease for some time past, is back at work again, and he says, without hesitation, that his cure is due to Dodd's Kidney Pills.

"I was always tired and nervous," Mr. Froncaire says, in speaking of his illness. "I suffered from backache and neuralgia, and my sleep was broken and unrefreshing. My eyes were puffed and there were dark red circles around them.

"My muscles would cramp. I felt heavy and sleepy afterwards, and I was depressed and low-spirited, while shortness of breath and dizzy spells served to make life yet more miserable for me.

"I was always thirsty; my limbs were heavy; and I had a dragging sensation across the loins.

"My symptoms led me to believe I had kidney disease, and I started to use Dodd's Kidney Pills. I have taken eight boxes in all, and I am very grateful for the benefit I have received from them."

If the disease is of the kidneys or from the kidneys, Dodd's Kidney Pills will cure it.

### Time.

Mrs. Knicker—This frock is a creation.

Knicker—Does that mean it was made in six days, or that it will take me several hundred million years to pay for it?

## When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the public and sold by druggists at 25c and 50c per Bottle. Murine Eye Remedy in Ascorbic Tubes, 25c and 50c. **Murine Eye Remedy Co., Chicago**

Many of the misfortunes from which we suffer most are those we never experience. They are the misfortunes of the imagination.

### Minard's Liniment Cures Diphtheria.

"Was your daughter's musical education a profitable venture?" "You bet! I bought the houses on either side of us at half their value."

### Only One "BROMO QUININE"

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days. 25c.

Mr. Supleigh—I find it deuced hard to collect my thoughts, you know. Miss Keen—Father says it's always difficult to collect small amounts.

### Minard's Liniment Cures Colds, Etc.

### Whole Hymn on Her Arm.

Some time ago a woman entered a well-known London (England) hospital, and the nurses discovered that the upper part of the right arm was entirely occupied with a pictorial representation of "The Rock of Ages," while on the lower part of the arm was the scene of the Crucifixion.

## TOMATO CULTURE.

Almost anyone with a garden or farm in a temperate climate can grow tomatoes with greater or less success, but there is a great difference between the extent and quality of the crops grown by different persons in the same locality. These differences are due to several causes among which the varieties grown and methods of cultivation practised are perhaps the chief.

According to experiments carried on for years at the Experimental Farm at Ottawa, Earliana, of which there are several strains, is the best early sort, but Bonny Best, Chalks' Early Jewel are also good early kinds. Of later varieties Matchless Trophy, Livingston's Globe and Plentiful rank high.

It is the early fruit that makes the profit. In growing plants what should be aimed at is the production of a stock, sturdy plant which will have some fruit set upon it when set in the field. After planting the chief work is cultivation, which should be done both ways in the plantation.

In order to protect tomato plants from diseases, of which there are several, they should be repeatedly sprayed, even when quite young, with Bordeaux mixture. These and many other points, which cover practically the whole field of tomato culture in the green house as well as in the garden and field, are fully treated in pamphlet No. 10 of the Central Experimental Farm prepared by the Dominion Horticulturist, Mr. W. T. Macoun. This work is for free distribution to all who apply for it to the Publications Branch of the Department of Agriculture at Ottawa.

### A WOMAN'S SELF-CONTROL.

**How She Kept Her Head Under Trying Circumstances.**

An Englishman travelling through Ceylon describes in the London Telegraph a startling experience that befell his hostess at a dinner in Trincomalee.

The dinner was excellent, but when it was about half-over I was startled by hearing my hostess tell the native servant to place a bowl of milk on a deerskin near her chair.

Although she spoke as calmly as if giving an ordinary order, I knew at once that there was a snake somewhere in the room, for these creatures prefer milk to anything else. As a hasty movement might have meant certain death, we all sat like statues; but for all that, our eyes were inspecting every nook and corner of the room. However, it was not until the milk was placed on the deerskin that the snake appeared. And then, to our amazement, a large cobra uncoiled itself from my hostess's ankle, and glided toward the bowl, where, of course, it was immediately killed.

Imagine the nerve of the woman, although she fainted when the snake lay dead on the floor. How many could have remained motionless under such circumstances?

### No Alimony—Just a Separation

Peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your horns with Putnam's Corn Extractor. Acts like magic—don't use any but "Putnam's"—it's the best. 25c. at all dealers.

### To Improve Hanging.

Suggesting that our method of hanging is not the most painless and humane, the London Lancet urged the adoption of the submental (under the chin) knot in place of the subaural (below the ear) knot. "It is admitted that there is a tendency for a knot to slip from the point of the chin, and to obviate this Lieutenant-Colonel Marshall has invented a 'chin trough,' which holds the rope in position. The question which should now present itself to the authorities is, granting that the submental knot is the most humane, what is the best method of ensuring the rope being retained at the point of the chin?"

### Thibet's Legend of Eden.

The followers of the Dalai Lama, in Thibet, have a legend that in the first great Garden a sweet-tasting plant grew out of the ground. One man tasted of this plant, and the other did likewise, when all virtue and good fortune ceased. Ages passed, and this plant grew no more. Mankind fed upon a kind of red butter, then upon grass, and at last they had to cultivate the soil. Virtue had departed from the earth, violence, murder and faithlessness increased.

Minard's Liniment Cures Cagat in Cows.

## Sore Back, No Fun, Cure It To-Day, Rub on "Nerviline!"

**It Will Stop Your Aching Back, Stop Your Suffering, Keep You Well.**

### Back Sufferers, Read Below.

"I am just so delighted with the comfort Nerviline brought me that I want to talk about it all the time," writes J. C. Caughlan, of Saskatoon. "For ages I have been subject to an aching, dragging feeling at the base of the spine. When attacks came on it made my whole body ache. It appeared as if I had taken cold and a soreness developed all through my muscular system. When in Winnipeg one day a friend spoke to me of Nerviline, and I bought a 50c. bottle. That was the best half-dollar I ever spent, it did so much for me. It is hard to convince some people of what a really good medicine can do, but there will be no exceptions after they try out Nerviline. I use it for everything now. It's fine for Rheumatism and Neuralgia and all sorts of muscular pain it cures quickly. But internally, if possible, Nerviline is even better. It cures a cramp in ten seconds, and, as for gas and upset or sour stomach, nothing could excel Nerviline. I think it should be kept in every home as a protection against sudden ills, and also to cure ills that resist other treatments."

Family size bottle, 50c.; trial size, 25c.; at all storekeepers and druggists, or The Catarthozone Co., Buffalo, N. Y., U. S. A.

### PRINCE EDWARD ISLAND.

**How the Farmers Renew Their Exhausted Land.**

The little Province of Prince Edward Island which lies in the Gulf of St. Lawrence, and close to the shores of both Nova Scotia and New Brunswick, has many features wholly, or almost, wholly, peculiar to herself. The smallest Province in the Dominion, yet she is unique in that she possesses the densest population, is the only Canadian island having a provincial status, and the only one with a uniform and unaltered geological formation. The soil of Prince Edward Island, however, while naturally fertile, is somewhat deficient in lime, and the crops soon exhaust the scant supply of nature. But a remedy is provided by the deposits of dead oysters from one end of the island to the other. This deposit is the most superior lime fertilizer extant, and a valuable dressing for some soils, especially for hay and grain crops. Moreover, it requires no treatment of any kind before being applied to the land. These shell mines are considered to be public property, and any man is free to select the best location he can. He receives no official recognition of his claim, and only holds it while his machine is over the spot. The depth of some of these old shell beds is extraordinary. Thirty feet of solid oyster shells is said to have existed in certain places. The size of the shells in some cases is fully 15 inches long, 4 inches wide, and an inch thick at the butt end. It will thus be seen that shells of this description must contain a large amount of pure lime.

quickly stops coughs, cures colds, and heals the throat and lungs. :: :: 25 cents.

### Quite Another Thing.

Hobbs—So you've struck it rich and are now able to keep several servants?

Dobbs—Alas, no—only to hire them.

### PILES CURED IN 6 TO 14 DAYS.

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

### A Terrible Silence Followed.

The Bachelor—Oh, is this the baby? Can it talk yet?  
Proud Mother—No, indeed. He isn't old enough yet. Is 'ou, mamma's precious darling?  
The Bachelor—Ah, and at what age, now, will he begin to get pretty and cunning?

## TUBERCULOSIS CATTLE.

**An Expert Says It Is the Most Common Disease of Cattle.**

In a paper read before the British National Association for the Prevention of Consumption, Dr. Sheridan Delepine emphasized the need of a systematic inspection of dairy cattle. He said he believed that infection from cattle caused fully a quarter of the cases of tuberculosis among children under five years of age. The Lancet, which prints extracts from Doctor Delepine's paper, also quotes a recent report of the veterinary surgeon of the city of Glasgow, who said that tuberculosis was the most common disease that affected cattle. Out of 71,745 British cattle slaughtered, no less than 8,932, or more than twelve per cent., proved to be tuberculous. The prevalence of tuberculosis in milk-cattle is further shown by the fact that the veterinary surgeon rejected no less than forty out of ninety-eight cows that he tested with tuberculin before admitting them to the herds that supply milk to the fever hospitals. "An alarming proportion," says the report, "when we consider that these were all good-looking beasts that had received the critical attention of the dairy-owner beforehand, in the full knowledge that they were to be tested."

## Gained in Weight, Digestion Restored, Health Renewed

**Here Is More Proof of Quick Cure for All Folks That are Weak, Ailing, Nervous.**

### More Praise for Dr. Hamilton's Pills.

"For a period last summer the thought of food excited feelings of nausea," writes Mrs. C. A. Dodge, of Bloomsbury. "The heat had made me listless and the distaste for food reduced me to a condition of semi-starvation and brought me to the verge of nervous collapse. Tonics were useless to restore an active desire for food. The doctors told me my liver and kidneys were both at fault, but the medicines they gave me were too severe and reduced my strength so that I had to abandon them. At the suggestion of a friend who had been cured of blood and skin trouble, I began the use of Dr. Hamilton's Pills. The difference I first noticed was that while they cleansed the system, instead of feeling weaker I felt better after taking them. Indeed their activity was so mild it was easy to forget I had taken them at all; they seemed to go right to the liver, and in a very brief time not only did all source of nausea disappear, but I began to crave food and I digested it reasonably well. Then I began to put on weight until within three months I was brought to a condition of good health. I urge Dr. Hamilton's Pills for all who are in poor health."

Get this best of all medicines to-day and refuse a substitute for Dr. Hamilton's Pills of Mandrake and Butternut. Sold by all druggists and storekeepers, 25c. per box or five for \$1.00. Sent postpaid by The Catarthozone Co., Buffalo, N. Y., and Kingston, Canada.

### Saved by Poverty.

Poverty has saved the life of many a young fellow who would have bought himself a shotgun or a sailboat if he only had had the money.

I consider MINARD'S LINIMENT the BEST Liniment in use. I got my foot badly jammed lately. I bathed it with MINARD'S LINIMENT, and it was as well as ever next day. Yours very truly,  
B. G. McMULLEN.

### Transferred.

He told the shy maid of his love,  
The color left her cheeks.  
But on the shoulder of his coat  
It showed for several weeks.

### Minard's Liniment Cures Distemper.

**Czar Buys Clothes in Russia.**

The Czar keeps about 40 suits in wear, and wears each perhaps a dozen times before it is put out of the wardrobes. The Czar buys all his clothes in Russia, and each suit costs him from \$40 to \$60, while for frock coats and waistcoats he pays \$75. On some of the Czar's uniforms the gold ornamentation and braiding are worth alone \$1,000. This ornamentation is never used twice, but when a new uniform is ordered the ornamentation is good for about one-third of its original cost.

An ounce of done is worth more than a ton of going to do.

Many a genius refuses to work at his trade.
