But you left us to remember
None on earth can fill your place.

READ THE ADVS.

Some people are inclined to smile when they hear that women have a habit of reading advertisements in the newspapers. There is really no cause to smile. By reading the advs. they are acquiring knowledge, and as the women do most of the buying for the home and for the children they are in a position to spend their money more wisely than the men do. Women who read the advertisements know the best stores, the best goods and the best values. They are enabled to shop more economically, and make the money go farther. Is you save a dollar it is just as good as earning or finding a dollar.
