### HARRY THAW ESCAPED.

Ran Through Open Gate and Into an Automobile.

A despatch from Matteawan, N. Y., says: Harry K. Thaw, the slayer of Stanford White, escaped from the hospital for the criminal insane here at 7.45 o'clock on Sunday morning. A dart for liberty through an open gate, a dash in the open door of a powerful automobile that stood quivering outside, and a flight like a rocket for the Connecticut State line, 30 miles away, accomplished his escape. At night he was still at large, and the hospital authorities felt certain he was outside the State. Once beyond its boundaries Thaw is free. Only months, perhaps years, of litigation can bring him back to Matteawan, and then only in one event—that he be adjudged insane in the State to which he has fled.

### THE CROP IN MANITOBA.

Wheat Yield Will Scarcely Exceed Fifty Millions.

A despatch from Brandon, Manitoba, says: Taking Manitoba as a whole, judged from observations made in the northerly districts last week, it is the opinion that the average yield in all grains will be lighter and the aggregate crop smaller in volume than has been seen in this Province since 1910. Wheat, for instance, hardly yields more than a fifty million bushel crop for Manitoba this year, which would be eight million bushels less than last year, when the area was practically the same size as it is this season. Oats and barley are correspondingly light. The conditions south of the main line of the C.P.R. are responsible for the general lowering of the average production throughout the Province.
