All this time I was being treated by the best doctors but without the least benefit. Night after night I could get no sleep the pain and agony was so severe. On consultation the doctors decided I was suffering from cancer of the stomach, and advised an operation as a means of saving my life. This I refused to undergo, and began to look forward to an early death. Just then a friend advised me to try Dr. Williams' Pink Pills. I had no faith in any medicine and at first refused, but my friend was so persistent that finally I gave in and purchased half a dozen boxes. NEW C.P.R. LINE.

The new Lake Shore line of the C.P.R. bas been used for passenger traffic since June 29. A freight business is also being carried on. This new line gives practically a new route between Montreal and Toronto, and greatly facilitates in handling the enormous traffic, passenger and freight, which passes through this territory. The work was commenced about two years ago, and entailed a cost of nearly twelve millions of dollars. That it will create new business is confidently believed; but a consideration which is not directly associated with profits, yet is not alien thereto, is that by the duplication of the tracks there is set up a closer communication between the two great centres of population in the Dominion.

GERMAN DIPLOMACY.

Surprised She Has No Friends In the World.

The world does not know what was behind the important declaration of the Russian Czar when, toward the end of July, over the German parleyings, he declared, "We There are two ways usually adop- have had too much of this already.

"All the time I am permitted to give you in which to make answer is 15 minutes."

This has been the diplomacy of Germany; the diplomacy of force, and it now finds its expression in the 14-inch siege guns, which were never built for defences within Germany

And yet Germany expresses sur prise that it appears to have no friends throughout the world.

Itching, Burning, Irritated Scalp. Kept Awake at Night. Used Cuticura Soap and Cuticura Ointment. Now Head Is Well.

58 De Salaberry St., Quebec, Que .-"About six years ago dandruff began to form on my scalp. At first I didn't notice it, but my hair began falling out gradually and it kept getting worse. The itching and burning were so bad that I scratched and irritated my scalp. I was kept awake at night by the irritation.

"I used — and — Oil, also a few other oils and they did no good. I then tried a sample of Cuticura Soap and Ointment, washed my head with the Soap and warm water, and applied the Ointment. After the first time my hair stopped falling. I got one cake of Cuticura Soap and one box of Ointment. I continued using them for a few months and my head is now well." For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath. to assist in preventing inflammation, irritation and clogging of the pores, the common cause of these distressing facial eruptions. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32-p. Skin Book on the treatment of the skin and scalp. Address post-card "Cuticura, Dept. D, Boston, U. S. A."

Military Service.

What is "actual military service"? This question was raised several times in the Probate Court after the Boer War. It had been previously decided, on the analogy of the Roman law, that a soldier was not on actual service unless he was on an expedition, and that he was not on an expedition because he was under orders to leave the barracks where he had been quartered to take part in a war. Sir Francis Jeune took a less narrow view. In one case he decided that a volunteer, having been accepted for service in South Africa and sent into barracks at Colchester under orders to embark, was already on an expedition; in another he held that a soldier in India whose will was contained in a letter written to a friend after his regiment had been ordered to mofrom the place where it was stationed, was already in expedi-

The Right Answer.

The three young Borden children were visiting their Grandma Borden, and the occasion was one of great merriment for them. After a while it proved a trifle too noisy for grandma and she said reprovingly:

Good gracious, children, why are you so noisy to-day? Can't you try and be a little more quiet You are making my head ache."

"Now, grandma," said little sixyear-old Dorothy, "you mustn't standing before a looking-glass, arscold us. You see if it wasn't for ranging his toilet and admiring us. you wouldn't be a grandma at himself generally. "Doctor," said all."

WHEAT AND FLOUR.

Canadian Flour Mills Will Run at Full Capacity.

Orders from the Dominion and Ontario Governments for an aggregate of 1,250,000 barrels of flour are only the beginning of the increased demand on the flour mills of Canada as a result of the war.

The mobilization of the armies of Europe will result in a large reduction in the acreage sown to wheat! The in that continent. That reduction in acreage and consequent reduction in yield will greatly increase the demand for wheat and flour from other producing countries. Canada will find a ready market for all the wheat and flour she can export during the war. The flour mills of Canada will be kept busy grind ing Canadian wheat into Canadian flour for export to the Mother Country at this time of trial.

In the home market also there will be an increased demand for flour. The tendency of man will be to use more bread and other staple articles of food instead of some of the luxuries of the table. This will mean an increased consumption of

Thus it would appear that the 7,-000 men who are working in the ing Company, 72 West Adelaide Street, flour mills of Canada are assured of continued employment throughout the war. It is possible the number of employees in flour mills will have to be increased, but even if an increase should be unnecessary, the continued operation of this industry will mean the circulation of approximately four million dollars a year in wages to Canadian workmen.

Nerviline Ends Neuralgia, Brings Relief Instantly
