

## Good-Bye, Old Backache Nerviline Will Fix You!

Stiffness is Rubbed Right Out; Every Sign of Pain Disappears.

Gee whiz—think of it!  
No more stomach dosing necessary to cure your lame back.

Every trace of lameness, every bit of stiffness, every sign of weakness in the back's muscles can be rubbed away for all time to come by good old "Nerviline."

No other liniment can do the work so quickly, can penetrate so deeply, can bring ease and comfort to the back-weary sufferer as Nerviline invariably does.

Backache isn't the only malady Nerviline is quick to cure. For lumbago or sciatica you would go far to find relief so speedy as Nerviline gives. For chronic rheumatism there are pain-destroying properties in Nerviline that give it first rank. The way it limbers up a stiff joint and takes soreness out of strained or rheumatic muscles is simply a wonder.

If you have an ache or a pain anywhere, if you have a sore back, a stiff neck, a stiff joint, a strained muscle—if you have lumbago, congested chest or sore throat, just try Nerviline. Rub it on plentifully—it won't blister, it can't do anything but cure you quickly. The large 50c. family size bottle is the most economical, of course, but you can, from any dealer, also get the 25c. small size of Nerviline, the king of all pain-relieving remedies.

### A SPLENDID CAPITAL.

#### Christiania, Denmark, Is Laid Out to Good Advantage.

Christiania probably is the most tastefully laid out capital of any state in Europe, Paris itself not excepted, says the Manchester Guardian. It owes its foundation entirely to King Christian IV. of Denmark, from whom it takes its name, who, in or about the year 1623 decided to erect for himself a new capital on the opposite side of the river to Oslo.

The whole of the main streets of the city run at right angles and are extremely wide. Indeed, it would hardly be an exaggeration to call them squares rather than streets. For the most part the architecture is rather heavy in design, but the clear air that comes from the fiords tends to give the whole place a tone of lightness that it would otherwise lack. The River Aker contains a wonderful series of waterfalls in the upper courses some little distance from the city, where practically the whole of the necessary power for the ever-growing manufacturing quarter of the Norwegian capital is generated. This quarter is rather rigorously restricted to the suburb of Sagene, on the north side of the city, since town planning is something more than a mere name in Norway.

The royal palace, which was built by Christian IV., is a handsome building of rather unattractive architecture. The interior has been much improved since Norway became a separate kingdom and King Haakon took over the crown, and many of the rooms are distinctly English in their appearance. This is largely due to the taste of Queen Maude, who has equipped one or two of her private apartments as

close replicas of the rooms at Sandringham and Marlborough House as possible. The university, which is one of the most notable of its kind in the whole of Northern Europe, though founded less than a century ago, now contains some fifteen hundred students, whose studies are modelled upon those at Oxford and Cambridge. Its library is remarkably complete, comprising some 400,000 volumes, but it has few literary treasures, save some old Norse manuscripts.

### CANADA AND RUSSIA.

#### Possibility of Monthly Steamship Service Between Them.

The present war has brought Russian and British Empire interests much closer together, and with considerable enterprise the Russian Government has arranged to send the Nijni Novgorod, a Volunteer Fleet steamer, to Vancouver to see what business can be picked up. She will leave Vancouver on November 25th with several thousand tons of freight, delivered to her by the Canadian Pacific Railway. Indeed, so promising is the business that a second vessel, the Kiev, is scheduled to arrive at Vancouver early next month, leaving again for Russia on Christmas Day. This is evidently leading up to a possible monthly service between Canada and Russia, and though the Canadian Pacific Railway is at present only issuing through bills-of-lading for freight, there is no reason why a passenger business should not grow up also. As a matter of fact the Canadian Pacific Railway, which handled the Novgorod at the Japanese ports on her Eastbound voyage, booked several passengers for Vancouver. The displacement of this vessel is 5,285 tons.

There are many commodities which can profitably be exchanged between the two countries; for instance, grains, machinery, minerals, hides, furs, tea, cotton, tobacco, condensed milk, automobiles, apples, etc. The Russian Volunteer Fleet is an extensive and well-managed organization consisting of fourteen vessels, totalling about 75,000 tons. It has an excellent service from Vladivostok to Tsuruga and Shimonoseki—two Japanese ports. The steamers in its service were built mostly in Glasgow or Newcastle, the Novgorod coming from the yards of Armstrong, Mit-

#### Mercury and the War.

Quicksilver has risen from \$35 to \$100 or more a flask (seventy-five pounds). According to the Mining World, that is by far the highest price for mercury in modern times. The annual production is about 4,100 metric tons. The United States and Austria-Hungary produce each about one-sixth of this amount, Italy a little more, and Spain nearly one-third. The war in Europe has shut off the Austrian supply, and made it difficult to transport the product of Italy and Spain. It has also caused a greatly increased demand for mercury, which is now principally used in the manufacture of fulminate for explosive caps. Mercury is also used extensively in drugs and medicaments, and in thermometers and instrument of precision. Formerly a considerable amount of quicksilver was used in silvering mirrors, and in the amalgamation process of extracting gold and silver from their ores; but mirrors are now silvered with nitrate of silver, and the cyanide process has virtually supplanted the amalgamation process in metallurgy.

### ALWAYS PLENTY OF TIME.

#### Loss of Day Nothing in Leisurely Holy Land.

In Jerusalem, town-time and train-time are different, forty minutes different and both are variable. Train officials say the train leaves for Jaffa at 6.40 in the morning; but 6.40 by train-time is 7.20 by town-time. One morning when we were starting for Egypt, states a writer in The Atlantic Monthly, we ordered our carriage for seven o'clock. Arriving at the station at 7.15 we found the train gone and the station empty. At last we roused an official.

"Where's the train?" we demanded.

"Gone, Messieurs!"  
"Gone! You've changed the hour of the train, then?"

"Non, non, Messieurs! The train leaves at the same hour always, but the time has changed. Yesterday 6.40 train time was 7.20 town-time. To-day 6.40 train time is 7 town-time. To-day 6.40 train time is 7 town-time. No, no," and he smiled patronizingly. "The trains always leave at the same hour, our trains never change—it is the time that alters itself, not the train, Messieurs!"

We sought the telegraph office. "To the Hapag agent in Jaffa," we dictated. "Missed train. Cancel passage on boat for Egypt. Wire date of next sailing for Port Said." This was turned into flowery Turkish and sent. A reply came soon. "Plenty of time. Your boat will wait till to-morrow afternoon, for the water is so rough she cannot land her passengers and cargo today. Plenty of time, if you care to take the train to-morrow."

### When a Woman Suffers With Chronic Backache

#### There is Trouble Ahead.

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak, ailing women, dragged down with torturing backache and bearing down pains.

"Such suffering isn't natural, but it's dangerous, because due to diseased kidneys.

The dizziness, insomnia, deranged menses and other symptoms of kidney complaint, can't cure themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities their merit is well known.

Because of their mild, soothing, and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25 cents per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of Mandrake and Butternut.

#### Moral Twisted.

The telephone in a physician's office rang madly the other day, and the following conversation took place:

"We want the doctor, quick!"  
"Who's sick at your house?"  
"Everybody except me. I'd been naughty, so they wouldn't give me any of the nice mushrooms papa picked in the woods."

Visitor (to small boy)—"This is delicious jam. Did your mamma make it?" Small Boy—"She did most of the work, but I had a finger in it."
