

WHAT MOTHERS SAY OF BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she will use no other medicine. She quickly realizes the Tablets are an absolutely safe remedy and one that will give sure results. Concerning them Mrs. R. L. Wright, Pennablt, Sask., writes: "I have used Baby's Own Tablets for my three babies and think so much of them that I always keep them in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BENEFITS OF IRRIGATION.

When Sir William Van Horne said many years ago that the C.P.R. by undertaking the work of irrigation east of Calgary, would make the wilderness to blossom like the rose, he was derided, but to-day this prophecy may be said to be a literal fact. At any rate, millions of acres have not only been reclaimed by the company, but the whole district has been so improved and beautified that there is now a general clamor for irrigation in sections which are still untouched. Deputations have gone to Ottawa to stir the Government into undertaking the work outside the proprietary limits of the C.P.R., on the lands which seem to require this treatment to produce similar results to those so gratifying and profitable on the C.P.R. lands.

As one result of this demand on the part of the people of Southern Alberta, Professor Fairfield, superintendent of the Dominion Experimental Farm, Lethbridge, convinced farmers that with irrigation production will not only be greatly increased, but permanent homes established on the prairie, which can be rendered naturally beautiful when irrigation works are available. The professor laid great stress on growing alfalfa corn, which meant more fodder for live stock, more fertility of soil, improvement to all crops. Resolutions were passed asking the Minister of the Interior to carry out irrigation works, or to arrange for an extension of the C.P.R. system.

For This One Day.

For this one day—
Grant us sight to see the road,
Creep plainly on our winding way
And grant us strength to bear the load
For this one day.

For this one day—
Guide our feet the road along,
Let not our weary footsteps stray,
Help us lift a stave of song
For this one day.

For this one day—
Let us not see the mud beneath,
But know the gold above the grey,
And smell the wind from off the heath
For this one day.

For this one day—
When bowed at eve for benison,
Grant that upon the uphill way
Our passing smile has gladdened one
On this one day.

How a Sick Woman Can Regain Health

READ THIS VERY CAREFULLY.

"For years I was thin and delicate. I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed, I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them, and now that they have made me a well woman I would not be without them whatever they might cost. I found Dr. Hamilton's Pills by their mild yet searching action very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established regularity. My appetite grew keen—my blood red and pure—heavy rings under my eyes disappeared and to-day my skin is as clear and un-wrinkled as when I was a girl. Dr. Hamilton's Pills did it all."

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known miller in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's. 25c. per box. All dealers or The Catarrh-ozone Co., Kingston, Ontario.

Made the Clyde Themselfs.

The river Clyde has been brought to its present draft by dredging, and the Scotch are very proud of it. A party of Americans scorned it one day. "Call this a river?" said they. "Why, it's only a ditch in comparison with our Mississippi, or St. Lawrence, or Hudson." "Aweel mon," said a Scotch bystander, "you've got Providence to thank for your rivers, but we made this one oorsel's."

Chest Colds and Hoarsness Quickly Rubbed Away

"Nerviline" Gives Speedy Relief and Cures Over Night.

Got a cold?
Is your voice raspy—is your chest congested or sore?
If so you are the very person that Nerviline will cure in a jiffy.
Nerviline is strong and penetrating. It sinks right into the tissues, takes out inflammation and soreness, destroys colds in a truly wonderful way. Rub Nerviline over the chest—rub on lots of it, and watch that tightness disappear. Nerviline won't blister, it sinks in too fast—doesn't simply stay on the surface like a thick, oily liniment would. If the throat is raspy and sore, rub it well outside with Nerviline, and use Nerviline as a gargle diluted with warm water. Just one or two treatments like this and your voice and throat will be quickly normal again.

Just think of it—for forty years the largest used family medicine in this country—Nerviline must be good, must quickly relieve and cure a hundred ills that befall every family. Try it for earache, toothache, coughs, colds, sore chest, hoarseness and muscular pains in every part of the body. Large family size bottle 50c.; trial size 25c. at all dealers.

PRAISES BRITISH ARTILLERY.

It Is Now Superior to the German Batteries.

It is good to have it from Sir John French that the British artillery, at various points along the front of twenty-five miles held by the Allies, has increased its ascendancy over the enemy's batteries, says the Glasgow Citizen. It is also eminently satisfactory to be told that our men have obtained a complete mastery over the enemy's snipers. Very many of the casualties hitherto sustained have been due to this campaign of pot-shots organized by the Germans. It has been said that they have trained marksmen for this work, but, given time, our people, we fancy, can always reach equality in anything, and in much human effort, superiority. We entered the campaign deficient in guns and men. To-day matters are on a different footing. The adverse balance in field artillery and guns of heavy calibre has been pretty well adjusted; the numerical inferiority in men is being rapidly lessened if it has not been altogether made up. Moreover, there have been evidences, in much of the recent fighting along the western front, that the Allies have already secured a moral ascendancy over the Hun levies. In Poland something of the same influence is observable. The compliment paid to the Princess Patricia's Canadian Light Infantry, by Sir John French, will be appreciated from end to end of the Canadian Dominion. They have had their baptism of fire and emerged from it with lustre.

Separate School Teacher Speaks

TELLS OF THE GOOD DODD'S KIDNEY PILLS HAVE DONE.

She Had No Faith in Them. But the Results and Health Obtained Convinced Her.

Grates Cove, Trinity Bay, Nfld., March 29th (Special).—Among the thousands in Newfoundland who pin their faith to Dodd's Kidney Pills is Miss Mary Bridget Whelan, teacher in the Roman Catholic School here.

"I am exceedingly grateful to Dodd's Kidney Pills," Miss Whelan states in an interview. "I was very much run down in health. Close confinement to my work brought on my trouble.

"Reading of the many cures by Dodd's Kidney Pills I began to use them and I must confess with very little faith.

"Before I had taken one box I was not only cured but my strength was growing rapidly, and I felt a great improvement in every way."

Miss Whelan gives the real reason of the popularity of Dodd's Kidney Pills. They do not cure the ailment aimed at at the expense of some other part of the body. They build up health all over the body. They do this by curing the kidneys. Cured kidneys mean pure blood.

Retailed Glory.

"Mother wants a penn'orth of glory divine."

"We don't keep that," said the chemist.

"Oh, yes, you do," the little maid retorted. "We've got it here before. Mother puts it down the drain in the back yard."

Then the chemist knew that the "glory divine" was another way of saying chloride of lime.

Pat Replied.

An Irishman, having recently arrived in New York, got employment with a wood merchant. Later he was ordered to take a load of wood some distance away. Having gone half his journey he came to a steep hill, and while the horses were struggling to get to the top his boss happened to meet him, and seeing the horses in such difficulty, and Pat sitting on top of the load, he stopped him and exclaimed: "Do you think the horses haven't got enough to do without hauling you up the hill?" Pat, fixing himself more comfortably on the load, said, "Is that what you stopped me for?" "Yes," replied the boss. Then, with a crack of the whip, Pat replied, "Gee up! It's a poor ship that can't carry the captain."

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.

COWS FOR PROFITS.

In one dairy record centre maintained by the dairy division, Ottawa, in 1914, there were such surprising contrasts in yields of milk and fat that they must command the attention of every progressive dairyman.

The best cow in one herd gave only 4,158 pounds of milk and only 155 pounds of fat; the average of the whole herd was only 3,772 pounds of milk and 136 pounds of fat. In a herd near by the poorest yield of any one cow was 8,658 pounds of milk and 278 pounds of fat; the herd average was 7,255 pounds of milk and 342 pounds of fat.

There were several individual yields of over eight thousand pounds of milk, while one good grade cow gave 14,400 pounds of milk and 562 pounds of fat.

Coming to the cost of feed, plenty of herds had an average cost per cow of from forty to fifty-five dollars; even at these high figures the net profit above the cost of feed ran up to forty-six and fifty dollars as the herd average.

Such results are full of encouragement for the owners, and augur well for the future of cow testing in the Maritime Provinces. Other dairymen may well strive to emulate these records of fifty and sixty-five dollars clear profit above the cost of feed as made by good individual cows. This sensible method of determining the respective merit of each cow as a profit maker lays a solid foundation for building up a singularly interesting herd from a modern business standpoint.
