AUSTRIA MOVES AGAINST ITALY

Destroys Frontier Bridges and Cuts Railways and Electric Wires.

A despatch from London says: A state of war now virtually exists between Italy and her former allies, Austria and Germany, al though no formal declaration has yet been made. Austrian troops have been withdrawn from some of the frontier posts and all navigation services in the Adriatic have been suspended. An indication that the clash is not far off is the fact that the Italian Senate endorsed Temps, "that the value of the carthe action of the Chamber in granting the Government extraordinary powers in the event of war, for which the whole country appears to be enthusiastic.

Unofficial despatches from various points indicate that great military activity is proceeding all along the frontier. It is stated in a report from Brescia that the Austrians evidently consider that a state of war between the Dual Monarchy and Italy already exists.

their troops and Customs guard from the frontier at Ponte Caffaro and Lodrone after destroying the bridges, the telegraph and telephone lines and the electric light apparatus. Other bridges on the frontier have been mined. From Ponte Caffaro and Lodrone two roads pass over the frontier and serve for communication between Italy and Austria. On the neighboring mountains Austrian artillery can be seen.

Information gathered by correspondents on the eastern frontier of Switzerland shows that Austrian and German forces, with heavy artillery, have been concentrated at Trenton, Bozen and Meran, Movements of considerable bodies of troops are reported from Munich. The theory is advanced that Germany and Austria expect to break through the Italian frontier de-

fences and carry the fighting into Italian territory. Italian troops are massed in great numbers, however, along the same front.

GERMAN PUBLICATIONS.

Customs Officers Have Been Advised to Exercise Vigilance.

A despatch from Ottawa says: Customs officers at all ports of entry in Canada have been notified by the department to exercise greater vigilance toward the exclusion of German-publications. The entry of these publications has been prohibited under the proclamations relative to trading with the enemy, but some are finding their way in by mail and express. Special reference is made to a book entitled "Fur Vaterland Und Ehre" or "For Fatherland and Honor, which is said to have been distributed extensively through Ontario by a St. Louis publishing firm.
