Growing

Last week's Bulletin, issued in connection with the Toronto and York Radial Railway, states that in 1905 the company had 38 miles of rails. This year they cover 82 miles. Ten years ago they carried 2,241,584 passengers. Last year they carried 6,289,595 people.

Patronize the Local Paper

There are, doubtless, people in every town who say that their local paper is "no good." Those people never take the paper, and only see it when they borrow it from their neighbors. The way to make your local paper good is to take it and pay for it, and send in items of news. If you help the publisher occasionally by handing in personal and other items and read the paper regularly you will admit that it is better than you thought it was.

Give the Wife a Chance

Previous to Saskatoon adopting prohibition the Saskatoon Phoenix tendered the following advice to the anti-temperance crowd:—"If the town goes dry, buy a gallon of your favorite brand and turn it over to your wife. Do all your drinking at home. Every time you take a drink pay your wife 15 cents. When the first gallon is gone your wife will have eight dollars to put in the bank and two dollars to buy a new supply, each gallon averaging sixty-nine drinks. In ten years at your present rate you will be dead, and your wife will have enough money to go out and marry a decent man."

Rod and Gun

The August issue of Rod and Gun in Canada published at Woodstock, Ont., by W. J. Taylor Limited, and now on the news stands, makes good reading for the sportsman. Its stories of hunting and fishing and "been there" descriptions of various outings in Canadian woods or on Canadian waters are in line with the vacation season, and the magazine is one well worth while tucking into the club or dunnage bag when setting out on the annual summer vacation.

A Catalogue For You

Our Catalogue is yours for the asking. If you are looking for the right road to a good paying position you should have a copy. It describes this road by explaining our definite money producing courses. Every minute you spend on one of our courses has a direct bearing on money getting within a short time. Perhaps that is one reason why our graduates say that the best year in their school life is that spent in one of Shaw's Business Schools in Toronto.
