## Made in Canada WALL PAPERS

HAVING SECURED THE AGENCY for the Celebrated Empire Wall Paper Company, Toronto, we are prepared to show samples of paper never seen before and for less money than can be purchased anywhere in Toronto. These are the patent, self-trimmed papers—no trimming to do which saves much time—and are edged to the 1000 part of an inch, which makes matching easy and will aid in people doing their own papering. See our samples, take the size of your room, and we will see you have no waste. Wall, ceiling and borders all to match. Ask to see our Sample Book, take it home and look them over, and all the family will be pleased to have said they helped to select this paper.

RICHMOND HILL, ONT., MARCH 1, 1917

The Conservative Government has been defeated in New Brunswick. Out of 48 seats the Liberals has carried 27, leaving the Government 21. At the last general election, in 1912, the Opposition won only two seats.

A discussion has been carried on recently in a city paper for the purpose of encouraging Sunday Gardening during war time. We believe the proposition is mischievous. The experiment would enter the thin end of the wedge for working on the Sabbath. Better keep Sunday as a day when men may rest from their labors. It would not be safe to say that the women who knit most socks for the soldiers are those who knit on Sundays.

The Ontario Government has decided to give votes to women, in political as well as in municipal elections. As the Liberal leaders have advocated such a measure for several years they will now give it their unanimous support. Premier Hearst has promised that the bill will be effective for the next general election. The discussion in the Legislature clearly showed that the members believed that those who assist in bearing the burdens should also share in the government of the country.

Fire meeting next Monday evening, March 5, at 8 o'clock. If you don't belong now, come and join.

## Is Your House Cold?

Or is it a Room That's Chilly?

A Perfection Smokeless Oil Heater will make the room warm and comfortable, and will prove to be a quick and reliable "Chill-Chaser." Can be carried from room to room as easily as a lamp.

And now when coal is so scarce, in fact can hardly be procured at all, one of these convenient air-warmers should prove a boon to the home, office or shop.

The Perfection Heater measures up to its name; the base rim, cone plate and top rim are heavily nickel plated, the upper and lower drums are of polished steel, the fount is of steel, and the top and side perforations allow the heat waves to circulate freely.

The Perfection burner mechanism is so arranged that the flame cannot be turned too high. These heaters may also be burned at night, for should the oil burn out, the flame retires with it.

They are very attractive and an ornament in the home. The prices too, are reasonable—from \$4 to \$5.

The other night one of our customers remarked, "I wouldn't be without my Perfection for twice the price of it." Call to-day and take one home; you'll soon feel the same way.
