The Ford is Economical

THE average man can easily afford a Ford car. It is the most inexpensive car to drive.

20 to 25 miles on a gallon of gasoline is an every-day occurrence. 33 miles is frequently reported by Ford owners. Yearly repair expenses of less than one dollar are not unusual. The car is light in weight, and tires give more mileage on a Ford than on any other car.

You can buy a Ford for yourself and one for your wife for the price

of one car at \$1000. You can run both Fords at about the same expense as for one larger, heavier car.

You can always sell a "used" Ford at a good price. You have to accept a big reduction for a "used" larger car.

Go and take a ride in the 1917 model. See how comfortable it is. And stylish too—stream line effect, tapered hood, crown fenders, beautiful finish. You need one for business. Your wife and children need one for pleasure and health.
