At the suggestion of the Sunday School Association the Churches of South York are taking a religious census of their district. In this work all the churches Anglican, Roman Catholic, Methodist, Presbyterian, Baptist are taking part. The Richmond Hill churches cover the village and the township from the townline on the north, west to the third, inclusive, east to the 2nd Markham, inclusive, and south to lot 18. The work is to start Tuesday, June 19th and it is hoped a sufficient number of workers will volunteer to finish the task in a couple of afternoons and evenings. Mr. Geo. Auction Services

Many farmers engage an auctioneer because he "knows the people." Other farmers, like big business concerns, engage the man because of his ability and record.

Certainly there are many good auctioneers, but, as in other lines, there is one who excels, one who has equipped himself by closer study, more general, extensive and special training—one who is a teacher, recognized as "an expert and an authority." That man is THE MAN who can get the BEST RESULTS. And in my record, covering many hundreds of sales, I have secured owners from 4 to 22 per cent MORE than they expected, and in my first sale in Guelph district this Spring at Thos. Arkell's, I secured 18 PER CENT MORE than Mr. Arkell expected. He was more than pleased, and his brother, Henry, known throughout the agricultural world as a breeder of pure-bred stock, wrote: "I was present at my brother's sale, and was very much pleased with the way you conducted it."

Gentlemen, let me get you BETTER PRICES, MORE MONEY for your stock at Auction. I CAN DO IT. Book me at the office of Dr. J. H. Sanderson. I specialize in Farm and Pedigreed Stock Sales.

A Warning

Parties are warned against throwing cans that had paint in them, on the south side of the dam at Boyle's pond. A few days ago Mr. Arthur Boyle had a valuable cow poisoned at that place where she was pasturing. When it was found that the cow was acting strangely Dr. Kelly V.S. was sent for, and he at once diagnosed the case as paint poisoning. The place was visited, and several paint cans were found. The cow died after suffering two or three days.

FRENCH DRY CLEANING

is, as the name implies, a method introduced by the French for cleaning of all garments or materials. It may be used without injury on the finest fabric as well as the heavier goods. Lace, silk, linen, cotton, waterproof and woollen proof, and woollen goods; also feathers, furs, straw and leather may all be cleaned without fear of shrinking or putting out of shape. It is called dry cleaning because water is not used in the process.
