FRENCH DRY CLEANING

is, as the name implies, a method introduced by the French for cleaning of all garments or materials. It may be used without injury on the finest fabric as well as the heavier goods. Lace, silk, linen, cotton, waterproof and woollen proof and woollen goods; also feathers, furs, straw and leather may all be cleaned without fear of shrinking or putting out of shape. It is called dry cleaning because water is not used in the process.

Auction Services

Many farmers engage an auctioneer because he "knows the people." Other farmers, like big business concerns, engage the man because of his ability and record.

Certainly there are many good auctioneers, but, as in other lines, there is one who excels, one who has equipped himself by closer study, more general, extensive and special training—one who is a teacher, recognized as "an expert and an authority." That man is THE MAN who can get the BEST RESULTS. And in my record, covering many hundreds of sales, I have secured owners from 4 to 22 per cent. MORE than they expected, and in my first sale in Guelph district this Spring at Thos. Arkell's, I secured 18 PER CENT MORE than Mr. Arkell expected. He was more than pleased, and his brother, Henry, known throughout the agricultural world as a breeder of pure-bred stock, wrote: "I was present at my brother's sale, and was very much pleased with the way you conducted it."

Gentlemen, let me get you BETTER PRICES, MORE MONEY for your stock at Auction. I CAN DO IT. Book me at the office of Dr. J. H. Sanderson, I specialize in Farm and Pedigreed Stock Sales.

Millinery at Half Price

We are looking forward to many days of Summer weather when Summer Millinery will be necessary. But preparation must be made for Autumn and Fall Displays. Hence we are offering the remainder of our stock at greatly reduced prices. Call and see us.

Store will be closed from July 16 to August 13, while arranging for Fall Styles and Stock.
