If the village grocers could draw up a set of rules that would suit the taste of each individual they would take a half holiday during the summer months. But there's the rub.

The surprise is, not that there are so many motor accidents, but that there are not more. Many drivers consider that the pleasure of motoring consists of making their cars go a little faster than the other fellow's, and it is this speed craze that causes the great majority of the accidents. There is too much reckless driving through this village.

Lecture on Gardening

A large audience was present in the Public School building Friday evening and heard with pleasure and profit Prof. H. A. McLennan's illustrated lecture, under the auspices of the Horticultural Society. Mr. McLennan gave his audience several useful formulas for the extermination of grubs, flies &c that infest cabbage, carrots and other plants. Another of the Professor's suggestions was the planting or re-planting of lettuce, radishes and other vegetables later in the season for fall and winter use—something that is often neglected.

Card of Thanks.

Mrs. F. J. Lynett and son desire through The Liberal to express to their dear friends and neighbors their heartfelt gratitude for sympathy and practical help in the hour of their recent sorrow. They mourn the loss of a kind husband and father, but are comforted by the kindness and sympathy of relatives and friends.
