

WITH THE FINGERS!
SAYS CORNS LIFT OUT
WITHOUT ANY PAIN

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply on the corn a few drops of freezone, says a Cincinnati authority. At little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain or soreness or the danger of infection. This new drug is an ether compound, and dries the moment it is applied and does not inflame or even irritate the surrounding tissue. Just think! You can lift off your corns and calluses now without a bit of pain or soreness. If your druggist hasn't freezone he can easily get a small bottle for you from his wholesale drug house.

"AT RAILHEAD" IN WAR ZONE.

Where Supplies Are Distributed to the Firing Line.

The S.S.O.'s car turns into the in-way road leading to railhead, and is promptly halted by a vigilant Traffic Control. A long column of A.S.C. wagons fills the road.

They are supply wagons of a divisional train, waiting its turn to draw supplies from the pack-trains which arrive daily from the base, bringing rations for man and beast.

The senior supply officer makes a short cut across to the wilderness of sidings, tracks, stacks of stores; forage, fuel, and salvage comprising an "advanced railhead."

The S.S.O. picks his way amid gangs of jabbering Chinamen. His objective is a sandbagged hut bearing the sign "R.S.O." Beside it is another, labelled "R.T.O."

The railway transport officer sees to the traffic arrangements. The railhead supply officer takes over the supply trains as they arrive, checking the contents and issuing them to the various divisions and units "feeding" off his railhead.

Each division has its senior officer, whose job it is to see that it receives all, if not more, than its lawful requirements, to the last pint and pound. If any item of food or forage is deficient, it must be procured promptly elsewhere, from some reserve.

A word to the supply column supply officer is all now that is necessary. Spare lorries are standing by for such emergencies.

The S.S.O. returns to his wagons, now drawing up beside the pack-train.

Each truck bears the identification number of the division to which it is assigned. One truck or more is packed tight with bread—eighty loaves to a sack. Others are loaded with frozen beef or mutton. There are trucks of groceries, hay, oats, and any amount of sundries, down to fly-papers, wood-preservation oil, and cigarettes.

In theory, lorries only should be loading this bulk of stuff at railhead, conveying it forward to "refilling point," for shipment there into A.S.C. horse wagons.

But then in theory railhead should always be some ten or fifteen miles behind the firing-line, whereas this one is scarcely five. Next week, what is more it is to be pushed up closer still. And then look out for shells!

Two Popular Designs

The well-cut separate waist and skirt are always appreciated by the woman of good taste. McCall Pattern No. 8401, Ladies' Blouse. In 7 sizes, 34 to 46 bust, No. 8433, Ladies' Two or Three-Piece Skirt. In 7 sizes, 22 to 34 waist. Price, 20 cents each.

Here is an especially attractive design for the popular pajamas. McCall Pattern No. 8411, Ladies' and Misses' Pajamas. In 3 sizes, small, 32, 34; medium, 36, 38; and large, 40, 42 bust. Price, 20 cents. These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Dept. W.

FLIES ARE BABY'S FOES.

Direct Cause of Death of Thousands of Little Ones.

The fly is a relentless foe of the baby.

On the hairy legs and sticky mouth parts these pests carry disease germs. If they get into baby's milk, or light on the clean bottles or nipples or crawl over the child's hands or face they leave behind a trail of these infectious germs. Germs transmitted in this manner are one of the important causes of "summer complaint" and the resultant deaths of thousands of babes every summer.

A running of the bowels, particularly when accompanied by vomiting, should cause anxiety on the part of the parent. It is a particularly bad sign in hot weather. If, at any time, more especially during the summer, a green watery stool appears, or as many as three watery movements occur during a day, call in your family physician at once. He is better able to do something for the baby if called in early than if called in late. While waiting for him to come, give nothing but boiled water, properly cooled.

Keep the baby comfortable. Do not turn it into a fireless cooker with clothing that does not permit the body heat to escape.

Colored Scavengers.

Paris streets have recently gained in picturesqueness by the employment of colored scavengers. Ebony-hued Senegalese and copper-colored Arabs from Algiers and Morocco, whose terra cotta tezes contrast so deliciously with the pale blue soldiers' uniform, clean, or affect to clean, metropolitan thoroughfares. In the boulevard there is a giant negro, with the lordly gait of an African prince, who trails his besom behind him as majestically as if it were a peacock's feather fan.

AutoStrop SAFETY RAZOR

Mechanical Perfection

There are many reasons why the AutoStrop is the ideal aviator's razor, but one stands out more prominently than the others and will instantly appeal to every "Knight of the Air", that is, its mechanical perfection.

Every aviator knows and appreciates what mechanical perfection means—his plane must be perfect in every detail to avoid accidents.

His razor must be perfection itself to give complete satisfaction. The AutoStrop is the one razor that will give continuous service without the annoyance of buying new blades, because it is the only razor that sharpens its own blades automatically—the 12 blades you receive with the AutoStrop will give you at least 500 clean, comfortable shaves.

Special Military Outfit Price, \$5.00 At Leading Stores Everywhere

AutoStrop Safety Razor Co. Limited 53-57 Duke St., Toronto, Ont.

Brothers in Arms.

Upon these fields of Flanders and those plains of Italy,

Brothers! At this dire moment, there is waged titanic strife;

Nearly every stream in Europe now runs red unto the sea.

From hills, war-tramped, where freedom is sore struggling for her life.

And we were happy, happy lads at home but yesterday,

With bat and ball, with oar and rod, with song and feast and mirth;

War's challenge made us men at once, and broke the charm of play,

And here we'll die ere freedom shall be driven from the earth.

Think! Some will see the fourth Yuletide dawn to the roar of guns;

For all who lie neath folded hills we cannot stop to weep.

And we—Freedom's last citadel—must face the furious Huns;

And on the frontiers of the world appointed vigils keep.

Then, brothers, can you wonder that, in mud and rain we ask

When, in the lull of firing, we wipe our smoky brow:

"O, where in all the future will you find a grander task,

Where will a year of man's short life count more than here and now?"

—Alexander Louis Fraser.

The Friendless Soldier.

While mothers smile, who fain would wildly weep,

And sweethearts kiss, in token troth to keep,

He leans against the stolid station wall

Without, it seems, a single soul at all

To hold his hand; to sorrow if he die!

Dost mark his face? Then say to him good-bye!

Minard's Liniment Cures Colds, Etc.

When the curds of cottage cheese refuse to be anything but tough and lumpy, after they have been drained through a cheesecloth bag, try running them through the food chopper and see how light and delicate they become.

WORLD'S LARGEST DISHES.

Belonged to the Indians of Vancouver Island.

The largest food dishes in the world were recently bought off the Indians of Vancouver Island, British Columbia, for the Museum of the American Indian, New York City.

These dishes were purchased from a tribe named Kwakiutls, which in English means "Smoke of the World." They are used for special festivals when great numbers of Indians gather to celebrate some religious or ritual festival. The dishes are carved out of wood and stews and soups are brought to boiling point by dropping hot stones into the food. Carvings at the ends represent the clan to which the dish belongs.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvellous to smoothen rough, red hands.

South American Visitors.

With a view to a greater interchange of commerce between South America and Canada, Mr. E. W. Lloyd, New York/export manager of the British firm of Frederick Huth and Company, and Mr. Miguel A. Volcan, of Caracas, Venezuela, have been visiting the Canada Food Board. They have quantities of hides, tobacco, coffee and cocoa for which they want a Canadian market, while in return they need such commodities as, canned goods, malt, etc.

Montreal, May 29th, '09.

Minard's Liniment Co., Limited, Yarmouth, N.S.

Gentlemen,—I beg to let you know that I have used MINARD'S LINIMENT for some time, and I find it the best I have ever used for the joints and muscles.

Yours very truly,

THOMAS J. HOGAN,

The Champion Clog and Pedestal Dancer of Canada.

Music in the Schools.

The springing up of the community chorus here and there indicates clearly that music has passed the dilettante stage, and it is a healthy sign. The desire for expression must not be stifled, whatever its channel, and when that channel happens to be of a musical nature, the need for facilities for further development and expansion becomes a question of individual attention no longer, but a national issue. Particularly pressing is the want of music in the schools; and it is in this department that most harm may be wrought by inefficient methods, careless tuition or mistaken ideals. With the developing of a scientific system of propaganda, much musical waste will be eliminated, many archaic rules discarded, and a promising course of countryside musical education pushed to a vigorous conclusion.

Minard's Liniment Cures Garget in Cows

Paris To Eat Chestnut Loaf.

Dr. Labesse, professor in the medical school at Angers, urges the use of chestnuts in bread, says a Paris despatch.

Chestnuts, which used to be sold in profusion in the streets of Paris, have disappeared from the market, he points out, and says a considerable saving in potatoes and wheat could be effected by using them in bread, according to a recipe which was demonstrated before the Academy of Sciences as long ago as 1861.

Minard's Liniment Cures Distemper.

Retired Farmers' Opportunity

Many men living in town to-day have spent most of busy lives on the farms. They have earned their retirement. But the need for saving the 1918 harvest is very great. Retired farmers have a splendid opportunity to help out in the present crisis and many have volunteered to work on neighboring farms for the rush period. Every one that can do so is needed, for experienced men are at a premium. Their knowledge of how to do things would help to make inexperienced men and boys efficient.

MONEY ORDERS.

Send a Dominion Express Money Order. Five Dollars costs three cents.

If you want to add piquancy to cottage cheese, either purchased at the store or made at home, add a few chopped-up cherries. Another way of varying the flavor is to mix in tiny chopped onions.

Minard's Liniment Cures Diphtheria.

An elevator for the Alberta Pacific Grain Company is being erected at Claresholm.
