AN EXPENSE?

SOME men are deterred from taking out a life insurance policy because they say they "cannot afford the expense."

Why should a man look upon a life insurance premium as an expense?

He would not think of referring to the money he might deposit in a savings bank as an expense.

He would not call money invested in the purchase of real estate or high-class securities an expense.

As a matter of fact, the money invested in a life insurance policy in the Confederation Life Association, is money saved—merely put by in an absolutely safe investment, and is bound to come back some day to a man's family or to himself. Therefore it should not be looked upon as an expense, but as a wise and judicious investment.

A policy in the Confederation Life Association, besides being a good investment, furnishes immediate and certain insurance protection for a wife and family.

Philosophy of Having a Good Time.

Take the "T" out of toil and you have oil. You can't take the hard work out of farming as easily as that, but a little run robs it of much of its drudgery. Good times are the oil in the toil of agriculture. That is what a great many sincere persons overlook who study economics more than human nature.

When we attempt to organize a farmers' association, what is done? Why right away a vast amount of talking is committed anent education and improvement. Both are good, of course, and the farmer, in common with all humanity, wants to improve—but there's a difference between improving and being improved—but he's not always too sure that the association will effect the improvement.

To begin with, he is often not too well acquainted with his real neighbors—the men in the inside of the men he knows now show themselves only to kindred spirits. Then after a hard day's work he is prone to stay quietly at home in preference to driving several miles to discuss, under a smoky lamp, the old problems in much the same old way.

But there's one thing everyone wants—a good time. Everyone takes his recreation in some form—only there's nothing collective about it; each goes his own way at his own time. Really persuade the neighbors once that they can have a better time at the club meeting than they can at home, and they'll go without coaxing.

So that seems the logical starting point. A leader never finds it hard to get people to organize for pleasure—to have a good time.

And it leads to great things, too. As people become better acquainted mutual respect and confidence develop. That is the fundamental and first step to business co-operation.—Ontario Department of Agriculture.

A Burning Question

After the fire the question is not "Was it insured?" The question is "What is your loss?" Insurance is a fine thing but a home that doesn't burn is far better.

Our connection with the Hartford Fire Insurance Company enables us to offer you a fire prevention service which will surround your home and your family with every precaution that it is humanly possible to take. It's worth knowing about.

F. R. OLIVER, Agt., Phone 11, Richmond Hill

Our reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

WITH a single tool—the combination wrench and screw driver shown below, which is included with every De Laval—you can take it apart and set it up again in a few minutes.

Could anything be easier or simpler?

There are no complicated parts—no chain drives, no cog wheel puzzles, no ball bearings to get flattened or broken. Every adjustment can be made quickly by the man on the farm without special tools of any kind.

Such simple construction makes the De Laval not only the longest lasting but also the easiest separator to clean and care for.

THE ONLY TOOL REQUIRED WITH A NEW DE LAVAL

We will sell you a De Laval on terms that can't help suiting you. Come in and examine the machine; let us show you what it will do.
