**"Rejoice, and Again I Say, Rejoice."**

My song shall be of birds and flowers  
And all the lovely things of earth;  
The little leaves that clap their hands,  
The health and wholesomeness of mirth;

The wonder in a baby's eyes,  
The clinging clasp of loving hands;  
The glee of frolic waves, that chase  
Each other up the golden sands.

The morning stars together sang  
When this old earth of ours was young;  
'Tis we have lost the 'hearing ear,'  
Not they who leave their songs un-sung.

Some poets dip their pens in tears,  
And some in wormwood and in gall;  
With ev'ry 'bush afire with God,'  
And love the banner over all!

Oh, were my quill a feather dropp'd  
From some bright angel in his flight,  
My muse might soar on higher wing  
To spread the gospel of delight!

**Smallest British Airplane Weighs 220 Pounds.**

Clearly inspired by Santos-Dumont's "Demoiselle" of 1907, is the "Crow," smallest airplane on the English market. In both monoplanes, the twin-cylinder engine is set on the leading edge of the single plane, only a few feet above the head of the pilot, who sits with his feet between the landing wheels. This new machine shows the modern tendency, however, in the elimination of every possible stay and wire. The entire lifting service may, in fact, be removed after unscrewing a few nuts. The propeller, engine, and gasoline tank form a complete unit, which is detached with similar ease. The wing span is 15 ft., and the over-all length 14 ft. The speed is 65 miles an hour, which can be reduced to less than 30 for landing. The total weight is but 220 lbs.; the price is expected to be \$2,000 or less.

**An Explanation.**  
Exasperated Passenger (after long delay at wayside station): "Why don't you keep better time on this wretched line?"  
Irish Guard (confidentially!): "Well now, then, ma'am, I'll explain it all to ye. The train before is behind, and this train was behind before besides."

**New Food Container for the Trenches.**

During the late war one of the commonest difficulties with which the soldier in the trenches had to contend was that of preserving his food from the depredations of rats and the contaminating attentions of flies. To overcome this difficulty, Mr. E. A. Dennis, who spent four and a quarter years with the N.Z.E.F., has invented a tin receptacle for food which exactly fits into an ordinary mess-tin. The ends of this food-container are provided with four lever-topped vessels, for butter, milk, jam, and condiments respectively, while the middle portion is available for other foods. At the end of a march the new food-receptacle, which is called the "Campaigner," could be taken out of the mess-tin, leaving the latter clear for the protection of the iron rations from rats. The system would also allow of jam, margarine, and milk being issued in lever-topped vessels which would fit the "Campaigner," thus appreciably simplifying having to serve out rations from bulk, he would simply issue the necessary vessels to each man every one, two, or three days.

**Canadian N. W. M. P. Renamed.**

Canada's famous law-enforcing organization, known since 1873, the year of its establishment, as the Canadian North West Mounted Police, has been renamed, and is about to undergo other important changes. The new appellation is the Royal Canadian Mounted Police. Plans are being made to move the headquarters of the force from Regina, Sask., where they have been located for 37 years, to Ottawa, and to increase the size of the territory to be patrolled by the scarlet-clad officers.

**Gentle Persuasion.**  
"Did I understand you to say that this lad voluntarily confessed to playing truant?" asked a school attendance officer, addressing the mother of a small and dirty boy.

"Yes, sir, he did," the woman responded. "I just had to persuade him a little, and then he told me the whole thing voluntarily."  
"How did you persuade him?" inquired the officer.

"Well, first I gave him a good hiding," said the parent, "and then I put him to bed without supper, and I took his clothes away and told him he'd stay in bed till he confessed what he'd done, if 'twas the rest of his days, and that I should punish him again in the morning. And in less than half an hour he told me the whole story of his own accord."

**A Cocksure Physician.**  
"Are you sure," an anxious patient once asked, "are you sure that I shall recover? I have heard that doctors have sometimes given wrong diagnosis and treated a patient for pneumonia who afterwards died of typhoid fever."  
"You have been woefully misinformed," replied the physician, indignantly. "If I treat a man for pneumonia he dies of pneumonia."

**BITS OF HUMOR FROM HERE & THERE**

Everybody Stumped.  
Parson (at christening): "What name?"  
Mother: "Meliaranne, sir."  
Parson: "H'm! How do you spell it?"  
Mother: "Well, there, sir—I'm like yourself. I can't spell it, neither."

**Need a Guide.**  
"Um—yes! Ah! Um!" remarked the doctor in his best bedside manner to his patient as they stood in the consulting room. "I'll give you the following prescriptions."

And he handed him three small packages.  
"A powder for my headache," he said aloud, "a pellet for my liver," he continued, "and a capsule for my gouty foot."  
Then he stopped, and pondered deeply for a moment.  
"I say, doctor," he queried, "how'll the little beggars know the right place to go when they get inside?"

**LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW**

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.  
You are further warned that cutting at a corn is a suicidal habit.

**ECZEMA IN RASH CUTICURA HEALS**

On Face and Head. Itched and Burned. Disfigured.

"Last year I became affected with eczema. It started on the cheeks in a rash, and the water spread and made my face sore all around the ear and partly on my head. The skin was very sore and red, and the breaking out itched and burned so that I could hardly help scratching. My face was very disfigured."  
"Then I used a free sample of Cuticura. It helped so I bought three cakes of Soap and one box of Ointment, and my face was healed."
