

## A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter: wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

## As Friend to Friend.

By cheering speech,  
By loving deed,  
By friendly smile  
Give joy awhile;  
To those in need  
True courage teach;  
Let love beguile  
And kindly lead  
From selfish greed  
And passions vile  
To the up-reach  
Whence God would lead,  
Where all are freed,  
Nor sins defile,  
As each to each  
Gives loving heed.

## CHILDHOOD CONSTIPATION

Constipation—that disordered state of the digestive tract which is nearly always caused by improper feeding—can be readily regulated by the use of Baby's Own Tablets. These Tablets are a mild but thorough laxative. They are easy to take and are absolutely free from injurious drugs. Concerning them Mrs. Joseph Dion, Ste. Perpetue, Que., writes:—"I have nothing but praise for Baby's Own Tablets. When my baby was three months old he was terribly constipated but the Tablets soon set him right and now at the age of fifteen months he is a big healthy boy and this good health I attribute entirely to the use of the Tablets." They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Signals From Another Planet?

Interruptions of the Marconi wireless instruments by mysterious undecipherable signals, which were noted before the war, and have been publicly referred to since, are specially featured in the Daily Mail, London, and discussed by Marconi in an interview published by the paper.

"We occasionally get very queer sounds and indications, which might come from somewhere outside the earth," said Signor Marconi. "We have had them both in England and America. The Morse signal letters occur with much greater frequency than others, but we have never yet picked up anything that could be translated into a definite message."

"The fact that the signals have occurred simultaneously at New York and London with identical intensity seems to indicate that they must have originated at a very great distance. We have not yet the slightest proof of their origin. They might conceivably be due to some natural disturbance at a great distance, for instance, an eruption of the sun causing electrical disturbances."

Asked whether possibly attempts were being made by another planet to communicate, Signor Marconi said: "I would not rule out the possibility of this, but there is no proof. We must investigate the matter much more thoroughly before we venture upon a definite explanation."

He added that the mysterious sounds are not confined to any particular diurnal period; they are equally frequent by day and night.

## What All Prospective Bridegrooms Know.

That he won't be able to find the wedding ring at the fatal moment.

That his hands will look as big as the broadsides of a barn during the ceremony and that it is a confounded shame that it isn't permissible to hide them in his trousers' pocket.

That it would be an immense relief to elope instead of going through the fuss and flurry of the church wedding.

That his pal has too much of a smile on his face and is sure to play some sort of a trick before the ceremony is over with.

That all the women in the congregation will wonder what on earth it is that the bride sees in him.

That all his bachelor friends are sadly shaking their heads and saying, "Another good man gone."

That though the bride's father has protested vehemently that he doesn't want to give up his little girl, he still seems remarkably happy over the fact that she is getting married.

That while the fact remains that he isn't marrying the whole family the whole bunch has laid out a schedule of visits they are going to pay him during the next few months.

That if the bride's mischievous little brother pulls off any of his so-called "cute little tricks" during the ceremony it will be with extreme difficulty that he will restrain himself from up-ending little brother and giving him a splendid little paddling.

## Bubble in a Sapphire.

There is exhibited in the British Museum a sapphire weighing nine carats which contains a bubble that appears and disappears with changes of temperature.

It is believed that a cavity in the gem enclosed a quantity of carbonic acid gas under great pressure. When the temperature is such as to correspond with the 'critical point' for that gas under the particular pressure to which it is subjected in its brilliant prison house it liquefies and becomes visible as a bubble.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states: "I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

## Swiftness of Revenge.

Timothy Brown was a commercial traveller and a valuable asset to his employers.

On one of his periodical rounds he included in his list of calls a certain yarn merchant, Jones Perkins by name—a crotchety, ill-natured individual—who invariably treated him with the greatest discourtesy, and who on more than one occasion had torn his card up in his presence and thrown it on the floor. As becomes a good commercial, however, Timothy was undaunted, and vowed to be revenged.

In due course he called on his friend again and presented his card.

"Halloa!" shouted old Perkins, giving the card the usual wrench. "What the—" But here he interrupted himself with a yell of pain, accompanied by a miniature war dance.

Timothy's card was made of enamelled tin!

Regardless of our own necessity, we should work because of the need of the world.

## Spiders' Threads For Telescopes.

The threads of the garden spider are fixed by astronomers in their telescopes for the purpose of giving fine lines to the field of view, by which the relative positions of stars may be accurately measured.

For a century astronomers desired to make use of such lines of the greatest possible fineness, and procured at first silver wire drawn out to the extreme limit of tenuity attainable with that metal. They also tried hairs (1-500th of an inch thick), and threads of the silkworm's cocoon, which are split into two component threads, each only 1-200th of an inch thick. But in 1820 an English instrument maker named Troughton introduced the spider's line. This can be readily obtained three or four times smaller than the silkworm's thread, and has also advantages in its strength and freedom from twist.

In order to obtain the thread the spider is carefully fixed on a miniature "rack," and the thread, which at the moment of issue from the body is a viscid liquid, is made to adhere to a winder, by turning which the desired length of firm but elastic thread can be procured.
