You're sluggish—slow as molasses! You are bilious, constipated! You feel headachy, full of cold, dizzy, unstrung. Your meals don't fit—breath is bad, skin sallow. Take Cascarets to-night for your liver and bowels and wake up clear, energetic and cheerful. No griping—no inconvenience. Children love Cascarets too. 10, 25, 50 cents.

This is a delicate way of putting it, isn't it? "My dear," he said to his wife at table, "I begin to think there are a few misprints in your cookery book."

## Surnames and Their Origin

**MacWILLIAMS**  
SIMILAR DERIVATIONS—MacDavid, MacAndrews, MacHenry.

**RACIAL ORIGIN**—Irish plus Norman-French.

**SOURCE**—A given name.  
There is probably more romance and tragedy, and certainly more history, bound up in the surnames of Irish origin than in those which developed in any other country, with the possible exception of Scotland.

Ireland to-day is full of Anglo-Saxon and Norman-French names which families of pure Irish blood were forced by law to assume. Sometimes they simply translated their names into English. At others they adopted those English names which were nearest in sound to their own.

But the shifting nomenclature of Ireland was not a one-sided affair by any means. And of this fact such names as MacWilliams stand witness to-day.

Prior to the death of William de Burgo, third earl of Ulster, at the hands of the natives in the year 1333, many Norman-French families had become thoroughly settled, and the English influence predominated in the north of Ireland. But upon De Burgo's death this influence waned so rapidly that these families had no choice but to cast their lot with the Irish, and the family of De Burgo, with many others, abandoned their Norman family names and constructed new ones for themselves after the Irish fashion of using the first name of a revered ancestor with the prefix Hui (O' in modern spelling), or Mac, to denote descent. Thus the Burgos became "Sons of William" or MacWilliams, and such names as MacDavid, MacAndrews and MacHenry came into being among families which in the course of time have, as the tra-

**Only Just.**  
A Scotchman on his first visit to London, had been warned by his friends to be careful when buying anything, and always to count his change. After making his first purchase he stood counting his change so many times that the shopkeeper, thinking he might have made a mistake, said to him:  
"Well, Jock, and is your change all right?"  
"Aye," replied Jock, slowly, once again counting it, "but only just."

**Too Much for Him.**  
"I attended a case tried in a western city," says a member of the bar, "where the defendant was charged with burglary. While the judge was delivering his charge to the jury one of the jurymen fainting, just as the judge had impressively said:  
"Gentlemen of the jury. In arriving at a decision you must take into consideration the testimony of the witness for the defense and give it full weight."  
"At the words 'full weight' the jurymen swooned away. He was a coal merchant!"

**ALARMING.**  
An Irish soldier coming out of ether in the hospital ward after an operation, exclaimed audibly:  
"Thank God! That is over!"  
"Don't be so sure," said the man in the next cot, "they left a sponge in me and had to cut me open again." And the patient on the other side said:  
"Why, they had to open me, too, to find one of their instruments."  
Just then the surgeon who had operated on the Irishman stuck his head in the door and yelled: "Has anybody seen my hat?"

## Sloan's Liniment

(Pain's enemy)

Full Up.

The village Sunday-school treat was in full swing, and after the games the youngsters all sat down to a rattling good feed.

Little Johnnie, although unaccustomed to such rich fare, had eaten unsparingly as far as both himself and the food were concerned. To be more explicit, he had eaten until he could eat no more.

And now, at the end, he was feeling rather uncomfortable.

"Can I lift you down?" asked a kind old lady.

"Yes, ma'am, you can lift O' down," replied Johnnie; "but"—and he looked pleadingly up into her eyes—"please don't bend O'."

## Perpetual Youth.

Wonderful Sarah Bernhardt! Will she ever grow old? At the age of seventy-five she has written her first novel—not a short one, but a hundred thousand words. Thus she leaves in the shade Sir Walter Scott, who wrote "Waverley" when he was forty-three, and William de Morgan, who scored his success with "Joseph Vance," at the age of sixty-five. Advancing years obviously do not always dim the intellect.

The "Divine Sarah" is perhaps distantly related to that family of veterans who once filled a visitor with amazement. Four stalwart "boys" of about one hundred years each, sat down with him to a robust meal, shaming the guest with their vitality. He noticed one empty chair, and asked humorously whether it were their father's.

"No, feyther's havin' his violin lesson," he was told, "but gran'fer'll be down as soon as he finishes his work."

Shells in 16th Century.

Explosive shells, of crude construction, were first used in warfare during the middle of the sixteenth century. Hollow balls of stone or cast iron filled with gunpowder were employed.

**No Disobedience At All.**  
"Willie why were you disobedient to your Aunt Jane?"  
"I wasn't disobedient, mother."  
"Yes, you were. Haven't you been swimming this afternoon?"  
"Yes."  
"Didn't I hear your Aunt Jane tell you not to go swimming?"  
"No; she didn't say that at all. She only came to the door and shouted, 'Willie, I wouldn't go swimming.' And I shouldn't think she would. What would folks think if they saw a woman like Aunt Jane swimming in the creek?"

**Poor Turkish Girl.**

From the age of thirteen, when she takes the tcharchaf, the Turkish girl is forbidden all places of amusement or of public resort; must be indoors by sundown; can only converse with three men, her husband, father and brother, and spend most of her time in gossip with others of her sex or in intensive secluded beautification, later in household duties and in the care of the children.
