### Unused Tools.

"It doesn't look much like the old home as I remember it," an elderly business man who had been visiting the haunts of his boyhood said to a friend. "The lawn isn't cared for, most of the trees and shrubs are dead, and the garden that father took so much pride in is overgrown with burdocks and brambles. The orchard is growing old like the rest of us, but there's fine fruit there still, though the trees need pruning. But the saddest thing I saw was the old tool house. It's falling to pieces, and the rusty tools hang there—unused. Sam has had all the equipment father ever had to make the place attractive, but he hasn't used it."

Garden tools are not the only ones we can neglect. Not long ago a city banker stopped his car at a farmhouse to ask his way. In the woman who came to the door he recognized Amelia Webster, an old schoolmate whom he remembered as having been the prettiest and brightest girl in the academy they had both attended. She was a faded, slatternly woman, and her house was ill-kept and unattractive. Her visitor reminded her that she had led her classes in history and literature and had even written creditable poetry.

"I never read anything now except the newspaper and not much of that," she said dully. "Sometimes the girls come to me with their sums and their hard questions, but I'm too rusty to help them much. The work round the house is more than I can tend to."

Amelia's prettiness of face and sprightliness of manner had disappeared—killed by sluggish indifference. The knowledge and cultivation that her school course had given her might have been invaluable to her as a mother, but she had never used them. Killed, too, was the imagination that had once made her little poems welcome at the office of the village parson, and that might have been a priceless resource in her maturer years. She was less attractive, less happy, less useful, than God had intended she should be. The tumble-down tool house with its array of unused, rusty tools—what is it but a symbol of unused faculties, of a shrunken and withered soul?

## KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippé. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

## "DANDERINE"

Girls! Save Your Hair!  
Make It Abundant!

Immediately after a "Danderine" massage, your hair takes on new life, lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay lifeless, colorless, plain or scraggly. You, too, want lots of long, strong, beautiful hair.

A 35-cent bottle of delightful "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating "beauty- tonic" gives to thin, dull, fading hair that youthful brightness and abundant thickness.—All druggists!

### Finland is Prosperous.

There is no unemployment in Finland, says M. Villjanen, chief of the Trade and Industry Department of the Finnish government, who is visiting in England. He attributed Finland's good fortune in this respect, as compared to most other countries, to the prohibition of imports. This had the effect of making the country's industrial production greater than at the beginning of the war.

Finland is now considering the advisability of gradually discontinuing the embargo on imports, he said. This country has begun to transship goods for Russia and has established a free port at Hangö.

### "Cascarets" If Sick, Bilious, Headachy

To-night sure! Let a pleasant, harmless Cascaret work while you sleep and have your liver active, head clear, stomach sweet and bowels moving regular by morning. No griping or inconvenience. 10, 25 and 50 cent boxes. Children love this candy cathartic too.

### Job for Grandpa.

Little Phyllis Paymore heard the remark that her grandfather was a tailor.

"Are you a tailor, granddad?" she asked.

"Yes, my dear," admitted the old man.

"Then will you put a tail on my rocking horse?"

She led the way to the attic, where mice had robbed the steed of its rear appendage.

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

### "Try It Again!"

Here's to the chap,  
With the smile on his map,  
Though Fortune has dealt him a thunderous rap  
And knocked him clean down on the rear of his lap,  
Whose only remark is, "Gee whiz, what a slap!  
I'll try it agin!"

I'm there with the guy  
With the gleam in his eye,  
Though Fate has let loose a stiff punch in the eye,  
And has scattered his pride all over the sky,  
Whose only retort is, "Doggonit if I Don't go ye' agin!"

I'm strong for the brick  
With the courage to stick,  
Though Fortune has hounded him like the Old Nick  
Who cries at last, "Now I'm on to the trick,  
Let's try 'er agin!"

## BITS OF HUMOR FROM HERE & THERE

### The High Cost of Advancing Prices.

"I see that you've marked gasoline up another cent," said the motorist.

"That isn't exactly for gasoline," replied the keeper of the station. "That is simply to pay for the enormous amount of chalk we've had to use in marking up the price heretofore."

### Baffling.

Dr. White—"I'm up against it. I've a patient suffering from aches and pains, and I don't know what is causing the trouble."

Dr. Black—"Had his teeth examined?"

Dr. White—"That's the point. I had all his teeth taken out two years ago, but what are you to do when a man has quite run out of teeth?"

## Surnames and Their Origin

### HILL

Variations—Hull, Helliier, Hilyer, Helier, Hillman, Helman, Hellman.

Racial Origin—English.

Source—Locality also occupation.

This is a most widespread group of family names, the one most frequently met with being Hill, with probably Hillman, Hull and Hilyer next in order. They are all of them English names, and all trace back to an old Anglo-Saxon word which has come down to us almost unchanged, and is in as common use to-day as it was in the reign of Alfred the Great. The word is (just what you think it is) "hill."

But all of the family names in this group have not developed from this word in the same manner.

The name of Hill, as well as Hull, is in the vast majority of cases a mere contraction of the old description phrase "at the hill" or "of the hill," used to designate persons who happened to dwell on or near such eminences. In the varied spellings of the late Norman days, the surname occurs as "de la Hill," "de la Hulle," "de la Helle" and "atte" (at the Helle).

With the other variations another method of development is responsible for the modern names. This word "hill," or "hull" was also used figuratively to denote a roof, and also for the verb "to roof." An abstract from an ancient document reads: "Whyt cley and red for to make crokkes (crops) and other vessels and barned (burnt) tyll (tile) to hele houses and churches." Again, Wiclyffe, in the translation of one Bible passage, says: "The schip (ship) was hilled (hiller or covered) with wavis."

The words "hilyer" and "hillman," therefore, were descriptive of occupations, which explains why these family names in their varied spellings are not within the old records in such forms as "Roger de Hillyer," "Ivo le Helier" and "John le Hillman."

### SCOTT

Variations—Scotti, Schott. Racial Origin—Doubtful.

Source—Also doubtful.

Here is a family name that is a good bit of a puzzle, both as to racial origin and source.

The obvious explanation, but one which is not entirely satisfactory, is that it was originally a name added to the given name in order to describe nationality. Undoubtedly this actually is the true origin of the name in a great many cases, for in the old English records there are instances of such names as "Malcolm le Scot," which, of course, could have no other meaning.

But this does not explain everything. There are more ancient records in Italy, in France and in Germany, as well as Anglo-Saxon England, which prove that "Scot," in one form or another, was rather widespread as a given name, and not as a descriptive name. Latin inscriptions give us the form "Scotnus" and "Scoto," the latter apparently being a common name among the Teutonic Franks who lived in the northern part of France. The name was also common among the subjects of the Emperor Charlemagne and among other Teutonic races as "Scotardus," with syllable, it is to be noted, similar to Richard, Reynard, Leonard, etc., a distinctly Teutonic compound. It was also an Anglo-Saxon given name, as "Scota," and the place-name Scottowe is simply a development of the Anglo-Saxon "Scotcho" or "grave of Scota."

In those days there was no such name as Scotland, though in the Celtic tongue Ireland was known as "Scota." It was not until the Middle Ages that, as the name of a country, it was transferred to Scotland in common usage.

The existence of the family name in so many countries indicates it often developed from the given name, but where the given name first appeared is still a mystery.
