Fatal Accident

The tragic death of Miss Emily Boyle accountant in the Standard Bank here, cast a cloud of gloom over the whole community. While working with gasoline on Tuesday evening, it suddenly caught fire and set her clothing in flames. Neighbors rushed to her assistance, but before the blaze was extinguished Miss Boyle was badly burned about the head, hands and feet.

She was working on the verandah cleaning some clothes with gasoline. A lantern hanging close by set the gasoline on fire. A sheet of flame shot up that was seen all over the village, and in a moment Miss Boyle's clothes and the pillars of the porch were ablaze.

To the bereaved family the sympathy of the whole community is extended. Bereft of a most devoted daughter and sister, there is now in the hour of mourning enshrouding them, tender consolation, in that the life of the deceased was one of devoted service and whose memory is ever fragrant to recall.

THORNHILL

Mrs. Jessie Pickering who has been a resident on John St. for the past 7 years is leaving the village. Just at present we cannot say where she may locate. Mrs. Pickering by her kind manner won many friends here and will be greatly missed. We hope to see her as a visitor among us again.

The fourth drowning accident has been recorded this year at Willcox Lake. Is it not high time the Whitchurch Council were bestirring themselves and defining in some way the danger zone. Otherwise they should be held responsible for neglect.

Quality Service Satisfaction

"Oh my this heat is awful," said Mrs. Brown as she leaned over the wash board, rubbing and scrubbing at the clothes on wash day. Her boiler was boiling away on top of a wood fire in the range. Now if Mrs. Brown or any other woman only had a Comet Washing Machine to do her rubbing for her, think of the hard, hot, backbreaking work she could do away with. The Comet Machines—Hand, Electric and Gasoline Power are easy to operate, smooth running and will last a lifetime. Try one and see for yourself if it won't do all we say and more.

Instead of a hot blazing wood or coal fire in the range how much cooler it would have been had she but had a New Perfection three or four burner oil stove to boil her clothes and cook dinner on. Does the work better, quicker and is by far cooler and easier to operate.

Tariff and Non Tariff Ratings and all Policies give the protection they are intended for and at the minimum rates. Get our rates before locking elsewhere. The Confederation Life Assn. issues a new policy without medical examination for \$1000, also a policy called the Family Policy, which is striking for its protection on man and his wife and many good features. Ask for the pamphlet, which explains all. This should appeal to all married men and women, because the company carries a small risk on the wife also, and costs nothing. No medical examination for the wife is required.
