The Evening Telegram does not like to see Premier Meighen showing a weakness in the knee as the General election campaign approaches. The Telegram says that "Mr. Meighen is reported as saying that his stay in the political sphere may not be prolonged and that he may return to the practice of his profession." The same paper says: "The country expects Mr. Meighen to talk and act like a winner." In other words The Telegram wants the Premier to say what he does not believe.

Citizens of Toronto waited long for the time when the street railway would be operated by the City. Well the transfer was made on the first of September. We have not heard that the system has been improved, but the fare has been raised from 5 to 7 cents, or four tickets for a quarter instead of six as formerly.

Premier Meighen, in his first speech after his announcement of a General Election, said that the trade question would be the principal topic to be discussed. A number of the Tory newspapers, however, are already raising the "loyalty" cry as heretofore, and are reminding their readers that we belong to "the greatest empire on which the Sun ever set," that the "grand old flag" is again in danger, and that we should keep a watchful eye on "our neighbors to the south." Sure signs of a near election.

The Canadian National Exhibition of 1921 scored another success. All reasonable visitors appear to have been satisfied. In fact the only growlers were in the dog show.

Look how far you've gone since your crank-case was cleaned—

IF you have gone more than 1,000 miles without having your crank-case cleaned; chances are ten to one that your operating expenses are about twice what they should be. Very likely the snug-fitting and rapidly moving parts in your motor are burning and wearing themselves out at an alarmingly rapid rate, too.

Dirty oil, filled with grit, mineral particles and road dust cannot lubricate. Your crank-case should be thoroughly cleaned and refilled with fresh lubricating oil at least every 1,000 miles—more often if your car gets hard usage.

Imperial Polarine Crank-Case Service Dealers are particularly equipped to deliver 100% cleaning service. Imperial Flushing Oil, the scientific cleaning agent employed by them, gives unsurpassed results which are not possible with kerosene (coal oil) or similar things that are altogether unsuited for crank-case cleaning.

This is economy year. Clean oil and a clean engine will save you a lot of money. To-day: Drive 'round to one of the addresses listed at the left, or to any dealer who displays the Blue Imperial Crank-case Service Sign. Prompt reliable crank-case cleaning is assured.
