IN MEMORIAM

In loving memory of my dear husband and father, George Chapman, who passed away, April 5, 1918.

Deep in our hearts lies a picture of a loved one laid to rest.

In Memory's frame we shall keep him,

For he was one of the best.

Our lips cannot speak how we loved him,

Our lips cannot tell what to say.

God only knows how we miss him as we travel life's rough way.

Sadly missed by wife and family.

Rust Defying - Because Hot Galvanized

There's one feature in particular you'll appreciate about Toronto Stable Equipment. It's the only Stable Equipment made in Canada in which the galvanizing thoroughly covers and completely coats the metal and the inside of steel tubes as well. This method makes it absolutely rust defying and proof against strong stable acids for the maximum period—while the method ordinarily used simply applies a surface coating and goes only a short distance inside tubing.

Toronto Stable Equipment will make work easier—keep cattle healthier—bring more profits. Let me explain the many advantages of Toronto Stalls, Bull Pens, Water Bowls and Litter Carriers.

WE KNOW THESE ARE FACTS

"CANADIAN" fence is bigger, better, stronger and more perfectly galvanized than others. We are convinced that this fence made by THE CANADIAN STEEL & WIRE CO., LIMITED, at Hamilton, is everything it is represented to be.

It's such splendid value that we'll stake our reputation on it every time. All we ask is a chance to show you the wonderful "CANADIAN" fence and the equally wonderful and durable "AMERICAN" galvanized steel fence post.

We can sell you this fence as cheap as you can buy fence anywhere.

Here's the Point

Do you throw away an overcoat just because the weather is warm for a few days or do you keep it for a cold spell?

Then why throw away a good opportunity for insurance just because you think next month will do? It is the unexpected that always happens.

Accident and sickness insurance is a grand protection for you and family.
