DO YOU KNOW US ?

Since commencing our series of weekly writings in this column early in March, many ladies who had not hitherto visited our store, have made our acquaintance, and if figures are any criterion our business is rapidly increasing, the obvious reason being that the intrinsic value of the various classes of merchandise we are showing, is daily becoming more widely known and appreciated.

Now that brighter days are here, reminiscent of summer, we have replenished our stock accordingly, and have this week a special camisole in silk crepe and Dresden, made in sizes 36 to 42, price \$1.29. This line will appeal to ladies of discriminating taste, being of the right depth, and suitable for day or evening wear, a great point in its favour. This quotation is based upon our usual margin of profit, and eliminates competition.

We are using more than ordinary prudence in gauging the requirements of a clientele whose confidence we now have, and which we shall endeavour to retain by business enterprise and determination.

We save you money and you get something different.

A Greek once had an argument with a Roman about the use of Tea and Coffee. — Said he — "I bet you ten simoleons I can make a drink from burnt peas, and the people will buy it." "I take you Steve" said the Roman — Well you know the result — The Greek won. However, there are still people who are old-fashioned enough to prefer a good one of its goodness, Duncan's English Breakfast Tea and Java and Mocha Coffee.
