It is the PREST-O-PLATES in PREST-O-LITE Batteries that Give Longer Life and More "Pep"

THE life of a battery depends upon the plates. That is why Prest-O-Lite, when it set out to make the Automobile Battery better, began with the plates.

Always a maker of a better plate, it turned its scientific skill and research to improving it and produced Prest-O-Lite Plates—the long-lasting Plate.

Here is a battery plate as different from ordinary plates as gold is from gilt. Unusual hardness combined with a peculiar porosity gives it unrivaled durability.

This explains its ready reserve power in biting zero weather and its great non-buckling strength that resists overheating in summer.

That is why the Prest-O-Lite Battery outlives an ordinary battery and

why it is the best all-weather battery.

Drive around to the local Prest-O-Lite Service Station and ask about a Prest-O-Lite for your car.

Prest-O-Lite Batteries are Canadian thru and thru.

Here's the Point

Do you throw away an overcoat just because the weather is warm for a few days or do you keep it for a cold spell?

Then why throw away a good opportunity for insurance just because you think next month will do? It is the unexpected that always happens.

Accident and sickness insurance is a grand protection for you and family.

3 Outstanding McLaughlin-Buick Features

DAVID HILL & CO.,
 Dealers
 Richmond Hill

The power and dependability of the McLaughlin-Buick valve-in-head motor, the positive yet easy action of the McLaughlin-Buick multiple disc clutch and the McLaughlin-Buick torque tube drive rear axle with its certainty of performance—are three of the principal reasons why more McLaughlin-Buick cars are in use today than any other make save one.

We'll be pleased to have you ask for a demonstration.

Better Cars are Being Built, and McLaughlin is Building Them.

Self-Oiling Windmills "Oil Once a Year"

I can now show you a Windmill that requires "oil only once a year."

The TORONTO Self-Oiling Windmill.

All gears operate in a bath of special oil which is not affected by either heat or cold—every bearing and working part is thoroughly and automatically lubricated.

No more climbing towers in all kinds of weather to oil the Mill. The NEW TORONTO requires "oil only once a year."

If you already own a TORONTO Windmill, I can give you this self-oiling feature by merely interchanging the head and using your present wheel.

This New Mill is worth looking over—call in and I will be pleased to give you full information and prices
