### YOU'LL GET GOOD ENSILAGE

With a **TORONTO** Silo

I HANDLE the Toronto Hip Roof Silo because I want to give my customers the biggest value.

You can't have good ensilage unless you have a good silo. And Toronto Silos are good silos. Made of wood—the best non-conductor of heat and cold. Sturdily built from double

tongued and grooved staves of selected spruce impregnated with creosote, they give adequate protection against air and frost. Their special Hip Roof provides more space for filling.

I can show you where a Toronto Silo will mean more productive cattle, bigger profits, a more valuable farm—dollars in your pocket. Let's talk it over.
