### Get Ready for the Chase Special Train for Hunters

The open season for hunting deer and moose in Northern Ontario is rapidly approaching. South of the French and Mattawa rivers Nov. 5th to Nov. 20th inclusive; north and west of these rivers, Oct. 25th to Nov. 30th, inclusive. North of the Transcontinental Railway Line the season is from Sept. 15th to Nov. 15th inclusive.

The Canadian National Railways traverse the finest hunting territory in this country. This fact with their special and regular train service makes "The National Way" the premier line for the hunter. The hunting grounds are so vast there is game for everyone.

The selection of grounds is a most important matter and one requires careful study. The territory reached by the Canadian National lines north of Parry Sound is already a favorite one, but the new country east and west of Capreol is as yet comparatively little known to the Hunter and should therefore, be highly attractive to the follower of the deer and moose.

The Canadian National Railways are providing special train services which with regular trains will meet all demands. Special trains will be operated as follows: Leave Toronto Union Station 11.15 p.m. October 31st for Capreol and intermediate points, and 11.15 p.m. November 2nd 3rd and 4th for Key Jet, and intermediate points. The usual ample accommodation of sleeping cars, baggage cars and coaches will be provided.

The Annual Hunter's Leaflet issued by the Canadian National Railways is now ready for distribution, and may be obtained on application to any agent of the Company, or write General Passenger Department, Room 607 Royal Bank Bldg., Toronto.

## You Need a Good Engine

You can't realize the money-saving value of a good farm engine until you've seen how much more quickly and efficiently you can clear up the numerous odd jobs about the farm.

For milking, separating, churning,

ing, sawing, grinding, sharpening tools, mixing cement, shelling corn, filling the silo—there's nothing I know of that will give better service with so little attention as a Toronto Engine. And they operate on either kerosene or gasoline.

Let me explain in detail these sturdy little workers next time you pass my way. Don't forget to see their able assistants—The Toronto Saw and the Toronto Grain Grinder—at the same time.

J. Lunau, Agent, Richmond Hill
