Board of Education meets the Council

On Monday evening a deputation from the Board of Education waited on the Village Council and presented a requisition for a new High School. After going into the details very carefully, the Council expressed themselves as being entirely in favor of the proposition. They did not feel, however they could take the responsibility of passing the necessary By-law themselves, but decided to submit the same to the people.

The Council assured the Board of Education of their support and co-operation, and the Board of Education appreciate the prompt and efficient way in which the Council prepared and put the proposed By-law through its necessary readings, prior to publication this week.

I Want to Put Dollars In Your Pocket

There is no need to make a special trip to town for a load of chop if you have a Toronto Farm Engine and Grain Grinder of your own. And besides, it will save you a few cents on every bag.

Coarse or fine chop—for cattle or hogs—I would recommend the Toronto Grinder for efficiency and economy on your farm.

A Toronto Farm Engine, too, is a great labor saver. Attach it to your pulper, pump, cutting box, cream separator or fanning mill.

Think of the labor saved! It pays for itself in one winter.

I'll put dollars in your pocket if you'll come in and discuss Toronto Farm Equipment with me.
