### Philosophy of Having a Good Time.

Take the "G" out of toil and you have oil. You can't take the hard work out of farming as easily as that, but a little run robs it of much of its drudgery. Good times are the oil in the toil of agriculture. That is what a great many sincere persons overlook who study economics more than human nature.

When we attempt to organize a farmers' association, what is done? Why right away a vast amount of talking is committed anent education and improvement. Both are good, of course, and the farmer, in common with all humanity, wants to improve — there's a difference between improving and being improved — but he's not always too sure that the association will effect the improvement.

To begin with, he is often not too well acquainted with his real neighbors—the men in the inside of the men he knows now show themselves only to kindred spirits. Then after a hard day's work he is prone to stay quietly at home in preference to driving several miles to discuss, under a smoky lamp, the old problems in much the same old way.

But there's one thing everyone wants—a good time. Everyone takes his recreation in some form — only there's nothing collective about it; each goes his own way at his own time. Really persuade the neighbors once that they can have a better time at the club meeting than they can at home, and they'll go without coaxing.

So that seems the logical starting point. A leader never finds it hard to get people to organize for pleasure—to have a good time.

And it leads to great things, too. As people become better acquainted mutual respect and confidence develop. That is the fundamental and first step to business co-operation.— Ontario Department of Agriculture.

THE simple fact is this: there is nothing quite so good for pains and aches as Templeton's Rheumatic Capsules. The medicinal power they contain is absorbed by the blood and so carried to the seat of the pain. T. R. C.'s contain no habit-forming drugs. Their action is to remove the cause of the pain.

USING T.R.C.'s is not an experiment, many thousands of Canadians have proved the effectiveness of T.R.C.'s. The best test you can make is to get a dollar box from your druggist, or for free sample write J. G. Templeton & Co., Toronto. A postal card will bring it.

## Strong Position Reported by Standard Bank of Canada

Profits Show Increase Over Previous Year—General Business Well Maintained Throughout Country—Liquid Assets Equal to 48 per cent. of Total Liabilities to the Public.

In a year of lessened business activity and readjustment of special accounts with the Government, The Standard Bank of Canada saw its business well maintained and was able to report to shareholders profits for the fiscal year ended January 31st, of \$728,074 as against \$725,014 in the previous year. Such a result should be particularly satisfactory to shareholders and is an indication of the high class of business the bank is handling throughout the Dominion.

An analysis of the general statement of assets and liabilities indicates the strong position in which the bank has maintained itself during the readjustment period. Of total assets of \$78,719,264, liquid or immediately available assets amount to \$32,107,431 being equal to approximately 48 per cent. of total liabilities to the public. Included in this amount is cash and Dominion notes of \$11,991,770. Among the principal accounts included in liquid assets are Dominion notes \$9,222,301, current coin held by the bank \$1,769,469 and deposit in Central Gold Reserves \$1,000,000.

The liquid assets reflect the steady settlement with the Government of the special business which was undertaken during the war period and as a result Dominion and Provincial Government securities amount to \$7,883,503 down from \$9,029,521. Other principal accounts are cheques on other banks \$3,375,561. Canadian municipal securities and British, foreign and colonial public securities, other than Canadian \$2,462,050 and Railway and

other bonds \$1,082,051. Call and short loans, not exceeding thirty days, indicate the lessened demand for commercial accommodation, having gained to \$3,376,097, as compared with \$2,809,230.

The general business of the Bank throughout the Dominion has been well maintained, notwithstanding the smaller requirements of general trade and industry and total current loans in Canada amount to \$42,898,816, while loans to cities, towns and municipalities total \$1,696,989.

As a result of its organization being centred more in the older districts of the country, deposits of the bank have held well up to the level of previous years. Deposits bearing interest amount to \$50,574,794 and deposits not bearing interest \$11,502,064, making a total of \$62,076,859.

#### Profit and Loss Account

The Profit and Loss Account shows that the profits of the year, added to the amount carried forward from the previous year, the total available for distribution was \$810,466. Of this amount dividends required \$660,000, war tax on bank note circulation \$40,000, reserve for Dominion income tax \$55,000, contributed to officers' pension fund \$25,000, leaving a balance to be carried forward into the new year of \$160,566, as compared with \$112,492 at the end of the previous year.

This is the first year that the Bank has had the advantage during the entire twelve months of its larger capital and reserve. The capital now stands at \$4,000,000 and the reserve at \$5,000,000.
