**Cheap Power FROM Good Windmills**  
**TORONTO**  
**Running Water!**  
**When and Where You Want It**  
 On any farm of average size at least one hour a day—36½ ten hour working days a year—are spent in the irksome, wearying task of pumping water. 36½ days which one of my Toronto Windmills will give you for profitable work, rest or recreation—besides supplying running water wherever you want it.  
 The one bothersome task, that of oiling the windmill in all kinds of weather, is overcome in the Toronto Self-Oiler, which requires fresh oil only "once a year." Friction and wear are practically abolished. Toronto windmills, too, can be made absolutely self-regulating in operation.  
 The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. Let me explain why I believe this is one of the biggest conveniences you can have.  
 J. Lunau, Agent, Richmond Hill

 To the Ladies—if you want a suit or coat not made to order, I can save you money by taking you to Jno. Northway & Sons', factory and let you select one there.
