SELF-OILING — SELF-REGULATING

With the Strongest Tower Built

It's the "Toronto" Self-Oiling Windmill—requiring "oil only once a year". All gears operate in a bath of special oil affected by neither heat nor cold—every bearing and working part thoroughly and automatically lubricated.

TORONTO

If you have a "Toronto" Windmill now, you can obtain this self-oiling feature by interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation. The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. See this new Mill now—or get my booklet.

Northway, M. T. Biedin and George Leacock.

Junior Farmers' Field Day

On Saturday afternoon, June 2, the Junior Farmers' Clubs of York County held their annual athletic field day at Richmond Hill Fair grounds. Owing to counter attractions, the attendance was not as large as last year, but the number of entries was considerably larger, running as high as 16 in both boys and girls events. That competition was keen at all times is evidenced by the fact that 16 boys and 8 girls from the various townships captured prizes during the afternoon. At the close of the afternoon's programme Mr. R. S. Duncan, of the Department of Agriculture, presented the ribbons to the winners in each event and medals to the girl and boy with the highest number of points. The beautiful shield which has been donated by the Junior Farmers' for annual inter-township competition in athletics was presented by Mr. R. J. Rogers, Agricultural Representative, to the team from Whitechurch.
