We believe it was the late Sir Jchn Macdonald who said that nothing was more uncertain than an election or a horse race. The Globe, however, in referring to the latter makes one thing quite clear when it says: "The Zev-Papyrus race p oves once more that one horse can un faster than another."

"THE YELLOW PERIL"

By a Canadian Press Cable from London it is evident the government of British Columbia has lost its appeal on the yellow labor issue. The orders-in-council passed by the B. C. government are to the effect that in all contracts leases and concessions entered into by the government of British Columbia provision should be made that no Chinese or Japanese should be employed.

The government of that Western province may claim that the labor belongs to the white population, but from a Christian standpoint it scarcely seems humane that so-called foreigners should not be allowed to earn their bread and butter. It too often happens that foreigners are brought to this country when railroads art to be built through swamps where men have to work in mud and slush up to their waists, only to be replaced by Canadians when the disagreeable work is done. Most of us can repeat the Golden Rule, but not all of us follow its teachings.

SELF-OILING — SELF-REGULATING With the Strongest Tower Built

It's the "Toronto" Self-Oiling Windmill-requiring "oil only once a year". All gears operate in a bath of special oil affected by neither heat nor cold-every bearing and

working part thoroughly and automatically lubricated.

If you have a "Toronto" Windmill now, you can obtain this self-oiling feature by interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation. The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. See this new Mill now-or get my booklet.

Order Books for Present Model Ford Closed Cars Will Close November 1st

Automobile and Truck Manufacturers

Ford, Ontario.

October 12th, 1923.

TO ALL CANADIAN FORD DRALERS

When this organisation decided, September 20th, to bring out the Four-door Sedan and redesigned Coupe models, we had on hand approximately 4600 present type bodies. To ascertain how the buying public would react on Ford car

prices heretofore unprecedented, we reduced each closed model \$100. in price-the Coupe to \$595., the Sedan to \$685, both F.O.B. Ford, Ontario (Government Taxes extra . The response has been such that we have on hand now only 696 of these models to dispose of. This demand is evidence that the public app-

reciates values, and we take this opportunity of thanking you, and through

you, the public in appreciation of their action. In view of our appreciation, and in order that you may play entirely fair with the Ford buying public, we think it advisable to inform you that at the present rate it is a matter of days before all these jobs will be completely disposed of to dealers. In any event, we will not be able to entertain orders from dealers on or after November 1st. On that date we will

close our books. We reserve the right to do this earlier, if necessary. If you have any orders you wish to deliver to the public after November 1st, it will be necessary for you to place them with us before Novem-

All orders should, therefore, be taken by you with no obligation to deliver/except as prior orders permit.

We must protect ourselves in the same way - we can deliver your orders placed with us only as prior orders permit and as long as the above number of cars last.

Yours very truly, FORD MOTOR COMPANY OF CANADA, Limited,

The information in this letter should be known to every prospective Ford buyer. It opens up an opportunity for the family without a closed car to get one at prices which will probably not be as low again.

This is an opportunity for the man with a large car to relieve the larger car and decrease its depreciation, especially during the coming winter months.
