\$3,000 00

As evidence of deep sympathy with the neighboring nation at this time, the flags on all buildings in Ottawa, the Canadian Capital, were at half-mast until after the obsequies in Washington yesterday, thus showing that Canada mourns with the United States over the death of Woodrow Wilson.

Canada is grateful for gifts received from time to time by men of wealth. Out of the four appropriations, aggregating \$2,725,000, recently announced by the Rockefeller Foundation, two come to Canada. A gift of \$1,000,000 comes to the medical school of the University of Toronto, and \$500,000 is given for the endowment of the medical school of the University of Alberta.

Now, please, do not let us hear any person say "Coal Oil will go up in price" after such munificent gifts. The giving away of money does not make it any easier to raise the price of oil.

Under the heading of "Personal Liberty" the Country Gentleman newspaper has an article bearing on the results of what is known as the "right of men indulging in intoxicating liquor." Figures furnished by the coroner of the State, show that at least 875 persons made the supreme sacrifice in the cause in Philadelphia in the year 1923. That number who refused to have their rights restricted by the 18th amendment died from drinking poison liquor.

Personal Liberty, British Liberty and Personal Freedom are phrases that may look well in print, but in too many cases "the end thereof is death."

Reply to Ratepayer

Mr. Editor:—Replying to Mr. Ratepayer who seemed ashamed of his name and for the benefit of all those who did not attend the meeting, at 6 p.m. I rang up Mr. McLean, Vice-President, and asked him if he would see that there was a good fire in the council chambers at 6:30. He rang me up stating that there had been no fire in hall all day and as it was 8 below zero that it would be impossible to heat the hall in time for the meeting.

I asked him to have a large card nailed on the door calling the meeting in the school room, which he did, and I would get permission from the school board which was granted. I might say in conclusion that if Mr. Ratepayer was interested to have the officers appointed he would have been interested enough to go as far as the door and see if the meeting was held any place else, or if postponed to another date.

You can readily see, Mr. Editor, that everything was done that was possible in the interest of the ratepayer, and the comfort of those who attended the meeting.

Thanking you for your valuable space.

Yours,
J. A. GREENE, President.
J. McLEAN, 1st Vice-President.

Why Ford Predominates

The Empire Builders

From time immemorial, Britons have gone forth and pioneered the remote corners of the earth.

In the face of seemingly insuperable difficulties they have built up a world-wide trade—trade that grew and flourished in spite of the limitations of those primitive burden-bearers, the native carriers, the mule train and the camel caravan.

Ford carries the burdens of Empire trade on the hill-trails of India, on the African veldt, on the sheep-stations of Australia and New Zealand, on the plantations of Ceylon and Burma, on the rubber estates of Malaya and on the jungle-paths of Borneo.

Universal usage under all these conditions has stamped the Ford as dependable transportation.

Made in Canada for the Empire
